30TH YEAR

# MAJOR GAYNOR IS DOING WELL

### Doctors Say There is no Immediate Cause for Alarm—Gallagher Justifies His Attempted Murder.

NEW YORK, Aug. 10.—William J. Gaynor, mayor of New York, lies in St. Mary's Hospital in Hoboken tonight with two segments of a split bullet, fired yesterday by James J. Gallagher, who sought to assassinate him, still buried in his neck and mouth, but he has not shown one alarming symptom. It is beyond human power to say whether he will recover, for no one can say whether blood poisoning will be the aftermath, but as yet the mayor's temperature has given no cause for alarm on this score. Every indication is that the wound is healing beautifully.

Bulletins issued to-day and to-night did not vary in their tone of optimism, and so cheerful was the patient, and so hopeful were his attendants, that Mrs. Gaynor, after an almost sleepless vigil at the bedside, left the mayor's side late this afternoon for a 40-minute spin by automobile.

Quartered in a larger and better lighted room in the hospital, the mayor chatted pleasantly with those who were allowed to see him, and confidently predicts that he will be out in a few days. As yet he has not discussed in any way the tragedy of yesterday, or is he even aware of the identity of his assailant.

The mayor's highest temperature during the day was 100.3-5. As blood poisoning and spread by a rise in the patient's temperature, the nearly normal standard maintained to-day was one of the most cheering signs to his physicians. His appetite is good, and his diet is necessarily limited to broths and liquid foods; he has shown great stamina of body and mind, and so far as those who conversed with him can learn, he is not worrying greatly over the outcome.

One of the most extended conferences on the mayor's condition was held to-night, but at its conclusion there was issued merely a brief bulletin, and no announcement was made as to when, if at all, an operation would be performed. In this respect, it is pointed out that many persons have lived with bullets in their bodies, and as living proof of this, a man recently wounded in a manner almost identical to that in which the mayor was shot, visited the hospital this evening.

Rested Well. The following bulletin on Mayor Gaynor's condition was issued at 3:30 to-night: "The mayor's progress to-day has been satisfactory. He had good strength, has rested well, his diet is considerably better, and he is in good condition this evening."

"The bullet has done nothing," said Dr. Arlitz, commenting on the 3:30 bulletin. "We are trying to tell the whole truth."

Interest, of course, centres on the mayor's condition, but Gallagher, now professing to trace penitence, is doing for having made practically no reductions in the tariff in fourteen years. Tho it seemed, stated the deputation, that British revenue preference, yet American imports had the advantage over British. Protection was useless to the farmers, it argued, because the prices of farm products were higher in the United States than in Canada. Statements were also presented on co-operation, the Hudson Bay Railway and the chilled meats trade, on which the former protested that the association opposed all subsidies to private corporations, and wanted a government system of abattoirs only.

The premier postponed his reply till the public meeting to-morrow afternoon.

On the way to Red Deer from Edmonton, Sir Wilfrid made a brief visit at Wetaskiwin, Ponoka and Lacombe. At the latter place, a motor trip was made to the experimental farm, where extensive experiments are being carried on in the values of different kinds of oats. Receptions along the line were good, and at Red Deer the welcome was participated in by a company of the 15th Light Rifles and a cadet corps.

Assailant Talks. Gallagher's statement, made this evening, was his first frank talk concerning the crime. "While I will not say that I am sorry," he said, "I now

## Has Anybody Here Seen Brebner?

Where is James Brebner, registrar of the University of Toronto? Is it right that he should be away holidaying in the Roman fashion in the old country, while over a thousand anxious students are waiting for examination results, only to have his being made public have to bear his mighty Hall Mark?

The papers of the Senior Matriculation students which have been all examined by the department of education at the Normal School, and have all been sent up to the university, at the present time, he waiting on the registrar's table for his return.

