

# Turnbull Elevators

## Automatic Push Button Elevators and Dumb Waiters

**T**HESE are designed for service in Hospitals, Offices, Residences, etc., and are *absolutely* safe.

Press the button and the car goes to the corresponding floor, where it stops automatically.

The door can then be opened—not before. The car cannot be started again until the door is closed.

When one person is using the elevator no one else can interfere with it.
