

A Discovery of Vast Importance

It Is Now Admitted That Bronchitis, Asthma, Catarrh, Coughs, and Colds Can Only Be Quickly Cured By Mixing a New Medicine With the Air You Breathe.

Scientists acknowledge that medicated air treatment is the only treatment that will cure these diseases, and that stomach medicines are worse than useless.

Catarrhozone air treatment has been found to be the most effective way to cure all diseases of the throat, lungs, and nasal passages. Its action is so prompt that in less than an hour an ordinary cold is cured, and after a more thorough use of Catarrhozone, Bronchitis, Catarrh, and all diseases of the throat and lungs are completely cured.

Catarrhozone is a very simple and powerful method of treatment. You simply breathe it through the inhaler and it immediately passes over every air cell of the throat, lungs, and bronchial tubes, curing and healing as it goes.

Catarrhozone treatment affords little drops of healing for sore places in the lungs, throat, and nasal passages.

NOTE AND COMMENT.

Should female teachers draw the same salary as male teachers, is a question that on the face of it must inevitably in justice be answered in the affirmative. Ability to perform a certain work is the basis upon which salaries are generally paid, yet the average trustee takes the ground that male teachers should receive more for their services than female. Of course, on the other hand, the male teacher has more to do with his salary as a rule, having in many cases, a family to keep, which is not often the lot of the lady teacher. Recently the lady teachers of New York have obtained from the civic Government a recognition of the principle that there should be no discrimination against their sex in the matter of pay.

DON'T SAY YOU'RE OLD

You Only Feel Old

Digestive organs are weak—don't assimilate food as they used to. Other organs act more slowly and less effectually.

Blood is thin and sluggish.

Renewal of strength does not equal the wear and tear of your system. That's what makes you feel old.

Nothing in the world will tone up and invigorate those weak, back-sliding organs, make rich blood and create strength so quickly as Vinol.

Vinol is not a secret nostrum, simply the medicinal elements of the cod's livers, with the useless nauseating oil eliminated, and tonic iron added. Try a bottle of Vinol with the understanding that your money will be returned if it does not make you stronger, feel younger and give you an added interest in life.

A man who has made a happy home for his wife and children, no matter what he has done in the way of achieving wealth and honor; if he has done that, he is a grand success. If he has not done that, and it is his own fault, though he be the highest in the land, he is a most pitiable failure. We wonder how many men in a mad pursuit of gold, which characterizes the age, realize that there is no fortune which can be left to their families as great as the memory of a happy home.

"The water of the villages and rural districts of Ontario is bad, very bad," said Dr. W. T. Connell, Queen's University, Kingston, in an address on "Water Supply" to the Women's Institute convention at the Guild Hall, Toronto. "Out of one thousand samples of well water of eastern Ontario I found two-thirds of them to be polluted, and in one village eighty per cent. of the wells were polluted. In eastern Ontario nearly all the wells are surface wells and this accounts for the bad condition of the water. There is more typhoid in our rural districts than in any of our cities and the cause of this is that in many cases the wells are too near the pig pen, the horse stable, or worse still, the barnyard."

Party journalism is amusing during an election campaign. If Premier Whitney makes a speech the Mail applauds it as a wonderful deliverance, full of brilliant ideas and practical legislation, while The Globe can see nothing wonderful about it at all, and almost weeps when it thinks of what a poor imitation of a statesman Sir James is. But if Mr. Rowell addresses the populace then The Globe swells out and points with pride to the magnificent, eloquent, convincing, earnest speech of the new leader, and The Mail will speak of the self-same address as a most disappointing, weak-kneed affair. Yes, party papers have Puck and Judge nailed to the wall for real humor in an election campaign.

A Dollar's Worth That is Worth While.

Few papers on the continent hold the place in the confidence of the people that the Weekly Globe and Canada Farmer, with its Illustrated Magazine Section, does to-day. For three score and seven years it has been accorded the foremost place among the metropolitan weeklies of Canada. Not satisfied with this, the enterprising management that has made The Daily Globe one of the leading newspapers on the continent has increased the size of the Weekly Globe and Canada Farmer and added several new writers to the staff in order that it may keep pace with the progressive spirit that is permeating our urban and rural population.

