About Dominion Coal.

Hayden, Stone & Co., Roston, have the following-to-day in reference to Dominion Coal: The recent strength in Dominion Coal: The recent strength in Dominion Coal securities is due to buying for Canadian account, but not for what might be called inside Interests. For instance, a Quebec party recently purchased 1000 shares for investment, based upon the fact that Canadian interests are now managing the property. Mr. James Ross is expected to make a very successful proposition out of the Dominion Coal property. There is no present intention of paying dividends on Dominion Coal common stock, or of turning over the company to the Dominion Fron & Steel Company, We understand that it is the plan of the Ross management to readjust the capitalization of the company by giving a 4½ per cent, bond for the \$2,795,000 & per cent. bonds on same equitable basis, it is the expectation that the new bonds will sell at par. The Dominion Coal Common stock, and it is expected that the company has a floading debt of \$1,800,000, and it is not intended to pay any dividends until this debt has been cleaned up. Up to Sept. 1 the company had earned \$550, 000 for the common stock, and it is expected that the ecompany will end the year, Feb. 28, with earnings of about \$600,000. equal to 5½ per cent. Last year the earning of about \$600,000. equal to 5½ per cent. Last year the earnings of about \$600,000. equal to 5½ per cent. Last year the earnings of about \$600,000. equal to 5½ per cent. Chicago Gossip.

John J. Dixon had the following from Chicago at the close of the market to-day: Wheat—Improvement in the undertone in wheat, noticeable Saturday, has continued to-day, in face of rather bearish statistical news. World's shipments were over 10.000,000 bushels last week, but the amount on passage is being steadily and heavily decreased, so that now it aggregates only about 5,000,000 bushels more than last year. The visible was increased 2,170,000 bushels, against estimate of 1,500,000 finerese. Receipts in winter wheat sections are light, but heavy enough in spring wheat section to cause larger primary receipts than last year, enabling us to sell much more liberally to foreigners, and at the same time more rapidly increase home stock.

Corn—Has been firm at a small fraction over Saturday's close. In a general way the leaders have been on the buying side, and the scalpers on the selling. World's shipments only 1.876.000 bushels. Local stocks decreased 270.000 bushels. Danubian shipments, only 352,000 bushels. Panubian shipments, only 352,000 bushels. Receipts, 285 cars, with 325 to-morrow.

Oats—Like corn, have been firm at a small fraction over Saturday. Receipts, 210 cars, with 228 for to-morrow.

Provisions—Opened weak and lower on free selling of long January and May product by provision houses. Packers did not support the market, but stop orders came on the market and put prices still lower. On the decline, local operators bought, and the market railied, but closed easy. Cash demand is small; 21,000 hogs to-morrow.
