

by the lives of its ministers. They are Socialists or Atheists; and, while the pious people of Ireland bear incomparably greater evils without being goaded into outrage, they unhesitatingly turn their godless minds to plunder and insurrection. The awful extent to which the principles of infidelity have spread in England will be indicated by the fact, that they have a regular organ, boldly named "The Atheist and Republican!" From a recent number of this infamous journal we borrow an extract, which will show to what a height of audacity they have arrived, by the spread of their debasing principles:—

"Nothing is more surprising, and, at the same time, more painful to witness, than the immense waste of time and talent which has been caused by the various attempts to prove the being and attributes of God; all which attempts have ended in proving, to the satisfaction of every person of common sense, that no such being exists."

"The priest shall be abased; his roin is made certain by the people's attention being continually attracted to the exposure of his lies, his villainous, his persecutions, his plunders, his murders, his whoredom, fornication, adultery, and unmentionable crimes. His lies are being exposed to the people; the sublime intellect of Voltaire and Paine reflects itself through the general press, and begins to assimilate with its own nature the common mind."

"Among the Chartists' we arisen two sets of men as teachers—one set determined to have no connexion with religion; another, a mean-devil, selfish set, wishing to turn their conscience into any shape to amuse the people and get a living out of them. These fellows call themselves Christian Chartists—CHRISTIANS! Why, imbecile as they are, they are too knowing for that. We chance to be acquainted with the private views of these gentry, and can safely say they are, for the most part, mere bits of Deists who want to get an exemption from toil. They fancy, however, that they are doing good in preaching up a new religion, consisting principally of Phrenology and George Combsism! They preach their views from the "Constitution of Man," with a brazen face argue through a sermon to prove it Christianity!"

"We have just received a file of the Boston Investigator containing the most cheering intelligence concerning the spread of our views. It mentions the soul-stirring fact that there are now at least THREE INFIDEL PAPERS IN THE UNITED STATES!! Arouse yourselves, British Atheists, and we will soon have as many here. The people are ripe for a change; we have only to lay our system properly before them, and it will be universally adopted. We hope to have a regular interchange of intelligence between ourselves and the American Infidels, so that our friends on both sides of the Atlantic may see how rapidly our holy cause is progressing.

Such is the internal condition of England, our royal ruler, to whom we are told, we must live in legislative subjection to all eternity!—*Helfast Vindicator.*

CONVERSION TO CATHOLICITY.

Thomas Beran Sherlock, Esq., of Kiltcorney, in this country, whose remains passed through this town (Mallow) on Thursday morning, ter interment in the family burial place, near Fermoy, was received into the Catholic Church, by the efficient and esteemed curate of Clonmoru, the Rev. Kennedy O'Brien. The funeral was attended by several Catholic clergymen. The deceased, who was nephew to the rector of Dromaruff, was a Protestant up to a short time before his death.—*Cork Examiner.*

The Rev. Michael Dollard, the highly respectable and worthy curate of Castlemore, through whose active zeal and unremitting exertions the parishes of Castleconnell and Ahane have been reclaimed has received three Protestants in the Catholic church within the last few days.—*Limerick Reporter*

On Tuesday, the 30th ult., the Rev. Charles Kavanagh, parish priest of Balyhales, baptized and received into the bosom of the Catholic Church Abraham Moses, a Jew, a native of the city of Moscow.

TO OBTAIN DIFFERENT FLOWERS FROM THE SAME STEM.—Split a small twig of elder bush lengthways, and having scooped out the pith, fill each of the compartments with seeds of flowers, of different sorts, but which blossom about the same time; surround them with mould; and then tying together the two halves of the twig, plant the whole in a pot filled with earth properly prepared. The stems of the different flowers will then be so incorporated as to exhibit to the eye only one stem throwing out branches covered with flowers analogous to the seed which produced them.—(*Horticultural Mag.*)

SLEEP. The duration of sleep is various. Youth and young adults (says Dr. Elliotson) will habitually sleep soundly and uninterruptedly for eight or nine hours. Infants and old people sleep for short periods. Some persons are constitutionally sound and long sleepers. Infants sleep far more in the twenty-four hours than adults; very young, having but recently come in the waking state from the womb, they are awake but for short periods; and for the first two or three years more than once in the twenty-four hours. Old people sleep lightly and frequently; and altogether but little, unless lethargic diseases come upon them, which is very common. I heard Baxter, the coach-maker, declare he never took more than three hours sleep during the most active period of life. The celebrated General Elliot never sleeps more than four hours in the twenty-four; and his food consisted wholly of bread, and water and vegetables. Sir John Sinclair mentions a James Mackay, a remarkably robust and healthy man, who died in Strathnaver in 1707, aged ninety-one who only slept on an average, four hours in the twenty-four. "Frederick the Great," as he is called, and the truly great John Hunter, slept only five hours in the same period. Dr. Macnish, to whom I am indebted for these instances, says, "I know a lady who never sleeps above half an hour at a time, and the period of whose sleep does not exceed three or four hours in the twenty-four, and yet she is in the enjoyment of excellent health." Sir Gilbert Blane states that Gen. Pichegrue informed him that "in the course of his active campaigns, he had for a whole year not more than one hour of sleep, on an average, in the twenty-four hours. Sleep varies so much in the intensity, that a dead sleep of an hour may be equal repose to any ordinary sleep of many hours. The celebrated De Moivre slept twenty hours of the twenty-four; and old Thomas Parr latterly slept away by far the greatest part of his existence.

LETTERS AND CASH RECEIVED.

Blackville—Mrs. Henry Jones, 15s.
Alexandria—Ewen McDonald (2nd Lochiel), 10s.
Brantford—Rev. Mr. Mills, 7s. 6d.; and Mr. N. Halligan (Norwich), and McGaure (Dunville), each 7s. 6d.

