> Military Officers Complete Arraugements for Mobilization of British Army.

Ex Congressman Lewis Arrives to Press the Claims of Ameri-

(Associated Press.)

London, Sept. 9.—This week Great Britain has resembled in every respect the tremendously exciting week in the United States which immediately preceded the outbreak of the war with Spain. scurity. Patriotic enthusiasm has been at fever heat, and the slightest sign of preparation has been seized upon by the press and public as an indication of the status of the crisis. The difference between the state of affairs here and the situation in the United States in April, 1898, is merely that the projected cam paign is military instead of naval. According to reliable statistics, the army is

ready. The papers publish descriptions of the troops who are expected to do the fighting, with accounts of their equipments and methods of transport, and even relative to the killing properties of the bullets which are expected soon to be lodged under Boer skins. The particular pet is the bullet known as "Mark 4." It is claimed its lead core is hard and less fusible than any tried heretofore. Large

quantities are being shipped to Cape-Mobilization.

Thorough mobilization has never been a strong feature of the British army, but it is believed a system as near perfection as possible has been prepared. The commander-in-chief, Field Marshal Lord Wolseley, Sir Evelyn Wood, General Sir Redvers Buller, and other generals have been working strenuously on it for aonths. Many new features have been ing, repeats his statements that he did introduced, several of them being based everything by the order of Colonel Sandon the lessons learned by the American herr and his superior officers. He says the latter is the extreme usefulness of mules in such a country as the Transvaal. British officers who have been in the United States, Spain and the South, have been ordered to close their purchases and ship the mules as quickly as possible to the scene of probable hostilitities. All these things, to say nothing of the ly and strongly, and there will be no There was a large attendance of ladies abatement until South Africa is flooded and newspaper writers, who sat up all with British troops in such numbers that night to secure a front place. Plans of the Boers.

The Boer plan of mibilization is said to be purely defensive, embracing 45,000 would carry a strategical position in their own country, but, this is not likely to prevent a raid on poorly defended Natal. The greatest dangers the British contemplate facing apart from the Boers' steady hand and Mauser rifle, are the climate, lack of forage and scarcity of ammunition, and the difficulties or transport. Precautions have already been taken to prevent the two last, but there is no doubt if a campaign occurs. many British lives will be sacrificed to · The Franchise Question.

Mr. Montague White, the consul-gen- peace of the town. eral of the South African Republic in The local papers to-day publish an London, said: "If the burghers will not open letter from M. Regis to Premier We decline the responsibility for what to preserve the greatest calm, adding others have muddled. The suzerainty is if any attempt is made to arrest him not the question. The franchise is the he will resist. rock of difference which Mr. Chamber-lain recognizes. This war, if war must come, is not going to end with a flash in the pan. The struggle will be from Pretoria to Capetown. Even supposing the existing Boer regiments are annihilated, no force can put down the Afrikander week, is afraid he may not be able to get and Dutch strength in South Africa, He away for some time yet, if indeed he gets who declares war on the Transvaal lights away at all. the torch of revolution. are light, sweet and wholesome, while others are sour, heavy, bitter, unpalatable. The same flour, butter, eggs and sugar are used; what makes the difference?

Dr. Price's Cream Baking Powder always works uniformly and perfectly. It can be depended upon every time to make the food light, sweet, delicious and wholesome. This is because it is scientifically and accurately combined and contains the purest grape cream of tartar, the most healthful of all fruit acids, used for a hundred years in the finest leavening preparations.

Note.-There are many alleged cream of tartar baking powders upon the market sold at lower prices, which prove, upon analysis, to be alum powders in disguise. Avoid them, as they make the food unwholesome.

It is all in the baking powder.
