JEALOUSY LEADS TO COLD-BLOODED MURDER

Petrolia Woman Shot to Death by Former Boarder, Whom She Had Rejected—Her Daughter Wounded by First Bullet Fired—Murderer Fired Third Shot Into Prostrate Form of His Victim.

HAD TAKEN LAUDANUM BEFORE THE SHOOTING

PETROLIA, July 8.—(Special.)—This town was stirred to its depths today when it was learned Mrs. Frederic King, who lives over the flats, had been shot to death by William...

LEO COLEY Whose head was crushed in hoist on Saturday.

SUNDAY BLUE LAWS ARE NOT RIGIDLY OBSERVED

People Enjoyed Ice Cream and Soft Drinks Without Having to Buy Unnecessary Food.

Perhaps some restaurants and other refreshment dispensers took heart of grace thru the friendly suggestion of the Sunday World that they cater to the needs of the public just as the ancient and unworkable law didn't exist.

WEAR ATHLETIC TOGS IN CHURCH IF YOU LIKE

Rev. J. D. Morrow Issues Invitation—May Preach in Shirt Sleeves Next Sunday.

"When men come to my church, I want them to have comfort. They can come in athletic suits if they wish. They can wear as little as possible as long as they are cool."

PLAYGROUND WAS OPEN

Fifty Children Enjoyed Sunday Pastimes on C.N.R. Property.

Regardless of what the Lord's Day Alliance may wish to say or do, the new C. N. R. playground on the foot of Sumach-st. was open yesterday.

JOHN FAWCETT DEAD

The death occurred suddenly at Chicago yesterday of John Fawcett, 108 Garden-ave., Toronto.

Sunday Cars in Kingston.

KINGSTON, July 9.—(Special.)—Kingston had Sunday cars to-day, the management carrying out their promise that they would run Sunday. The cars ran from 1 p.m. until 9 p.m., and carried a record crowd to Lake Ontario Park.

Several of the Anglican clergy placed themselves on record as being in favor of Sunday cars, and one clergyman, Rev. W. F. Fitzgerald, has offered to hold services at the park every Sunday afternoon.

All amusements and refreshment booths at the park are closed, and everything is quiet and orderly. The record crowds using the cars go to show that if the matter had to be decided by the people, the majority of citizens would favor the cars running on Sundays.

KING IS GIVEN LOYAL WELCOME

Dublin Crowds Show Enthusiasm Whenever He Appears—Attends Service at St. Patrick's Cathedral.

DUBLIN, July 8.—The citizens of Dublin continue to give ample evidence of their affection and loyalty to King George. The King's movements are watched everywhere by enthusiastic crowds.

At almost all the restaurants in the city, crowds could be seen last evening refreshing themselves with iced and cold drinks, and these were served without any make belief in the form of a pretence for food to be ordered with the ice or drink.

LOOKS LIKE A RECORD CROP

West Welcomes Rain—No Appearance of Rust—Harvest Will Commence Ten Days Earlier Than Last Year.

WINNIPEG, July 9.—(Special.)—Hard rains all over the west Friday and Saturday are believed to assure a record crop. Heat had been severe for ten days and a few places needed rain badly.

ROLLED AND HOWLED

Strange Scenes at Convention of "Gift of Tongues" Sect.

PITTSBURGH, July 8.—Thousands of spectators witnessed the sessions today of the Pentecostal convention of the "Gift of Tongues" sect, which is being held under tents at Homestead Park with many delegates present from this country, Canada and Mexico.

NO CAUSE FOR ANXIETY

French Ambassador Confers With Baron Waecheer as to Morocco.

BERLIN, July 9.—The Moroccan situation was the subject of a half hour conference this afternoon between the French ambassador, Jules Cambon and Baron von Kiderlin Waecheer, secretary of state for foreign affairs.

TWO BATHERS VICTIMS OF WATERS

James J. Elden Drowned in the Island Lagoon, and David McKibbin in the Don—Diver Injured Spine—Three Men Upset When Dinghies Ran Foul.

Two men drowned, one seriously injured in diving and three rescued after a collision of two dinghies, was yesterday's record of accidents by water in Toronto.

James J. Elden, aged 27, an Irishman living at 15 Manitou-avenue for the summer, was drowned while in swimming in the lagoon off Clarendon-avenue, and David McKibbin, aged 22, also an Irishman, of 75 Don Mills-road, met death in the same manner in the Don River by the paper mills north of Danforth-avenue.

Elden had been boarding on Manitou-avenue all summer, his city address being 222 George-street. He went out with companions in a canoe about 12 o'clock yesterday, and they decided to take a swim in the lagoon.

His companions dived about the place he sank, however, and after a few minutes' search brought his body to the surface. Drs. Coyle and Brown were quickly on the scene, but their efforts at resuscitation proved fruitless.

Elden was a young Irishman, and had only been in this country a short time. He was in the employ of the Alaska Rubber and Tannery Co. A brother resides at New Beach.

HALF OF EGANVILLE PREY TO THE FLAMES

Three Churches, Two Schools and Both Newspaper Offices Among the Buildings Burned—Only the River Saved Town From Being Wiped Off the Map.

EGANVILLE, Ont., July 9.—Not in the history of Eganville has there been such a dreadful conflagration as the fire which started here at 1.30 today. The Bonnechere River divides the town into two equal parts, north and south, over half of the north side now being in ashes, while on the south side an immense amount of damage is done.

The fire originated in the sheds of Mr. McCann, and as there is no protection here except a bucket brigade, the flames soon spread before a strong west wind which was blowing.