Is it fair that the anxious minds of thousands of eager students should be kept in such suspense in order that one single individual may have his vacation of the year? Scores of inquiries have been made at the World office during the past few days by interested students, who are unable to plan their courses for the coming year until they obtain their allotted standing.

It is Mrs. Santa Claus taking his vacation on the eve of the 25th of December.

## GENERAL OTTER WILL SUCCEED GENERAL LAKE IN THE POSITION.

OTTAWA, Aug. 10.—It is practically certain that Gen. Otter will become inspector-general when Gen. Lake goes home. He is now chief of the general staff, and while it is explained that his new appointment will not raise his rank, it will alter his duties. The war office will shortly appoint an imperial officer to the post of chief of the general staff. Col. Lessard, adjutant-general, leaves on Aug. 23 for England, to attend the army manoeuvres at Aldershot.

## WILL BE INSPECTOR-GENERAL

General Otter Will Succeed General Lake in the Position.

OTTAWA, Aug. 10.—It is practically certain that Gen. Otter will become inspector-general when Gen. Lake goes home. He is now chief of the general staff, and while it is explained that his new appointment will not raise his rank, it will alter his duties. The war office will shortly appoint an imperial officer to the post of chief of the general staff. Col. Lessard, adjutant-general, leaves on Aug. 23 for England, to attend the army manoeuvres at Aldershot.

## DROWNED NEAR THE WHARF.

BARRIE, Aug. 10.—A sad drowning fatality occurred this afternoon at the pretty summer village of Shanty Bay, five miles east of here, of which Sarah Merridy of Toronto, a servant employed by W. Stewart of that city at his summer home was the victim. The accident occurred close to the wharf about 7 feet of water. A companion plunged from a boat to assist the drowning girl, but was unable to effect a rescue. Deceased was an English girl, and had been in Canada a year and a half.

## HIS AEROPLANE TURNED TURTLE

### Walter Brookins Painfully Injured in Attempting to Avoid Crashing Into Crowd of Spectators.

ASBURY PARK, Aug. 10.—A serious mishap to Walter Brookins, in which the daring Wright aviator was painfully but not dangerously hurt, marred the opening day of the aviation meet here. Brookins was dashed to earth when his machine suddenly turned turtle, after he had been forced to swerve suddenly to avoid crashing into a crowd of spectators. Seven other persons, among whom the machine tumbled, were more or less seriously injured.

Brookins was pinned under the wreckage, and was only half conscious when friends reached him. This started a report that he had been fatally injured. An examination showed that his nose was broken, and that he had been badly bruised and shaken up, but not seriously hurt.

The mishap was directly due to the thronging of spectators out into the field. Brookins in descending had no room to operate the machine, and was driven to make a sudden turn to avoid crashing among the watchers. The tricky wind caught the machine and sent it spinning over backwards.

The machine tumbled amid a small crowd of watchers, mostly boys. One youngster was rushed to a hospital, where it was reported that he had a fracture of the skull. Six other youths were less seriously hurt.

Walter Brookins shared with Count de Lesseps the honors of the Montreal aviation meet, where he did some sensational high flying. He came to the Toronto aviation meet, but only remained for one day.

German Aviator Hurt. JOHANNESBAD, Germany, Aug. 10.—The aeroplane pilot met with a serious accident at the aviation meeting here this afternoon. While flying at a height of about 225 feet in a Wright machine, one of the propellers broke. The other continued to run, causing the craft to turn over several times. It fell with a crash and was completely demolished. Helm was immediately carried off the field unconscious. Later he regained consciousness, but his injuries are considered very grave.

RAN AWAY WITH AEROPLANE Borrower Did Some Daring High Flying Stunts.

PITTSBURG, Aug. 10.—While J. C. Mars, the aeronaut, slept at a hotel somebody else attempted to borrow his plane. The aeroplane was used in the meet were kept and "borrowing" the eight cylinder biplane left in charge of Mars by Glenn Curtis sailed aloft.

