Still in a measure now before the house-a A MASSACHUSETTS MURDERESS bill' to construct a railway along the Coffee-

bill to construct a railway along the south shore to connect Halifax with Yarmouth—the government has had to apply the party whip and even threaten to resign in order to overcome the re-luctance of their own majority. The reason of this is not far too seek. The bill would have been better named one to hand over the revenues of the pro-vince to Messrs. Mackenzie and Mann, whose company, the South Western Railway Co., is to receive an advance vince to Messrs. Mackenzie and Man, whose company, the South Western Rallway Co., is to receive an advance of \$13,500 a mile for the construction of about 208 miles of rallway, also a free right of way and free terminals and also a dominion subsidy of from \$3,200 to \$6,400 per mile. The latter is estimated to be worth \$3,200 per mile. The total sum that the government be-comes liable for at the end of 5 years amounts to, principal and interest, about \$3,300,000, the interest on which at 3 1-2 per cent. would be \$115,500. The position of the province to pay present interest charges, ordinary services and the increased interest is seriously doubted. The population has been steadily decreasing in the rural dis-tricts for 20 years. In the country dis-tricts of Colchester, Cumberland, Pric-tou and Antigonish—the finest agricui-tural counties in the province—the population is steadily dribbling out. Even the valley of the Annapolis has not escaped the exdues. In addition to the natural increase of 21-4 per cent, the rural communities have lost the NEW YORK, March 31.-The steamer Pre-New Yorkk, March 31.—The steamer Pre-toria, which was bound for Bermuda and returned yesterday from sea with fire in her cargo and grounded off Tompkinsville, was floated today. The fire has been extin-guished and the yessel's hold is being rapid-ly freed of water. The Pretoria will go into dry dock for a survey, until which the ex-tent of the damage cannot be determined. ARDMORE, I. T., March 31.—Gen. S. S. Bradenord, United States commissioner here, suffered a partial stroke of paralysis today and his condition is critical. He is about 50 years old. 1. . .

cause of their great activity. But, while certain well defined differences may characterize the various breeds, yet it may be well to remember that there is much greater difference between individual animals of the same breed than between dif-ferent breeds. A good cow is a good cow no matter what her breed may be. Therefore let each man select the breed that he con-siders best suited to his conditions, and stick to it. Let him buy, or breed to, the best available bulls of that breed, and continue to grade up his herd to a higher, degree of excellence year by year. The practice fol-lowed by some farmers of using, bulls first of one breed and then of another, is fatal to all plans of building up a handsome uni-form and profitable herd of grade cows, and that is just what most farmers require. The average man does not need pure bred fem-ales, in fact will de better wilk good grades. The breeders of pure bred stock are, like the poet, born, not made. He must inherit a love for animals and an aptitude for hand-ling them, otherwise his investment will prove unprofitable, and his efforts a disap-pointment.

HOW DELARE YESCAPED.

PRETORIA, March 28.-About 1,500 Boers, under Delarey, Liebenberg, Kemp and Wolmarans, were within the area of Lord Kitchener's latest move ment, but, though surprised by the rapidity displayed by the British troops gaps in the latter's line enabled most of the burghers to escape.

From the first prisoners captured it was learned that Gen. Delarey himself was outside the actual cordon, having slept some distance westward, but Lieberberg, Kemp and other Boer commanders were inside the columns of groops. The body, consisting of about 500 Boers, sighted at 10 o'clock in the morning, March 24, retreated at full speed, making for a gap between the British columns. The mounted infantry, which had already ridden upwards of 50 miles, pressed their tired horses until they gave out, when the men jumped off and raced forward on foot. Some of the mounted men, however, were able to gallop right into the gap just ahead of the burghers, whom they met with a warm fire. These troops also succeeded in driving back another body of 300 Boers, who were forced to desert the guns they had captured from the Von Donop convoy (southwest of Klerksdrop) in February. The Boers tried to get through several openings, but on each occasion were forced to double back until they ultimately found a gap and passed out of the British lines within sight of Klerksdorp. Night fell before the pursuing columns. could avertake the Boers.