The mail service and great distances make it almost impossible for a large portion of the people to get the benefit of the splendidly equipped news and telegraph service of The Daily Globe.

By this addition to the staff and enlargement of the paper the management of the Weekly Globe and Canada Farmer hope to compensate those who must be satisfied with a paper once a week by giving them all the week's news in a brief and comprehensive form, thereby increasing the paper's usefulness, interest and educative value.

In order to get more people acquainted with it in its new form the publishers of the Weekly Globe and Canada Farmer are giving those who subscribe for one year before the 31st of December, 1911, a copy of "Daddy's Girl," which was described in these columns last week. A sample copy of this beautiful picture may be seen at this office, and arrangements made for your subscription.

Gillfillan—Goetz.

A pretty and quiet wedding took place at high noon on Wednesday, November 22nd, at the home of Mr. and Mrs. John Goetz, Sebringville, when their only daughter El'ia, was united in marriage to William G. Gillfillan, manager of the Sterling Bank, Port Burwell. Rev. Mr. Warren, B.A., officiated. Miss Lynn Goetz, cousin of the bride, played Mendelssohn's wedding march. Among the out of town guests were Mr. and Mrs. Gillfillan, of Toronto, parents of the groom, Reginald Gillfillan, of the Merchants Bank, and W. A. Goetz, Osgoode Hall, Toronto, brother of the bride. The

happy couple were kindly remembered by their many friends with numerous and valuable presents. On return from their wedding trip east they will reside in Port Burwell. This bride is well known in Sarnia, having been an occasional visitor at the home of her aunt, Mrs. Wm. J. Ward, Waldorf. Mr. Gillfillan is well known in Watford, having been on the staff of the Sterling Bank here some years ago.

Killed by a Bull.

Joseph Alderman, one of the township's best known farmers, was killed by a bull in his barn on lot 6, con. 1, Brooke, on Sunday evening shortly after five o'clock.

Mr. Alderman had gone to his barn to tie up the animal, telling his wife that he would be back to the house in a few minutes. At no appearance of her husband, Mrs. Alderman grew uneasy and went to the barn where she found her husband lying in a gutter and the infuriated animal tramping him to death.

A son was phoned for and he succeeded in driving the animal off, but it was too late, Joseph Alderman's life had fled.

The animal was a Shorthorn Durham and not long ago deceased had beaten it off when the brute attacked him. Sunday evening an Inwood butcher appeared on the scene and despatched the animal.

Deceased was 59 years and 11 months old and leaves besides his wife a grown-up family. The funeral was held Thursday to Kickard's cemetery.

Smallest Typewriter.

The London papers tell of a novelty in the way of a midget typewriter that has just been put on the market. It is made to look like a watch and is not much bulkier. There is a revolving disk provided around its edge with rubber type. An indicator on the outside shows what letter is in position to print. The printing itself is done by placing the apparatus on the sheet of paper, turning the disk until the desired letter is in place, and then pushing down on the little stem or knob in the ring.

It is hardly to be expected that this machine will do the work of the best 100 typewriters, but with practice it can be operated with considerable speed and the writing looks very creditable. Many kinds of miniature typewriters have been got up, but this is the "last word" in that line.

INWOOD.

A. H. J., of Inwood, asked the Toronto Mail-Empire the following question:— "If a man is hired for 7 months, how many holidays is he entitled to? (2) Must he commence work at six o'clock in the morning and can he stop at 6 o'clock at night? Ans.—The man is entitled to have all the legal holidays unless he has agreed to work on such days. (2) Farm laborers are usually expected to be ready for work that is ready to do the chores about the place, such as attending to cattle and horses shortly after daylight. They, then have breakfast, and after breakfast commence the regular work of the day, and are expected to work until dark with an hour at noon for rest and dinner.
