NICHOLS' BARK & IRON.

MANUFACTURE CHEMICAL PURE
Sulpho-Carbolate of Soda.

A Specific in Diphtheria, Scarlet Fever and Similar Complaints.

See article by Dr. Bebee, of Chicago, in the "Boston Journal of Chemistry," for April, 1877.

Be careful to get a pure article.

It has been used with success by the first physicians in the country.

MANUFACTURE CHEMICAL PURE
PROPYLAMINE.

A Specific in Rheumatism, Gout and Similar Complaints.

We are now making the chloride, and our display of this rare salt attracted much attention at Philadelphia and was honoured with a special medal. It is of the utmost importance that Propylamine and its chloride should be chemically pure.

AN OLD AND VALUABLE REMEDY.

Nichols' Elixir of Peruvian Bark, With Protoxide of Iron.

A prominent peculiarity and advantage consists in associating iron not in a sesquioxide condition, but in the more easily assimilable form of a protosalt, with all the valuable alkaloids of Peruvian Bark, in an elegant and permanent compound, where the chemical equilibrium of each principal is undisturbed. We unhesitatingly express the opinion that no more pleasant and desirable chalybeate and tonic has ever been offered to the profession; and so far as our knowledge extends, this result (the combination of the protosalts of Iron with the active principles of Peruvian Bark,) is not attained in any of the numerous preparations crowded upon the public as a substitute and imitation of our compound.

In order that physicians may prove the presence of protoxide of iron in this Elixir, we give the usual test:—

Pour a small quantity of the Elixir into a wine-glass, and add a few drops of ferrocyanide of potassium. The instant change of colour to a deep blue shows the presence of iron in the form of a protosalt.

Our ELIXIR OF PERUVIAN BARK WITH PROTOXIDE OF IRON is sold in bottles holding one pint, also in two quart and gallon packages. If physicians desiring to prescribe this preparation will direct their druggists to procure the larger bottles, they can order it by prescription in such quantities as they may desire for their patients.

MADE ONLY BY BILLINGS, CLAPP & CO., BOSTON.

MANUFACTURE CHEMICAL PURE
Cod-Liver Oil with Hypophosphites of Lime and Soda.

The taste of the Oil is rendered more pleasant by the combination, and the assimilation seems to be more prompt and easy.

The emaciation, waste, cough, acceleration of pulse, and all the symptoms of pulmonary disease, are controlled more promptly by this Cod Liver Oil and Hypophosphites than by any other known remedy.

MANUFACTURE CHEMICALLY PURE
Salts of Arsenic, Ammonium, Antimony, Barium, Bromine, Bismuth, Cerium, Calcium, Copper, Gold, Iodine, Iron, Lead, Manganese, Mercury, Nickel, Phosphorus, Potassium, Silver, Sodium, Tin, Zinc, etc.

Price list and descriptive catalogue furnished upon application.

BILLINGS, CLAPP & CO.,

(Successor to Jas. R. Nicholls & Co.)
