The Incomparable "Feel" of A Well Dressed Man

Nothing can quite take the place of clothes in making a man feel snappy and fresh. That's why successful men usually have the well dressed appearance as benefits their position. Doesn't cost any more to buy good clothes than it does poor—not as much in the long run. I have the one suit you've been wanting for months right here now. Will you come in for it?

LOCAL NEWS

LITTLE ONE DEAD.

Their friends will sympathize deeply with Mr. and Mrs. L. L. Campbell in the death of their infant son, which occurred today.

BANK CLEARINGS

The St. John bank clearings this week were \$3,117,264; last year \$3,028,207; in 1919, \$3,004,698. Halifax clearings this week were \$3,810,278. Moncton clearings were \$1,175,460.

STEEL OFFICIAL HERE

J. B. McIsaac, of the Dominion Steel Corporation, passed through the city at noon today enroute from New York to Sydney, N. S. He said he had been to New York on a business trip, but had nothing of interest for publication.

FREDERICKTON MARKETS.

In Fredericton, yesterday, the prevailing prices were: Butter, 45 to 50c; eggs, 35 to 40c; salmon, 40 to 45c; veal, 10 to 15c; potatoes, 11c; apples, 8c to 10c; turnips, 30c; beans, per quart, 35c; hay, per ton, \$25 to \$30.

PRACTICE GAME.

St. Peter's senior baseball team played a practice game with the Young Men's Hebrew Association team last evening and defeated them by a score of 17 to 8. The game went four innings. Some good plays were made by members of both teams.

FOOTBALL.

In the City Soccer League this evening Carleton and the Central Club teams will meet. The game will be played on the Shamrock grounds and the kick-off will be at 8:45 o'clock. Tomorrow evening the Hardware and Military teams will compete.

SOUTH END BASEBALL.

The captains and managers of all baseball teams, Junior, Intermediate and Senior who wish to play on the South End diamond are to meet the executive of the South End Improvement League at the Boys' Club tomorrow evening to discuss the matter.

OVERHEAD CROSSING.

The mayor said this morning that now that a decision had been arrived at regarding the height of the C. P. R. bridge at the Falls, an application would be made soon to the board of railway commissioners for assistance in connection with the separation of the grades at the end of Douglas avenue, so as to do away with the level crossing.

RECEIVED CROSS.

Mrs. G. D. Vincent, of 86 Guilford street, yesterday received a letter from the executor of her son, Private L. G. Vincent, who left here with the 110th Battalion. He died at the Battle of Passchendaele in 1917. The cross was accompanied by a letter of appreciation of the sacrifice of the young soldier.

COURTENAY BAY WORK.

Carlo Carmel, manager of the Bedford Construction Co., said today that a start would likely be made on work at Courtenay Bay in a day or two. He said that only a small crew would be employed. The work said to be undertaken is the completing of the rock excavation in the dry dock site and the finishing of the facing of the breakwater. One of the dredges is now at work.

DIED IN OTTAWA.

Ottawa paper—Mrs. Rosella Roy, 605 King Edward avenue, died this morning. She was the widow of Mr. J. Roy, of Thorold, historian and writer, and came to Ottawa upon the death of her husband, since living with her niece, Mrs. T. B. Skelly. Mrs. Roy is survived by three nieces, Miss Olive Rottale, Mrs. J. Skelly, and Mrs. T. B. Skelly. She had many friends in Thorold, for which place the funeral will leave tonight, interment to be made in Thorold. Mrs. Roy was a very amiable character and made herself endeared to the many friends that she possessed until the last.

Mrs. Roy was a niece of Mrs. T. R. Cully of St. John.

THE CITY LEAGUE

Thomas McGovern, manager of St. Peter's baseball club said this morning a published article having reference to a delay in the formation of the city league was misleading. He said there evidently had been a wrong impression created by remarks made by a member of the intermediate team, which were attributed to him, and they were not meant to apply to the senior organization. Mr. McGovern said that he and Frank White, of the Commercial Club, have held several meetings and tonight the executive will make final arrangements for the opening of the City League here on Tuesday, May 24.

Regarding outside teams for the holiday, he said the senior teams were to play a regular league game with the Commercial Club, at which the pennant won last year would be raised, and that there was no thought of having any out of town players here. He said there had been some talk of the intermediates bringing a team here to play a morning game on the holiday in event of them not going to St. George, but since that time they had completed arrangements to play the Y. M. H. A. He said that he wished to assure fans that the executive were putting forth their best efforts to give St. John good baseball during the summer months.

CITY COUNCIL HAS A BUSY MORNING

(Continued from page 1.)

however, it will be necessary to ascertain by boring just what foundation the bed of the pond will provide for the laying of the sewer pipe. It is just possible that the necessity for the driving of piling to support the pipe will develop. If it is the intention of the council to carry out this plan, I would suggest that the city engineer be given authority to carry out these boring operations. It is only after this is done that an approximate estimate of the cost of the sewer extension can be made.

