City Carrying Eight Million Dollars on Men Who Have Enlisted.

HAMILTON, Wednesday, July 19 .-In all probability this city is going to secure another large industry as the result of a visit made here yesterday by officials of the International Nickel Co. of New Jersey. The party, which consisted of R. C. Stanley, general superintendent of the works: Clifford Branigan, chief engineer; Frank Lud-lam, purchasing agent, and W. L. Wetherspoon, consulting engineer, locked over a number of sites and had a conference with Industrial Com-

missioner Marsh.
"If we can locate here," said Mr. Ludlam, "our branch will give employment to 500 people, which will be increased accordingly." In regard to the rumor that the company had purchased a site in Nova Scotia, Mr. Ludlam stated that there was no truth in the rumor. The party will likely remain in this city for a few days yet, in order

The official sanction of the American consul to recruit among the Americans residing in this city has been secured, and in the course of a few days a house to house canvass will be com-menced. No specified number of re-cruits has been set for this city, but the military authorities are confident that the response will be a ready one, owing to the fact that this is the first direct appeal that has been made here

The latest Russian success in Volhynia has swept the Austrians and Ger-

mans from the left bank of the lower Lipa and has driven them to Krasoff

and beyond the river. A great quantity of war material was abandoned by the enemy, showing his flight was precipitate. The Russians are using the

seventeen heavy guns found among the thirty pieces captured in the battle

for bombarding the new defensive positions taken up by the Teutons. The

expulsion of the foe from this section of territory enlarges the apex of the

bulge or salient which the Russians are driving towards Kovel, and it elimi-

in of their northern flank and the envelopment of their central armies. Thus,

the situation has become more desperate for the central powers, for the Rus-

Used Strong Forces.
The new operations began Saturday Torchin in the direction of Sadoff. This met with strong opposition as first and was thrown back. Meanwhile however, strong forces were advan-cing along the road from Lutsk to Chorukoff, and westward thereof. These forces encountered the Austro-Ger-mans during the night along the front from near Szklin to Ugrinoff. It was quickly apparent that the Austro-Germans were facing greatly superior numbers, and a withdrawal of the line was ordered. This was accomplished with little disturbance, thru the aid of a strong attack which held up the Russians until the new line southward of the Lipa had been firmly estab-

approaches to the river from the east, not difficult as old wars went, but lished. The fighting along the Moldava-Breaza line in Bukowina is reported to be bitter. In hand-to-hand conflicts the Austrians are successfully holding the line eastward of the Bukowina border. As during the former occupation of Bukowina, the fighting along the enemy, when he has to retreat again, is able to get the bulk of his armies the Carpathian heights is taking on safely away, a withdrawal of his forces behind the Bug would have great the nature of guerilla warfare. There are constant skirmishes between patrolling parties and other small forces.

The urgent necessity of a public swimming pool for the children and adults in the northwest section of the city was never more in evidence than during the present hot spell.

"What more fitting memorial could be erected to the memory of the fallen soldiers of the district, and at the same time more practical, than a public bathing and swimming pool, which could be established at comparatively small cost by public subscriptions?" said a leading resident of St. Clair avenue yesterday..

"When we see the crowds of children of all ages crowding the free cars for the bay front each day provided by the Toronto Railway Company, it will be seen by everyone interested that this will form the most suitable memorial."

CROP PROSPECTS IN WEST VERY BRIGHT

Superintendent of Colonization in Manitoba, Says Conditions Are Ideal.

Louis Kon, superintendent of immigration and colonization for the Province of Manitoba, with headquarters at Winnipeg, was in Toronto yesterday and when questioned at the King Edward last night as to crop prospects in the west said that conditions this year are ideal. Altho-the crop of last year was greater than the oldst inhabitant had any previous record of, this year's crop is as good and in places promises to surpass that of a year ago. Farmers thruout the province are experiencing a shortage of labor, and men who go west will have no difficulty in obtaining work. Harvest will probably be in operation about the 8th or 10th of August.

Mr. Kron is making arrangements with in Toronto for an exhibit by the Manitoba agricultural department, to be made at the exhibition here this fall. Space has been secured in the government building, where will be displayed a model of the agricultural farm at Winnipes. This will represent in as vivid a manner as possible the actual features of the farm, including buildings, fields, trees, etc. The object of the exhibit will be to show the possibilities of the province and to promote immigration.

CAN'T EXTEND DELIVERY.

Walter H. Burr, traffic manager of the Dominion Express Company, in reply to an application from a resident of the Danforth district recently to extend the free express delivery to his section, refused on the grounds that, owing to the war help is difficult to obtain and that it would not pay. Mr. Burg forwarded a copy of the letter to T. Marshall, traffic manager of the board of trade, who notified the secretary of the citizens' express and freight campaign executive committee. Walter H. Burr, traffic manager of the
