

THE WEATHER

Toronto, Sept. 6.—Warm weather with a few scattered thunder storms prevailed today in Ontario, while elsewhere in Canada the weather has been generally fair.

Minimum and maximum temperatures—Victoria, 52, 58; Vancouver 50, 60; Kamloops 40, 54; Edmonton 40, 60; Banff 46, 66; Calgary 32, 62; Moosejaw 46, 61; Quappelle 46, 62; Winnipeg 52, 70; Parry Sound 62, 75; London 64, 91; Toronto 64, 83; Kingston 68, 76; Ottawa 62, 72; Montreal, 64, 72; Quebec 56, 62; St. John, 54, 68; Halifax 50, 72.

Forecast. Lower St. Lawrence and Gulf—Light to moderate winds; fine with a little higher temperature.

MARITIME—Moderate winds; fair. Much the same temperature.

AROUND THE CITY

Rushing Charlotte Street Work. The contractors who are doing the street paving work have finished the paving of Charlotte street from Union to North Market street, and have a night force engaged rushing the completion of the job.

Stanley Will Return. It is expected that the government steamer Stanley which is now at Sydney, will return to Hudson Bay for the purpose of towing up a barge of coal for the use of the Minto which is engaged in survey work in the bay.

Prediction Fulfilled. Dr. H. J. Von Hegon, of New York, who is interested in mining and railway properties in New Brunswick, is at the Royal. While here some time ago Mr. Von Hegon predicted that oil would be discovered near Gasquet and his prediction was fulfilled in a very short time.

Pressure Higher. Since the last break in the pipe line was repaired there has been bigger pressure than usual shown on the gauges at the water office. There was an old break in the length of pipe which was removed, and it is believed a good deal of water has been leaking through the break for some time.

Inquiry Adjourned. A jury was empanelled last evening by Coroner D. E. Berryman to hold an inquiry into the death of John Gould, who was killed in the C. R. yard Wednesday night. The jury viewed the remains in Chamberlain's undertaking rooms on Mill street and adjourned until Wednesday evening, the 11th inst., when evidence will be heard.

Will Run in St. John. Thomas Coward, Jr., the Fredericton long-distance runner, will be among those to take part in the ten mile race from Robson to St. John, which is held under the auspices of the Every Day Club, during October. Coward was successful in landing a handsome silver cup last year, when he won third place.

Island Man Arrested. Last evening Deputy Chief Jenkins and Detective killed visited the exhibition grounds armed with a warrant for the arrest of F. Robert Dodd, of Charlottetown. The officers were not long in locating their man, and taking him into custody, locked him up in a central station cell. Dodd is an insurance inspector, and is charged with fraudulently converting sums of money not his own, to his own use.

Found Wife in Canada. William Cobbett, the celebrated English statesman, to his last day never regretted the hour in which he first set eyes on the young woman who made him the "happiest husband alive." He was walking along a street in Halifax, Nova Scotia, when he first saw her stooping industriously over a wash-tub, her arms reaching with a comely grace to her comely features veiled by a curtain of steam. But a look was sufficient.

"That's the wife for me," he exclaimed; and, though for a time the seas divided them, he knew no peace until he had made a wife of the "servant-of-all-work," who had counted herself passing rich on \$25 a year.

LOCAL DELEGATION LEAVES FOR MONTREAL. Members of Legislature and Prominent Conservatives to Attend Reception to Mr. Borden—Will Return Monday.

Several of the members of the local houses together with a number of prominent Conservatives, left for Montreal yesterday afternoon where they will attend the reception to be held today in honor of the Right Honourable R. L. Borden.

Those in the party were: Hon. Robert Maxwell, Hon. J. E. Wilson, H. W. Woods, M. P., F. L. P. D. Tilley, M. P., P. P., Philip Grannan, M. P., W. F. Hatheway, ex-M. P., Hon. George A. Clark, speaker of the provincial legislature, Hon. H. F. McLeod, J. A. Belyea, Starr Tait, D. Mullin, K. C., John McBurney, J. Stone and W. H. Thorne. The party will return on Monday.

Among those who had intended to make the trip but who were unable to go were Hon. W. C. H. Grimmer and Hon. J. A. Murray.