Five Canadians who fell out of their column and tried to work their way back were surrounded by a Boer force and made a splendid defence. But finally seeing their case was hopeless, four of the Canadians surrendered. The fifth, however, indignantly refused to throw down his arms and continued a single handed fight. until he was killed. This was regarded as one of the most interesting incidents of the day.

In Zuli land, when the moon is at the full, objects are visible at a distance of seven miles. By starlight one can mad with

NOTICE TO MARINERS.

BALTIMORE, Md, March 26-The Light-nouse Board has sent out the following no-

Special from Norwich, Ont.

The recovery of Mr. Norman Batty, Hardware Merchant, one of Norwich's oldest and most successful citizens, has excited much comment. For years Mr. Batty has been an unceasing sufferer from Catarrhal Asthma and al though no end of time and money was spent relief was not obtained until Mr. Batty commenced Catarrhozone treatment, which perfectly cured him. This case is only equalled by that of Mrs. Bannon, wife of J. J. Bannon, Druggist, who was also cured of Asthma and Hay Fever by Catarrhozone after thirty years' suffering. Fully a hundred persons in this town have been cured of Catarrhal troubles by Catarrhozone, which is a remarkable Catarrhozone, which is months treat-proof of its value, Two months treatment, puice \$1. Small size 25c. Sold by all Druggists or by mail from Pol-

son & Co., Kingston, Ont.

VIENNA, March 31.—The Sonn Und Mon-tag Zeiting says that Lufti Bey, the Turk-ish consul at Budapest, has disappeared. It is believed he ran away with an actress, says the paper, and his whereabouts are not known. This statement of the Sonn Und Montag Zeikung is declared from Constanti-nople to be untrue.

LONDON, March 31.-Mrs. Brown Potte LONDON, March 31.-Mrs. Brown Potter made a successful appearance this evening at Her Majesty's Theatre in the role of Calpso in Stephen Phillips' Ulysses. She gave a new and charming reading of this part, which was rather sensions than dignified, however, and somewhat marred by defective electron

OGDENSBURG, N. Y., March 31.-Navigation on the St. Lawrence Rive the state of the same

Even the valley of the Annapolis has not escaped the erodus. In addition to the natural increase of 21-4 per cent.,

the rural communities have lost the past ten years 35,000 people. The pro vince has been running steadily in debt the past 20 years at the rate of \$200,000 per annum, so that the debt now amounts to four and a half millions. To meet increased interest charges the government has been inventing new taxes and to some extent reducing road

grants. Otherwise the revenue is stationary, except the royalties from the Dominion Coal Co. Mining royalties form nearly one half the revenue, which now exceeds a million dollars. To meet interest charges on a greatly augmented debt the government has to reduce some of the ordinary services. or rely upon a further expansion of the Dominion Coal Co.'s trade. This is so highly problematical and speculative that many friends of the government doubt the proudence of incurring an enormously increased debt on that basis. Mackenzie and Mann's company that

gentlemen avoid making any personal liability; in default of such payment, the government can foreclose and sell the railway. In making such saleand this is an extraordinary feature of the transaction-\$3,200 per mile, or about \$700,000 out of the head of the proceeds, are to be paid to Mackenzie and Mann. It is safe to say that they will do what they can to default interest in order to promote a sale, by which they will either obtain the rallway free from all charges or be paid a bonus above all profits of \$706,006. Mackenzie and Mann will receive som \$19,000 per mile for building the road, exclusive of a free right of way. The province will pay also over \$2,000 per mile interest, and in case of a sale \$3,-200 per mile more. Contrast this sum paid with the \$6,400 subsidies paid for nearly 900 miles of railway in this province and in Nova Scotia. The sp fication has also been lowered in order to enable the company to construct a

cheap road. It is not a matter of wonder that many government supporters were appalled at a contract made apparently for the benefit of Mackenzie and Mann. and when they became restive the act-
