

Important Factors
in Purchasing

Sunday School Libraries

BOOKS to find a place on the shelves of the modern Sunday School Library should be wholesome, instructive and entertaining. Variety is also needed to retain the interest of the scholars.

These requirements are met by our stock—the largest and most varied in Canada.

Our staff well understand what the young people like, and can give the selecting committee material assistance.

We offer our out-of-town patrons the privilege of personal selection. Inquire about it.

A 56-page catalogue will be sent free to any address.

In the matter of terms and discounts our prices will be found the lowest, and we can safely say that nowhere can Sunday Schools purchase to better advantage.