LIN'S

CELESTIAL BALM OF CHINA.

For the cure of all diseases of Man or Beast that require external application.

FELLOW CITIZENS—Perhaps you think that this Balm is intended to cure too many diseases, but we assure you that all diseases of this character, and many others that might be mentioned, are speedily cured, or in truth persons greatly relieved, by the use of this medicine. We earnestly request the afflicted to give it a fair trial.

Have you a pain or soreness in the small of your back? If so, apply the Balm freely morning and evening with the flat of your hand, and occasionally rub the part well with a rough cloth, and it will certainly relieve you.

Have you the rheumatism? If so, wash the part affected with cold water and castile soap, then bathe it with warm vinegar, and rub well with a rough cloth, and then apply the Balm with the flat of your hand before the fire. Wash every third day, and use the Balm twice a day, and you will soon be free from this troublesome disease.

Have you a numbness or coldness in your legs, arms or feet? If so, rub the affected part well with a rough cloth, and apply this Balm freely twice a day, and in a short time it will be removed.

Have you the Piles? If so, apply the Balm three times a day, and in a short time you will be well.

Have you the Nettle Rash or Erysipelas? If so, apply the Balm three times a day, and all unpleasant sensations will soon disappear.

Have you sprained yourself? If so, apply the Balm three times a day, rubbing well with your hand, and it will soon be removed.

Have you Bruises or Burs? If so, apply the Balm three times a day, and you will soon be well.

Have you a Cut or Wound? If so, apply the Balm with a feather two or three times a day.

And are your Limb's or Joints swelled? If so, apply the Balm three times a day, and the swelling will soon disappear.

Have you the Tetter? If so, apply the Balm every morning and evening, washing every third day with castile soap, and removing the scurf from the surface of the skin.

Have you a pain in your Breast or Side? If so, apply this Balm morning and evening, rubbing it well with the flat of your hand, and you will soon be relieved.

Have you Sore Eyes? If so, wet a soft rag with the Balm, and apply it on the outside of the eyes every night on going to bed.

Are your toes, fingers or ears Frosted or Poisoned? If so, apply the Balm three times a day, and it will positively cure them.

Have you Corns on your Feet? If so, cut them well and apply the Balm, and it will generally cure them.

Have you itching or irritation of any parts?—Then apply this Balm thoroughly and it will cure you.

Have you fresh wounds of any kind? Spread the Balm on linen and keep it bound on the parts, changing daily, and it will heal without proud flesh or inflammation.

Have you an old sore that wont heal? Keep the Balm bound on it, renewing it daily, and it will soon heal from the bottom.

Be sure you get the true Balm from COMSTOCK & CO., and no other.

The above is for Sale, at all the Drug-gist Shops in Hamilton. October 5th, 1842.

Startling Facts

Hundreds of children and adults are lost yearly with worms; when some other cause has been supposed to be the true one.

It is admitted by all doctors that scarce a man woman or child exists but what are sooner or later troubled with worms, and in hundreds of cases, and to relate a supposed fever, rheumatism, cold, or some other ailment carries off flowers of the human family—while in truth they are of Worms! and these could have been eradicated in a day, by the use of a bottle of KOLM-STOCK'S VERMIFUGE, at the cost of a quarter of a dollar!

How sickening the thought that these hints should be—and who can ever forgive themselves for not trying WORM EXTERMINATOR, when they know that even if the case was not worms, this remedy could not by any possibility do hurt—but always good as a purgative—let the disease be what it may. How important then to use it, and who will dare to the responsibility to do without it? Let every parent that is not a brute, ask himself this question in truth and soberness.

Mr. J. O. RINGOLD had a child very sick for near two weeks and attended by a physician, without relief, when KOLM-STOCK'S VERMIFUGE was given, and next day more than forty worms were passed, when the child recovered rapidly.

A CHILD of a widow woman living near the Manhattan Water Works, had dwindled for a month, till near a skeleton, with great dryness of the mouth, and itching of the nose. A humane lady, who called to provide for the family, sent immediately for KOLM-STOCK'S VERMIFUGE which brought away great quantities of worms for two or three days, and the child grew better at once, and regained its full strength in less than a month.

Several Children in a highly respectable family in Broadway had worms to a frightful extent, and were all cured rapidly with this Vermifuge.

In some of the best families in the neighborhood of St. John's Park, it has been extensively used, from the circumstance of having eradicated a large quantity of worms, after all other remedies had failed, which was very extensively known in that part of the city.

A FAMILY IN NEW JERSEY saved several children by the use of it. One, a girl of eight years of age, had become exceedingly emaciated before the Vermifuge was given. The next day three large worms were dislodged, and she lost all the Vermifuge, when she became again worse, and had resort to the Vermifuge that finally brought away an incredible quantity of worms, and the cure was complete, and she gained her health rapidly.

A PHYSICIAN of standing, had doctored a family of children some weeks, without being able to restore but one out of seven to health. He had the liberality to send for KOLM-STOCK'S VERMIFUGE, and cured the rest with it in less than a week.

IN NUMEROUS cases other complaints were supposed to exist, and the persons treated for fever, &c. but finally a trial of this Vermifuge discovered the true cause of the sickness, by bringing away almost an innumerable quantity of worms, large and small, and the persons recovered with great despatch. INSTANCES of this kind might be cited to an immense extent, but it is useless, one trial for 25 cents will show any one with astonishment the certain effects of this Vermifuge.

Caution.—Never buy this article unless it have "Dr. Kolmstock's Vermifuge" handsomely engraved on the outside label, and the fac-simile of Comstock & Co.,
