He That Stays Does the Business."

All the world admires "staying power." On this quality success depends. The blood is the best friend the heart has, and "faint heart" never won anything. Hood's Sarsaparilla is the best friend the blood ever had; it cleanses the blood of everything.

If you would be strong in the race of life and "do the business," you must "stay." Hood's Sarsaparilla makes the struggle easy. It gives clear, strong blood; hence perfect health ensues.

Hives-"The itching of hives which troubled me last summer was terrible; blotches came all over my body. Hood's Carsaparilla and Hood's Pills cured me."
MRS. MARY IRBOTT, 235 South Wolf St., Raltimore, Md

All Run Down - "I was as tired in the morning as at night, had no ambition, weak and run down. Three bottles of Hood's Sarsaparilla built me up and cured me. Can eat well and sleep well." Mrs. CHAS. Molz, 418 Madison St., Sandusky, Ohlo.

Female Troubles—" I would have welcomed death any time as a relief from eatarrh of the womb and other serious troubles. The best physicians said my case was helpless. I stopped taking everything else and took Hood's Sarsaparilla. New life came to me and I gained until I am perfectly well and strong." Mrs. EMMA
J. FISHER, Lonedell, Missouri.

WEEKLY REVIEW.

The value of grain on this market shows little change since a week ago. Oats and wheat formed the principal deliveries as usual. The former were quite strong all the week, at 95c to 97c, closing a trifle easy, at 95c to 96c.

Wheat was unsettled. A hard struggle was made to maintain values, but outside markets showing declines and lower values abroad at length prevailed, and a decline of 5c occurred. Very little of any other kind of grain came in, and quotations did not change any. Butter was steady, receipts being only fair.

Eggs declined 2c, closing at 10c to 11c by the basket. Turkeys and chickens were scarce and higher.

Meats were steady, the only change being lower dressed hogs. Hides, skins, etc., unchanged.

Potatoes sold at 95c to \$1 retail, and \$5c to 90c wholesale. Cabbage, carrots, etc., steady and

unchanged. Maple syrup sold at \$1 10 to \$1 25 a gallon.

Live hogs brought \$4. Hay fluctuated between \$6 and \$7, closing at \$7 as the ruling price for Red clover sold at \$3 10 to \$3 50, acco. ling to quality and quantity.

Mr. McGillivray presented the report on church life and work. The tone of the report was generally hopeful. One statement made was that religious and secural news was obtained from two sources, The London Advertiser and the Presbyterian Record. The following recommendations were adopted:

1. The committee would express gratitude and thankfulnes to God for the efficient and successful labors of the ministers and other workers in the congregations within the bounds of the presbytery during the past year, and would remind all of the need of the earnest seeking of the Spirit that we all may be "in labors more abundant in the future."

2. Inasmuch as the answers indicate, the work on the reports have been done by one or two individuals, and in many cases by the minister. We would suggest that the questions be answered at a full meeting of session, and that the answers be read at a congregation prayer meeting.
3. Your committee, while noting with

pleasure the tendency to more general and systematic giving, would commend to the careful consideration of all congregations within the bounds of the presbytery, the pamphlet on systematic giving, prepared by a committee of presbytery, having the growing conviction that a great latent power is still undeveloped.

4. We would note with pleasure the encouraging answers relating to social
