It will take some time for the engineers to reduce their field notes to a statement of quantities and estimates of the cost so that a choice can be made between the river route and the back route. It is expected that late in September or early in October the commissioners will be in a position to recommend to the government the letting of the contract on one of the routes. About the same time it is probable tenders will be invited for the construction on another section of the line between Winnipes and Quebec. This will be to the north of Lake Superior, where the facilities for setting the supplies in are considered fairly good. Bright's disease as well as the other dreadfully painful forms of kidney disease can usually be prevented and cured by giving some attention to the diet and to the activity of the liver and kidneys.

Excesses in eating and the use of al-coholic drinks must be avoided, and the filtering organs can best be kept good working order by the use of Dr. Chase's Kidney-Liver Pills.

The derangements which lead to Bright's Disease usually have their besuffering from headaches, biliousness and indigestion before the kidneys fail and such symptoms appear as back-ache, scanty, highly colored urine painful, scalding urination, deposits in urine, etc.

Dr. Chase's Kidney-Liver Pills suc ceed where ordinary kidney medicines fail, because of their direct and combined action on the liver and kidneys This has been proven in thousands of eases of the kidneys. One pill a dose, 25 cents a box, at all dealers, or Ed manson, Bates & Company, Toronto.

A very sad death of a New Brunswick boy took place Monday in Richmond, Me., when Garfield Perry, youngest son of Rev. Samuel Perry, of White Head, Grand Manan, passed to his long rest. Mr. Perry had been attending Bates' College in Lewiston, Me., for the past two years, and graduated there a few weeks ago. Previous to that he at-tended the U. N. B. at Fredericton for two years in the class of 1906. While in the U. N. B. Mr. Perry was one of the most popular young men of that institution. He was a thorough college man, taking an active part in all the various functions connected with college life. He was early known as a very close student, and before he was long in college had proved himself an able debater. NEXT MEETING

FREDERICTON, N. B., July 17—The 26th annual meeting of the New Brunswick Medical Society opened here this morning in the city council chambers. There was a fair attendance of the medical fraternity. The president, and Dr. L. A. Murray, of Sussex, act-ed as secretary. After the usual formalities the president read his addres which was one of an excellent character. On motion of Dr. McInerney who highly complimented the speaker onded by Dr. Purdy, the address was referred to a committee compose of Drs. Irvine, Purdy and Day.

Dr. W. H. McVey, Rothesay, read a highly interesting paper on the adulteration of food products. Dr. McIn-erney on behalf of Dr. McLaren, stat-ed that an effort was being made in St. John to form a branch of the British Medical Society and that arrange-ments were being made to have a pri-vate car at the disposal of the pro-vincial doctors going to Toronto in August for the meeting of the British Medical Association.
