

C O P Y

17th March, 1921.

Dear Sirs,-

I have to inform you that, at a meeting of the General Building Committee held last evening, the question of Professor Hobbs' services as Consulting Architect on the extension to the Old Medical Building was carefully considered.

The Meeting agreed that Clause 3 in the contract drafted between your Firm and the University should be struck out, and the following substituted therefor:-

"The University reserves the right to employ Percy E. Hobbs as Consulting Architect for such building, his fee for such work to be paid directly by the University."

Clause 7 should also be changed to read "5%" instead of 6%. I might explain that the new Clause 3 which we propose is worded in the manner shown because we are not as yet quite sure to what extent we will require Professor Hobbs' services on this work, and, since we are anxious that no time should be lost in the preparation of plans, etc., we felt that the best way to expedite the work would be to give you a free hand to go ahead.

I am enclosing herewith two amended copies of the agreement covering your contract with the University on this building, and if the changes are acceptable to you, would ask you to initial same.

Yours very truly,

Messrs. Ross & Macdonald  
1 Belmont St.,  
CITY.

(Sgd.) A. P. S. Glassco  
Secretary.
