IT is hoped this work will be found more complete, comprehensive, and accurate, than any thing of the kind hitherto attempted in this Province. It is, however, scarcely possible to avoid some errors, from the very nature of the undertaking, but we hope they are few. Great attention has been paid to the astronomical calculations. The prognostications of weather can never be quite certain although there may be just grounds for the expectation of a particular kind of weather, at a certain period to come, by reason of planetary influence. These calculations are at least amusing, and are therefore inserted according to ancient usage.

The MILITIA APPOINTMENTS being taken from the Adjutant General's Office are of course accurate. Indeed, every thing depending upon the statements obtained from the Public Offices in York, must be correct, since the heads of the various Departments have, with much kindness, given every facility towards the satisfactory completion of this undertaking:—for which they have the Proprietor's warmest acknowledgements.

A general, though necessarily a brief, account of CANADA,—together with a few useful instructions to Emigrants, and a great number of valuable Tables, are added, with a view of rendering this work a useful Companion to every class of Persons in this Country. *

Since the two first editions, several important additions have been made, amongst which the STATISTICAL TABLES, formed from the ASSESSMENT ROLLS and the POPULATION RETURNS, are perhaps the most valuable, as they will shew at one view, when the whole are collected, what are the resources of the country, in a manner that must be perfectly clear and indisputable; and, a comparison of years, will prove the amount of increase, or decrease.

A very comprehensive CHRONOLOGY has been likewise added, to mark some interesting epochs in the History of the World.

* It will, indeed, be found particularly useful to occasional visitors, and travellers through the country, being a matter-of-fact book compiled from the most authentic sources.