The entire river valley turned out to see the flight, which was better and higher than any attempted here before. The aviator was up almost an hour. He settled about a mile from the place of starting, but before any time he had crossed the country he had been again.

By 9 o'clock the aviator had returned the machine to the tents and disappeared. Everybody supposed that he was Mars. It was not until Mars read the afternoon papers that he knew his machine had been used by some other aviator.

## ALL BACK IN THREE WEEKS IS BERRY'S PREDICTION

### There is Talk of a Brotherhood Pension Fund, but Nothing Definite, He Says.

Vice-President S. N. Berry of the Order of Railway Conductors stated last night that he expected all the men would be back on their jobs in two or three weeks. There were several of the younger conductors who had left the Grand Trunk entirely and gone to other roads, but most of the conductors he expected to return.

Asked if the brotherhoods were going to establish a pension fund of their own, he said that it was being talked of, but nothing definite had been done. "We have a protective fund at present," said he. "Already there are 300 on the monthly wage roll. We give money to men who are in need irrespective of their ages."

As to the old conductors already pensioned by the Grand Trunk, and during the strike, Mr. Berry thought there were very few. Mostly those who were reinstated were men who had been discharged.

HIT BY AUTO, MAY DIE Walter Hayward, Aged 72, in Critical Condition at Hospital.

Run down yesterday by an auto, he lay in the hospital in a critical condition. The auto belonged to Al Cook, druggist of Brampton, who conveyed the old gentleman home. The injuries in themselves are not regarded by Dr. H. B. Anderson as serious, but Mr. Hayward has lately been in an enfeebled state and is now suffering severely shock.

## VACATION JOYS

The family seek the soothing solace of piscatorial pursuits in a rural retreat.

## R. L. BORDEN OPENS HIS MARITIME TOUR

### Attacks the Laurier Government as a So-Called Business Administration.

Halifax, Aug. 10.—(Special).—R. L. Borden opened the first of a series of meetings arranged for this province in Truro to-day. The leader was in excellent voice and spoke for an hour on the issues of the day.

Before the meeting a convention was held to nominate candidates for the approaching provincial contest. Mayor G. W. Stuart and Frank Stanfield, brother of John Stanfield, M.P., were nominated to contest the riding. About 3,000 were in attendance, and the first meeting of the tour was a success from every standpoint.

Mr. Borden pointed out how the Laurier Government has been forced by public opinion to adopt its most important provisions. He attacked the present government as a business administration, and said that, although the people of Canada may not have a jeweler's crucible and some plaster of Paris. One of the trio who has a knowledge of electricity cut in on the electric light wires in Hanley's cell, attached two pieces of carbon and placed them on a small sheet of iron covered with treproof cement. On the white hot carbon the crucible was placed, the metal was melted and the coins were manufactured in a plaster of Paris mould.

It is suspected that there was an accomplice outside the jail who assisted in the distribution of the coins and the supplying of material for their manufacture.

## DEMANDS AN INQUEST TO ALLAY SUSPICION

### Joseph Fritzeley Deeded House by Frederick Smith, Who Died Suddenly.

Uneasy in mind lest suspicion might be aroused by the sudden death of Frederick Smith, who some time ago deeded to him the house at 221 Manning-avenue, where they both lived, Joseph Fritzeley has arranged that an inquest be held. Coroner J. T. Clark Smith, who was a single man, fifty years of age and who had no relatives, compacted with Fritzeley, when the transfer was made, that the latter should keep him in board and lodging for the remainder of his days.

When Dr. Alex. Mackay of 203 Euclid-avenue was called the man was found dead. To the World last night the doctor said that although the cause of death would be given out at the inquest, his impression was that the man had been drinking pretty heavily, but Mr. Hayward was driven an express wagon.

## TWO STRUCK BY CAR

### Young Italian Woman Seriously Hurt—Chinaman Also Victim.

A young Italian woman, whose identity could not be learned up to a late hour last night, was knocked down by a west-bound King car near Jameson-avenue yesterday, and has been lying in a semi-conscious state in Western Hospital since.

