CHICAGO MARKET.

INDICATIONS THAT LIQUIDATION HAS CEASED IN WHEAT—PRICES ADVANCE TO-DAY.

Chicago, June 22.

European cables showed a slight improvement this morning and wheat opened at a small advance over yesterday's close. Some long wheat came out near the opening causing fractional declines for the moment, but there was every indication of good buying on all recessions. The later cables were a distinct improvement showing a ½ per cent. gain over those of the morning. On this there was a steady advance from 74½ for July to 75½, and in the other options proportionately. It looks as if liquidation was about over for the present, and wheat should sell at higher figures shortly.

Corn continued firm and closed at an advance over yesterday of ½ to 1 p.o.

Oats also firm. The pit is very bullish on account of small receipts.

Provisions declined slightly from yesterday's prices, the market having been somewhat overbought recently. Higher prices are predicted however.

Wheat—Continental markets are weak and lower, and seaboard clearances have fallen off, being only 737,000 bushels yesterday. Primary receipts continue liberal, being 1,060,000 against 786,000 last week, and 131,000 last year. There is a moderate demand for cash wheat from millers, but export limits are generally out of line. Weather is generally favorable throughout the spring and winter wheat belts, and in places winter wheat is turning out better than expected. Reports from Russia are more favorable to the crop.

Country offerings continue fairly large. While the wheat market may have reactions from time to time, we think the tendency is towards lower prices.

In corn the situation is better. Country offerings are light and cash demand very good. Oats held steady, the offerings being very light.

A strong hog market and good outside buying is sustaining the price of provisions.
