Leaving the number on the roll December 31st, 1892... 321

Although the net numerical increase has not been quite as great in 1892 as in 1891, there have been signs of greater spiritual growth in some of the members, and this should be and is cause for great gratitude. The number of faithful young people in the congregation has also increased, and there is promise of good work in the future through these young followers of the Master.

The Pastor's Bible Class has met regularly, with the exception of the months of July and August, and the members of the class have themselves conducted it when the Pastor has unavoidably been absent. It is to be regretted, however, that such a small number of the young men avail themselves of this privilege, and it is hoped that more will take advantage of this opportunity to study God's Word.

The Session are impressed with the importance of faithful visitation of the congregation, and trust that the lady visitors will make an earnest effort to call upon all the families in their various districts at least once or twice a year.

The need for additional seating accommodation continues