She turned off the sidewalk and attempted to cross the street without waiting for the car to stop. Her head was bruised, but there is no fracture. The same car in making its return trip knocked Joe Marks, a Chinaman, off his bicycle rendering him unconscious for a few minutes and necessitating four stitches over one eye.

## HAD COUNTERFEITING OUTFIT IN THE PRISON

### Inmates Devised Ingenious Plan for Turning Out the Bogus Coin.

BOSTON, Aug. 10.—How three inmates of the state prison at Charlestown were able to construct a counterfeiting outfit and manufacture spurious half dollars has been discovered by secret service officers. Ever since July 21, when the state prison officials learned that counterfeit half dollars were in circulation in the prison, and that some had got outside, an investigation has been in progress. At that time it became known that Patrick Hanley of Lynn, who is serving a 25 year sentence as an habitual criminal, was involved.

To-night it was stated that two other prisoners had been found to be accomplices of Hanley, and that the cases of all three would be presented to the federal grand jury next fall. The method of the counterfeiting was ingenious. They secured from unknown sources some scraps of tin and lead, a jeweler's crucible and some plaster of Paris. One of the trio who has a knowledge of electricity cut in on the electric light wires in Hanley's cell, attached two pieces of carbon and placed them on a small sheet of iron covered with treproof cement. On the white hot carbon the crucible was placed, the metal was melted and the coins were manufactured in a plaster of Paris mould.

It is suspected that there was an accomplice outside the jail who assisted in the distribution of the coins and the supplying of material for their manufacture.

## CALMLY WADED INTO RIVER ABOVE THE FALLS

### Another Suicide at Niagara Cause Said to Be Losses in Stocks.

NIAGARA FALLS, N. Y., Aug. 10.—(Special).—In plain view of hundreds of tourists, a man, thought to be Chas. E. Stols of Buffalo, committed suicide late to-day by going over the American Falls.

Prospect Park was filled with tourists when the man leisurely deposited his coat, hat and umbrella on the river bank, midway between Green Island and Prospect Point. He attracted no attention by this act, as the day was warm and many others had acted similarly.

The crowd was horrified when, instead of lying down by his discarded wearing apparel, the man coolly walked to the river and waded into the swift current a distance of nearly 50 yards before the water carried him over the cataract. After entering the water, the man did not so much as glance back over his shoulder at the wildly gesticulating crowd on the bank, whose calls he must have heard above the roar of the falls.

When the swirling waters carried him from his feet, the suicide was whirled around several times. Watchers say there was no look of terror on his features, but rather a smile of delight. A woman who watched from near the point where the man entered the water, faintly as the suicide disappeared over the brink.

Melancholy over unsuccessful ventures in stocks is believed to have been the cause of the suicide. In the pocket of the man's coat was a note book, containing a memorandum of deals in stocks, as well as a certificate for 50 shares in the Lost Chance mine, made out in Buffalo, N. Y.

## GEN. FRENCH'S REPORT

### On Canadian Militia Said to Be Very Severe.

OTTAWA, Aug. 10.—It is further stated by those who are in a position to know, that the report of General Sir John French, on the conditions obtaining in the Canadian militia, contains three cardinal features:

(1) That the peace organization and composition of the militia should be changed in the event of war breaking out, the forces would be ready to take the field forthwith. The general impression was that the man had been drinking pretty heavily, but Mr. Hayward was driven an express wagon.

(2) Better qualified and more effective staffs should be in command of some brigade divisions.

(3) The present system of annual training is wholly inadequate to produce results.

## SIR JAMES FOR ENGLAND.

It is altogether likely that Sir James Whitney will sail by C. N. E. steamer for the old country on Aug. 13, on his annual vacation. While in England, it is understood that the premier will investigate the colonization system, a matter which has been worrying him more than a little of late. He will likely be away a month or six weeks.