The Pembroke and Renfrew fire brigades were called upon for help. There was a delay in Pembroke, as the station agent had to get orders from headquarters. In Renfrew the delay was caused by the engine having to get up steam.

The fire brigades, however, came as quickly as possible, the Pembroke one by the Grand Trunk and the Renfrew one by the C.P.R. The northwestern part of the town was saved, after a great deal of fighting on the part of Pembroke fire brigades.

The two newspaper offices were burned, as well as a sign and door factory and a sawmill.

Only for the river the whole town would have been swept off the map.

MERCURY ROSE TO 84 AND HUMIDITY WAS GREAT

Cool Breeze Probably Saved Toronto From Additional Deaths by Heat Prostration.

The weatherman is now non-committal regarding the probabilities. He says that thunderstorms may be in the air near Toronto, but cannot tell whether or not they will disperse the prolonged hot wave.

Another hitch has occurred, and the mercury in the thermometer has again risen very high. It has not reached the record mark of Monday last by nine degrees, yesterday rising to 84.

Early yesterday morning there was only 66 degrees of heat, but the sun soon made an impression and by noon raised the thermometer hand within six points of the hundred mark.

PRAYER FOR RAIN

O God, Heavenly Father, Who by Thy Son Jesus Christ has promised us, we beseech thee, seek Thy Kingdom, and the righteousness thereof, all things necessary to their bodily sustenance; Send us, we beseech thee, in this our necessity, such moderate rain and showers, that we may receive the fruits of the earth to our comfort, and to Thy honor; thru Jesus Christ our Lord. Amen.

The weatherman is now non-committal regarding the probabilities. He says that thunderstorms may be in the air near Toronto, but cannot tell whether or not they will disperse the prolonged hot wave.

Another hitch has occurred, and the mercury in the thermometer has again risen very high. It has not reached the record mark of Monday last by nine degrees, yesterday rising to 84.

Early yesterday morning there was only 66 degrees of heat, but the sun soon made an impression and by noon raised the thermometer hand within six points of the hundred mark.

The humidity was really to blame for making the citizens uncomfortably sticky. Ninety-four is only common heat for a July and August day, and had the atmosphere been dry, Torontonians would have remarked about hot coal the day was compared with the previous Sunday.

Had it not been for the gentle breeze that circulated nearly all day, the death toll from prostration by heat would doubtless have increased. Fortunately the ten-mile-an-hour wind kept up its energies all thru the day and night.

The consumption of water is falling off. Slowly the reserve supply is increasing, and at ten o'clock last evening when the measurement is taken, it was 10 feet 7 inches. This is an increase of about six feet since last Wednesday. The normal depth is from 15 feet to 18 feet, which means 40,000,000 gallons of water, and at that rate we have a surplus of about 20,000,000 gallons.

SUFFERING FROM STROKES

NIAGARA FALLS, N. Y., July 9.—(Special.)—Suffering from stroke, Matthew O'Leary, a student, of 99 Oak-street, Toronto, is in a serious condition at the Memorial Hospital here to-night. At the hospital it was learned that the patient is thought to have gained considerably during the past three hours.

THE HEAT THAT TRIES EVERYTHING

Never in the memory of the ordinary man has there been such a prolonged and blazing heat wave as has obtained in these parts for the past week or more.

The country shows its most. Gardens and fields are parched. The berry bushes are withered and the trees are short crops of stunted fruit; the gardens show it by failures in flower blooms, and in wilted potato plants and tomato vines with prematurely ripened fruit and diseased at that.

As to the weather itself, this summer has been an example of the law that weather conditions continue rather than alternate; that as it was backward, rainy and lacking in sunshine at the opening of spring it continued so for days and days; now that it is torrid it is likely to keep torrid. The rain of relief may be on the way, but you could not see its star. It will not be until Wednesday, if it comes then, said a Don Valley weather-wiseman.

Horses, cattle, sheep feel the heat. Teaming and field work, especially severe on horses. The gasoline motor has relieved many a horse of galling work on city streets.

The one thing to do is to rest where you can and to eat lightly. Water is good drink. The use and sipping of a fresh lime, pressed out by one of the new glass squeezers into fresh water without sugar, is a most refreshing drink these days.

If you can afford aerated water, still better. To sit down whenever you can gives the most relief. There is a breeze for those who can spin along in a motor.

But for the old, the sick, the tired, these are hard days.

And yet a wind with an uplift and a shower of refreshing mist be near at hand.

THREATENED TO SWEEP THE BUSINESS SECTION

Twenty Houses and Half Dozen Business Buildings Burned in Biddeford, Maine.

BIDDEFORD, Me., July 8.—Fire, which for a time threatened to sweep the business section of the city, destroyed twenty houses on Elm-st., harboring a hundred or more families, and half a dozen business buildings, with a loss of \$100,000 to-night. The firemen of three cities, Biddeford, Saco and Portland, augmented by volunteers, fought the flames for nearly three hours before they were finally subdued at 1.30 a.m. Among the buildings destroyed are N. P. Dion's restaurant; the groceries of Burnell Bros., and Simpson Bros.

A brick breeze which sprang up half an hour after the fire started, gave the city a bad scare. The cause of the fire has not been ascertained.

Two persons, volunteers who were assisting the firemen, were injured by a hot air explosion.

STOCK BROKERS. We are prepared to show you the advantages to be gained by investing in the new Standard Bank Building, corner King and Jordan Streets. Every known modern convenience has been installed. Phone us for an appointment. H. W. WILLIAMS & CO., 38 King Street East. Main 5480.
