

Virchow's Famous Dictum,

"All theoretical considerations must give way to the brute force of these figures,"

applies fittingly to the remarkable showing made in the New York Medical News by Dr. John Eliot Woodbridge.

x x x

Number of cases of typhoid fever treated to date (August 10) by the Woodbridge Method,	-	8,639
Number of deaths,	" - - - - -	161
Death-rate (per cent.)	- - - - -	1.85
Average duration of illness in 5,511 cases,	-	12.9 days

The formulæ, constituting Dr. Woodbridge's treatment, are marketed by us in a strictly ethical manner, without secrecy, patent, trade-mark or protection of any description. The labels state explicitly the name and proportion of each ingredient.

Copious literature will be sent free to any medical applicant.