## TOOK CRAMPS AND DROWNED.

### Ellen Robertson, a Servant Girl, Employed at the Royal St. Lawrence Yacht Club, was Drowned to-day in Lake St. Louis, in Sight of Hundreds of People. She was Seized with Cramps while in Bathing, and sank.

MONTREAL, Aug. 10.—(Special).—Ellen Robertson, a servant girl, employed at the Royal St. Lawrence Yacht Club, was drowned to-day in Lake St. Louis, in sight of hundreds of people. She was seized with cramps while in bathing, and sank.

## CANADA'S HONOR UPHELD BY O. O. R.

### Lieutenant-Governor Gibson, Sir James Whitney and Mayor Geary Make Stirring Addresses at "Send Off" to O. O. R.

Verbal and manuscript bouquets in great profusion were presented to Sir Henry Pellatt and his regiment, the Queen's Own Rifles, by Hon. J. M. Gibson, lieutenant-governor, and Sir James Whitney, premier, on behalf of the Province of Ontario, and by Mayor Geary on behalf of the City of Toronto, at the official send-off held at the armory last night. There were probably 3000 people, including the regiment, of whom there were 800 present. The others were mostly friends and relatives of the soldiers.

After the speeches praising Sir Henry and the regiment had been delivered, Sir Henry replied: "My feelings are so confused this evening that I can hardly find words to express the appreciation I feel for all the kind things said, not only for the regiment, but for myself."

His Honor's Address. His honor, the lieutenant-governor spoke first. "It is a special pleasure apart from any representative capacity I may have, to be present on such an occasion," he said. "Nearly 50 years ago I was a young private in 'K' company of the Queen's Own Rifles. I used to practice the 'goose-step,' learned the old manual and platoon drill. We used to march down from the university to the old city hall where our arms were stored and get instruction."

"It is not altogether inappropriate to look back 50 years over a period when you, as a regiment, have done great service, and have distinguished yourselves, not merely in the drill hall, but on the field in active service."

"It is a new departure that you should, under your gallant commanding officer, Sir Henry Pellatt, now seek to perform your annual drill on the soil of the mother country; that you should, in other words, put in a month or so at Aldershot, rubbing shoulders with the best men of the army of our empire."

"It will be no picnic. You are not going over merely as a show or a pageant or anything of that nature. You will have hard work and any man who undertakes what you will go thru is not afraid of hard work."

Promotes Imperialism. "We, as the government, feel proud of what Sir Henry Pellatt and the Queen's Own are about to show to the world by their trip to the old country. Many things have occurred going to show that there is a growth, maybe imperceptible, but a growth of the spirit of imperial federation on the part of all branches of the empire. We are becoming more closely allied with the Australian colonies, the Union of South Africa new union and we are becoming more closely attached to the mother country."

"I know of no movement which in itself will be a greater demonstration and have greater significance in regard to the growth of Canada than this trip. You are about to take as soldiers of the King and soldiers of the empire, to march side by side with the old British regiments and satisfy them that there is the right kind of stuff in Canada."

"I know of no more interesting ocular demonstration, that will go so far to show that our attachment to the mother country is not merely lip loyalty, professed attachment, but is something real, something earnest."

"I can only say further that this is a great sacrifice your commanding officer has been making. He has made sacrifices in the shape of time, positive labor and financial sacrifices. I doubt if any other man in the whole Dominion, even if willing to make the sacrifices, could have done as Sir Henry Pellatt is doing. (Great applause.)"

"Personally I congratulate the commissioned officers, non-commissioned officers and men of the regiment on the condition and excellent shape they are in to go on this expedition."

Premier's Warm Tribute. Sir James Whitney rose next and was widely applauded. He read a formal order-in-council conveying the thanks of the government and the people of Ontario to Sir Henry and regiment for the "spirit of self-sacrificing patriotism they have displayed." The order also remarked on there being no parallel to the affair and that it could not have occurred "but for the enter-