Under the alternate plan it will be necessary to erect some sort of abutment to retain the tide after it begins to ebb. Into this plan comes the possibility that refuse matter may be prevented from passing through in the harbor, and thus make the actual conditions worse than at present. It might be possible, however, to arrange the flood gates so that the whole pond could be cleared periodically, but this would necessitate the employment of a man or men for the purpose.

In the board of health report appears a paragraph to the effect that the outflow from many of the larger sewers is partly obstructed by rubbish of various sorts, mattresses, tin cans, etc., which cause the solid matter to hang up and be exposed at low tide. The necessity for continuous reports on this question might be obviated if attention was given to the clearing away of this debris by the harbor department, which has jurisdiction over the area.

The report also refers to a pile of manure and street sweepings near the roadway in Rodney street. This, I think, could be effectively disposed of if some other means of getting rid of this matter was secured by the public works department. The health board's recommendation that the dumps be so placed as not to obstruct the flow from the sewers is a question which I would think also comes within the scope of the public works department. There is no doubt if all these matters were attended to present conditions would at least be improved.

"For the love of Mike, what do you think of all that?" asked Coun. Bullock. Mr. Jones replied that he was simply stating facts.

Mr. Bullock thought that the suggestion of the board of health to trench the pond to allow the sewerage a more easy means of flow, might be a practical and reasonable improvement. He noted that the commissioner of water and sewerage be asked to bring in a report as to what it would cost to put in a foundation for a trunk sewer.

Dr. Frink said the council should declare its policy regarding the filling. He thought that the matter of a sewer could then be decided.

If the mill pond was not included in the harbor area, according to the harbor commission act, he favored filling in the whole area, and the use of the area for industrial or other purposes. He said he had been made of the fact when the pond was suggested as a dry dock site.

G. G. Hare, city engineer, said that the mud was very soft and piles would have to be driven to carry the sewer. He said this item was included in the estimate of \$20,000. He said the pond was not included in the harbor property.

Mr. Jones promised to bring in a recommendation regarding the filling in.

A Circus Coming.

Coun. Thornton said a circus was coming to town soon and he suggested that the city had purchased the Shamrock grounds it might be a good plan to get them in shape for the circus. He said he had got about \$1,000 for two days by renting the grounds. The circus was coming from Lancaster and the Douglas avenue turn up the public might be greatly inconvenienced.

Dr. Frink said that with the deepening of Newman brook the grounds should be drier. The matter was referred to the safety and public works departments.

East Side Ferry Approach.

Commissioner Bullock reported on the proposal to erect a wharf backing for the north wing of the east side ferry floats. The engineer estimated the cost at \$40,000, which was a fair subject for a bond issue. The commissioner said he had received a communication from the solicitors of Senator Thorne, in which it was said he was agreeable to the city building the wharf on his property, the wharf to become Senator Thorne's property in fee simple; the city to keep half of the wharf in repair and the owner the other half, filling which the property would be free from taxation.

Commissioner Frink thought the principle was entirely wrong. The city, he thought, should acquire the property either by private negotiation or expropriation. He preferred the latter. Mr. Bullock said the matter of expropriation had been taken up with Senator Thorne. He thought this plan would be a very expensive undertaking.

Mr. Jones said in view of the possible taking over of the harbor by the government, the matter should be allowed to stand for the present. Mr. Bullock said he would bring in a resolution regarding expropriation in order to bring the matter to a head.

Harbor Commission.

Mr. Bullock said he had received copies of the harbor act and he asked for a date for the discussion of the plebiscite on the question. It was decided to consider the matter at an early date. The mayor said he would set a date soon.

Street Railway Matters.

Commissioner Frink read three letters from the N. B. Power Co. in view of the possibility of the rule of the road being changed, the company said that it would have to remodel its gas and change its switches and cross-overs to conform. This they said would take at least six months and it was expected that the rule might be changed this fall or on January 1, they asked that new paving work in city streets be carried out in such a manner that the change could be made easily. The company also asked that permission be granted by the city to allow the company to run its cars for two weeks over the newly laid rails on streets which were being paved before the paving was completed in order to allow for the adjustment of slack in the rails and connecting plates. A desire to widen the "devil strip"—the space between double tracks—from four feet to four feet six inches, was also expressed. All the communications were referred to Commissioner Frink.

Only TWO DAYS Left IN WHICH TO TAKE ADVANTAGE OF

MACAULAY'S MID-SEASON SALE

The Bargains are big and numerous. Buy your wants now. Every department holds out unusual offerings for you. Come in and see them before it is too late. The men are all talking about the sacrifice prices on our Men's Furnishings. HAVE YOU BEEN IN YET?
