

## 25 Cents to Stop that Itch

Does it not seem strange that so many people suffer year in and year out with eczema?  
A 25 cent bottle of a simple wash stops the itch and will surely convince any patient.  
This wash is composed of mild and soothing oil of wintergreen mixed with thymol and glycerine, etc., and known

- (12) Hon. Thos. Wilson Crothers, K.C., Minister of Labor; born 1850.
- (13) Hon. Wilfrid Bruno Nantel, K.C., LL.D., Minister of Inland Revenue; born 1857.
- (14) Hon. John Dowsley Reid, M.D., Minister of Customs; born 1859.
- (15) Hon. Martin Burrell, Minister of Agriculture; born 1858.
- (16) Hon. George Halsey Parley.

Minister without portfolio; born 1857.  
(17) Hon. Albert Edward Kemp, Minister without portfolio; born 1858.  
(18) Hon. James Alex. Loughheed, K.C., Senator, Minister without portfolio; born 1854.  
Thirteen Ministers were born in the '50's, four in the '60's, and one (Mr. Foster) in the '40's. There are eight K.C.'s in the Cabinet, two M.D.'s, and seven LL.D.'s.

### NOTE AND COMMENT.

The Stratford Beacon says: "The food inspector of Montreal has confiscated during the last nine months no less than 250 tons of meat, fruit and breadstuffs unfit for human food. This is another argument for the inspection of all meats offered for sale in Stratford when the animals were slaughtered."

It will be noted that so far as Great Britain is concerned, where one man is worrying about war hundreds and thousands are concerning themselves about cricket matches and boat and horse races, and the new feature of the music hall shows. The world is not so foolish as those who think they make its opinions imagine it is.—Montreal Gazette.

The Australian Federal House of Representatives has passed without a division the second reading of the bill providing a maternity allowance in respect to any child born in Australia. Mothers will receive a maximum benefit of £5, which must be claimed within three months from the birth of a child. The measure excludes aborigines and Asiatics.

A young woman in Cambridge, Mass., married three years ago and a few months later found that her husband had another wife living. Last spring she married again and now she has discovered that this second husband also has another wife living. She says now that she'll live and die an old maid, but spirited young women are always making that resolve after the first or second disappointment.

Out in China a newspaper which has been printed for fifteen hundred years, has just been suppressed. At a time when the art of printing and journalism were as yet unknown in Europe, and many centuries before the American continent was known to exist, the Chinese invented a means for making types from lead and silver, and in the year 400 A.D. the paper "King-Bao" was printed, and has since been issued regularly until recently. The first edition was printed on ten sheets of yellow silk neatly tied together and was thus sent to all the high officials of the Chinese Empire. Which all goes to show that we Westerners are very young after all.—Saturday Night.

A hundred years of peace has been good for Canada inasmuch as it has enabled her to grow commercially. But it is bad for Canada because neither nation nor man can grow strong and self-reliant when the path is free of obstacles. Besides, it has made Canadians think that when people cry "wolf" there is no wolf and they take no precautions for their own safety. Also it has given them time to think of differences of race and creed within their own borders. With a common cause to fight for, Canadians would be one great whole and all these minor differences would be forgotten in concern for the nation. Neither man nor country can, it seems, stand uninterrupted prosperity and perpetual sunshine. The one hundred years of peace has created problems for Canada to solve, just as war creates its problems.—Ex.

The small daughter of a practising physician, who evidently has an eye to business, told her mother, in no uncertain terms, that she must call at once on their new neighbor.  
"And why must I call on her?" asked the mother, amused at the child's positiveness.  
"Well, in the first place," explained the little lady, "they've got three of the scrawniest kids, and the mother herself doesn't look very strong."

You may be paid \$50 in Cash for improving your walk like this

108 Canadian farmers will receive cash prizes (twelve in each Province) in our big  
**1912 FARMERS' PRIZE CONTEST**

WE held a contest last year in which 36 prizes were offered. This year there will be three times as many prizes (108) and therefore three times as many chances for you to win one of them. You do not have to use a large quantity of cement to win a prize. Many of last year's prize-winners used comparatively little cement.

THE contest is divided into three classes and in only one of these (Class "A") does the amount of cement used count in deciding prize winners. Class "B" is for doing the best concrete work (the size makes no difference). Class "C" is for sending in the best and clearest description of how any piece of concrete work was done.

THERE will be four prizes (First, \$50; Second, \$25; Third, \$15; Fourth, \$10) in each class in each Province. Thus you have only to compete with other farmers in your own Province, and not with those in all parts of Canada. This gives you the best possible chance to win a \$50 prize.

IT COSTS NOTHING TO ENTER—There are absolutely no "strings" to this offer. There is no entry fee or red tape to bother with. You cannot lose, because the improvements you make of concrete in competing for the prizes will be more than worth their cost. We have a book, "What the Farmer Can Do With Concrete," that will give you all the information about the use of concrete you can need. It will be sent to you free when you ask us for complete particulars of the Prize Contest. Ask for particulars to-day. Just say "Send me, free, your book and full particulars of the 1912 Prize Contest," on a post card and mail it to-day. Address Publicity Manager.
