A NEW EDITION

Arithmetical Problems

For Senior Classes and Candidates for Entrance to High Schools and Collegiate Institutes

By G. H. ARMSTRONG,

First Assistant Master Wellesley School, Toronto.

Any typographical errors in the first edition have been corrected. The Entrance Paper for December, 1890, has been added. The answers to all the problems have been appended. No other work possesses these features. Teachers and Inspectors commend it.

I am highly pleased with your Arithmetical Problems for Senior classes. It suits my Entrance candidates exactly. A book such as this is needed by every Fourth Class pupil.—Geo. Kirk, Head Master M.S., Chatham.

I have just examined your Arithmetical Problems for Senior Classes. The problems are very suitable and the collection must prove very valuable to teachers. I heartily commend it.—G. D. PLATT, B.A., P.S. Inspector, Prince Edward.

After a careful examination of your "Arithmetical Problems for Senior Classes," I find them well graded and very suitable for the purpose intended. The teacher who uses them for home or class work, will save himself a vast amount of labor, and in all probability secure to his pupils much better results.—J. S. DEACON, Inspector, Halton.

I have no hesitation in saying that for the purpose for which it is intended the work is infinitely the best with which I am acquainted. Its strong point, to my idea, is the logical sequence in the problems by which the pupil is almost insensibly led on step by step until he reaches quite a difficult style of question. The printer, too, has done his work very well, and there are but few typographical errors. I shall certainly recommend every teacher in my inspectorate to use a copy.—J. C. MORGAN, M.A., Inspector, Barrie.

"PERFECTION"

BUTTONLESS

These balls are made by the celebrated "McKechnie," and being the best production of the best maker in the world they ought to bear examination. We ask you to compare them. You will notice that they have only one intersecting seam, and therefore are less liable to rip than those with two such seams. They are perfect in shape, and filled with McIntosh's best rubbers, stamped, in fact, the second quality is equal to most Buttonless balls of other makers first quality.
