

British Columbia were the other Canadian representatives.

We have now a committee of I.S.S. at McGill and we hope that we can prove ourselves useful. One of the special projects of I.S.S. this year is the relief of students who have been faced to leave Germany. Mr Parkes, who is in charge of this project at the central office in Geneva, is touring North America to try and raise interest and support. He is arriving in Montreal for a brief stay.

I wondered whether you would be interested in meeting Mr Parkes either privately or at a small meeting to be held in Strathcona Hall on Wednesday at 8:30 pm.

I think we can count upon some support in the city, especially of course from Jewish organizations, and we should like to feel that you were sympathetic to the project.

Yours sincerely
William Hasler.

W.H.
