JUDGMENT IN STREET RAILWAY AND CITY CASE; ALSO IN THE MATTER OF THE VALUATORS

Fredericton, N. B., June 29.—In the supreme court this morning judgment was given in the following cases: St. John Railway Company vs. City of St. John.—McLeod, C. J., delivered judgment that the city, after renouncing the rails under Section II, Victoria, Chapter 85, had not the power to compel the company to change the pattern of rails when replaced. With regard to the foundation for the rails the court decided that the company must restore the tracks to the level with the grade so fixed, and it must supply a foundation sufficient to keep its tracks at the grade fixed by the city. The city cannot determine what that foundation shall be. It is enough if the foundation provided by the company is sufficient to keep the rails level with the street whatever the grade of the street.

Nothing being said in the stated case as to costs, and no mention of them being made in argument, the court made no order for costs. In the municipality of St. John vs. the Board of Valuers, the property of several companies therein mentioned was to be valued at an amount for which valuation thereon is fixed for assessment purposes by the special act in the case of each. Buildings used exclusively as places of worship and sites with grounds surrounding the same, upon which no other buildings are erected, in the City of St. John are, within the meaning of sub-section 2 of the general rates and taxes and are not to be included in the valuation made by the valuator. It may be that the result of this holding bears hardly upon the parishes, churches and church lands which are not covered by the special act, but it is a matter for the legislature and not for the court. The court does not wish to be understood as deciding that the facts stated, an action would lie against the board of valuers, and this case may not serve as a precedent binding the court to hear cases that may be similarly stated in future.

DR. CORBET SENDS PEELE OF GERMAN SHELL TO FATHER

Policeman George Corbet yesterday received a letter and a small package from his son, Captain G. G. Corbet, M. D., who is with the Canadian troops in France. The package contained a piece of a German shell. Captain Corbet explained that it was a piece of shell which came very near striking him a few nights before writing. He received an order to depart with several assistants: other part of the battle field and while enroute there heard the roar of the shell coming towards them. His horse stopped and the shell landed about thirty feet away. The piece he sent to his father landed in the bath a few feet behind his horse. Other shells passed overhead. He wrote of the bravery of the men on the firing line and his belief that some were picked out for gallantry he considered that there was hardly a man who would sacrifice his life to aid a wounded comrade.
