THE CITY ROLLER MILLS

Wish to announce that in a few days we will be in a position to give to the people of Ingersoll and vicinity a Brand of flour that is second to none in the Dominion.

Why? Because we have one of the best mills in the land

Because we will use nothing but the best Manitoba and winter wheats that money can buy.

Because we do not use a bleacher and that is more than most of our competitors can say—and we would like to say here that we haye it from the best authority, that flour bleached with chemicals is positively dangerous to health. And also

Because we understand the manufacture of flour in every detail and will guarantee satisfaction or your money back.

We want your business, and in order to get acquainted, we are offering a special price on everything in our line. Give us a trial.

Chopping—6c per cwt.

INCREASED CROP THREE-FOLD.

Clarence Ralf, of Orwell, Ont., writes: "One of my crops the past season was onions, in growing which I learned something. I bought some Homestead Fertilizer from their agent Chas. Minard, and used it on a part of the crop. Where this was done I had three times the crop that I had where no fertilizer was applied and I got equally as good results on my corn."

Homestead Fertilizers are manufactured and sold by the Michigan Carbon Works, Detroit, Michigan, who will send free to any farmer their book on fertilizers with a handsome calendar, postage paid. They want agents where they are not now represented. Address, Michigan Carbon Works, Post Office Drawer 814-A, Detroit, Michigan, asking for terms.

Western headquarters of the Y.M.C.A., will be transferred from Winnipeg to Calgary.

RUSSIA FIDGETTY.

Rumor of Balkan Deal Causes Panic on Bourse.

ST. PETERSBURG, Feb. 19.—The dispute between Bulgaria and Roumania over the cession of a strip of territory by Bulgaria to Roumania on the Black Sea coast, brought about a panic on the Bourse here yesterday, while public opinion was also greatly excited.

The Russian Government, however, continues optimistic, declaring its confidence that the joint action of the powers resulting possibly in mediation by Russia and Italy, will assure a settlement and avert the armed occupation of Bulgarian territory by Roumania.

Russia, it is believed here, has decided to follow the example of Germany, Austria-Hungary and France by increasing the peace footing of her army.

Rate War Is Patriotic.

MONTREAL, Feb. 19.—That the threatened rate war on Austrian business to this side of the world had been initiated by the efforts of German lines to raise patriotic sentiment against Canadian and American steamship concerns, is the statement made by Mr. Beaven, vice-president of the C.P.R.

DEBATE CONCLUDES

Local House Votes Down Anti-Treating Amendment.

"HAS NOTHING TO REGRET"

Hon. W .J. Hanna Expresses Confidence That the Government Will Introduce Legislation Respecting Liquor Traffic—Sir James and Mr. Rowell Have Another Tilt Before the Debate Finishes.

TORONTO, Feb. 19.—The debate on the speech from the throne concluded yesterday with the adoption of the speech by a straight Government majority, Allan Studholme (Labor) voting with the Opposition.

In continuing his speech on his anti-treating amendment from last Thursday, W. H. Proudfoot said that the Liberal party had adopted its abolish-the-bar policy from a progressive temperance standpoint. "Last year the Government carried its anti-treating amendment by a vote of 79 to 19. If the Government believes that the drinking habit would be curtailed by enforcing an anti-treating law it therefore should enact one at this session. If the Government were honest in its intentions last year the act respecting anti-treating will go into effect. But after anti-treating is enforced the Government will come around to our way of thinking that the abolition of the bar is the remedy."

Hon. W. J. Hanna followed. "I am very happy to be able to ask the House to say that it has nothing whatever to regret with the Government's actions toward the liquor traffic since 1905. No session has come and gone without the act being very materially improved. Legislation has been enacted every year which has made for the better inforcement of the law and the minimizing of the evils of the drink habit.

"This session will not pass without further legislation in the same direction. This Government has been the judge in the past and will be the judge in the future."

Mr. Hanna then moved his amendment to the effect that the Opposition anti-treating amendment, which was presented last Thursday, be struck out and a vote of confidence substituted.

Dr. McQueen, Liberal member for North Wentworth, was the next speaker.

N. W. Rowell went over the abolish-the-bar platform. With regard to the residue of the traffic, he said that such other restrictions, which would limit the operations of the traffic, could be made. Political influence should be eliminated from the administration of the law. A commission with members of both parties should be established to make political influence impossible. The regulation of public houses in the interests of the traveling public was another necessarily important measure.

He regretted that he was not present when the Premier revealed the contents of the Elk Lake telegram. "I congratulate the officials of the Government in having the suggestion by the Prime Minister that his telegram might be a forgery, handsomely removed. Last year the Prime Minister refused to answer our questions regarding the matter, and now we have learned that if we only stick at it we can get it out of him. Perhaps the forgery to which the hon. leader of the Government referred was another telegram."

Sir James Whitney spoke of the Opposition leader establishing his abolish-the-bar policy with "deep emotion." He raised the banner of "banish-the-bar" with deep emotion and lowered it with deeper emotion. Mr. Rowell had done much "lofty tumbling in East Middlesex on his emotional platform." "If any of my hon. friends can produce a political leader in this country or Great Britain with such an emotional policy and conducted by such a man as this, I will be willing to take a back seat for some time," he concluded. "When he had the chance to bring his policy to the notice of the people, he declined and ran away, hoping, perhaps, to fight another day."

The Premier then concluded his speech and was followed by Allan Studholme, Labor man for East Hamilton. "I only wish to say," said Mr. Studholme, "that I will vote for the Opposition amendment because the Government failed to carry out its promise and do the right thing."

The vote was then taken, resulting in the defeat of the Liberal amendment and the adoption of the motion, and amendment of the Government, all by straight majorities.
