**The Best  
None too Good**

You keep a canary in a cage where it cannot get nature's tonic except as you furnish these. They are found only in Brock's Bird Seed and Bird Treat. Give these regularly, keep clean, using plenty of sharp gravel. Never expose to draughts, which are fatal, and it will do well for you. Brock's Seed, Treat and Gravel, at all grocers, druggists and seedmen.
