

6 h.p. slow speed valveless heavy duty engine, make and break ignition, for open fishing boats.

Our 1909 models of

FAIRBANKS-MORSE MARINE ENGINES

APPROACH PERFECTION AS NEAR AS IS POSSIBLE WITH
HUMAN SKILL AND BEST MATERIALS

All cylinders are ground like glass by latest process.

All bearings are babbitted and renewable.

All have double and positive system of lubrication.

We furnish either Jump, or Make and Break ignition.

We use the famous Schebler carburettor.

We make a special simple slow-speed, moderate priced engine for fishing boats.

We install the engines if wanted—and look after them.

We guarantee every engine and OUR guarantee is worth something to you.
