fair the attendance as near as can be

and the excursion from Bellingham brought loaded boats of visitors, all of

whom more or less were here to see the

The weather remained unequalled

the way, and was laughed at by those occupying the spaces for his attempt.

The balloon ascension with professor

sceured in a packing case with his hands shackled was a great attraction.

The conditions of yesterday's ascent and descent provided that the operator

should separate himself from his bonds

the small parachute before he himself descended. The ascension was made

successfully, and the drop made at the end of the horse ring building, while the bag fell in front of the stand on

the race track. Sylvan appeared shortly

after and was accorded an ovation for

The fancy rifle shooting of W. H. Hillis with a Remington rifle was the

feature of the afternoon, and was watched with the closest attention by

the spectators. His mastery of rifle and

shotgun marksmanship demonstrated

his ability to the satisfaction of every

person who witnessed the exhibition He first gave a demonstration of short

range pigeon shooting, breaking two

out of the three birds thrown from the hand. With a 22 he cracked a marble while in the air and picked two out of

three half dollar size discs, and more

than one attempt. Firing a cartridge thrown into the air by shooting it or the cap, peeling and orange and dis intergating a can of tomaties into frag-ments with a bullet were items among

the performance. With a high power cartridge he made two holes in a half-

the ground. Owing to the fact that the
