	250	\$393 75	\$400 00

We publish the above list of Grants to Agricultural Societies in response to numerous inquiries which are made every year as to the method adopted in appropriating the monies in the different Counties. It will be seen that the grant for each County is distributed among its Societies in rateable proportion,—the whole amount to a County being limited to \$400 and no Society being empowered to draw more than \$250. Very full details of the working of Societies in every County of the Province will be given in the Annual Report of the Board now being printed for the House of Assembly.