PERSONAL. Hon. J. D. Hagan left yesterday morning on the Ocean Limited for Quebec and Montreal.

Mr. and Mrs. William Downie have removed from 22 Coburg street to 28 Dorchester street.

H. W. Woods and Mrs. Woods, of Westford, were at the Victoria yesterday.

Rev. Frank Porter, pastor of the German street Baptist church, has been spending a few days in Fredericton.

Miss Myra O'Rourke, of Fredericton was in the city yesterday, taking in the exhibition.

CHAMCOOK FACTORY ONE OF THE LARGEST OF KIND IN CANADA

Canning Plant to be Up-to-date in Every Particular—Boarding Accommodation for Employees.

"The Chamcook canning factory will be one of the largest and best equipped canning establishments in Canada," said John Kenney, Jr., the Provincial Factory Inspector, who returned from a trip of inspection to Chamotte County yesterday. "Two large three story structures have been erected and the two buildings are connected by conveyors of the most approved pattern. In addition there will be a large cook house and a boarding house. The factory buildings are built of concrete and steel and are nearly fire proof as possible. Even the window sashes are made of steel."

F. C. McCall, the manager, told me they would be ready to start operations within three weeks. The company has brought out 150 girls from Norway, and intend to employ 600 girls when everything is in full blast. One woman will have charge of 20 girls and will be responsible for them in every way. There will be no piece work. The company will board its girls and pay them a weekly salary. It is the intention to can nearly everything in the way of fish and vegetables and berries."

Mr. Kenney stated that he found the Charlotte county hotel keepers had taken steps to comply with the new hotel act.

PREFERS THE ST. JOHN GIRLS TO ESQUIMAUX

Austin Hurst, of the Steamer Stanley, Glad to See the Last of Hudson Bay—Encountered Much Ice.

After seeing more ice in August than the ice trust could corner in a century or three, Austin Hurst, steward on the government steamer Stanley, during her trip to Hudson Bay, was very glad to get back to St. John yesterday, and enjoy the nice warm weather Old Probs has been bestowing upon the residents of this favored part of the world. And perhaps after having gazed upon the flat faces of the Esquimaux maidens of Port Nelson and Fort Churchill, he was doubly delighted, don't you know, to gaze upon the comely countenances, and rose-tinted cheeks of the girls of St. John, for young Hurst being a seafaring man, no doubt, has a sweetheart in his heart.

"They're a hard looking people up around Hudson Bay," he said, when seen by reporter at the St. John Hotel. "They eat whale blubber just like grizzly bears, I wouldn't like to live in that country. It's a great place for ice and fog, is Hudson Strait." He added, "We saw many huge bergs in the straits, and magnificent sights they were. And there was a good deal of field ice, too. But the Stanley did not mind field ice; she ploughed through 40 miles of it at a stretch, as if it were cutting paper. When he got through the straits we found the bay clear of ice."

The Stanley brought Hon. Frank Cochrane, minister of railways and a party of ten men, engineers and surveyors, who have been at work up there from Port Nelson to Sydney, C. B. Capt. Dalton took her up without a pilot, and young Hurst's main impression of the trip seemed to be that his commander was the best kind of a man on the top side of the planet.

TO SECURE TEACHERS FOR PLAYGROUNDS

Project of Brining Qualified Instructor to City Considered at Meeting of Executive Last Evening.

Miss Mabel Peters, president; Dr. Margaret Parks, Mrs. H. H. Pickett, Commissioner Agar, Judge Ritchie, Walter C. Allison, Esq., B. Jones and A. M. Belding attended a meeting of the executive of the playgrounds association last evening. The treasurer reported the names of quite a number of new members.

Mr. Allison was appointed to look into the matter of the Rockwood Park playgrounds of which it appears the city council has not yet formally assumed control.

The president reported on the subject of training playground teachers and read a letter from McGill University concerning its short course. As others had yet to be heard from, the matter was laid over, but the president was instructed to find out upon what terms a competent teacher could be induced to come to St. John during the winter and conduct a course for local playground teachers.

The president reported having written as requested, to the associations of Montreal, Ottawa, Toronto, London, Hamilton, Winnipeg and Vancouver relative to the formation of a Canadian Playgrounds Association.

A. M. Belding suggested the organization of a general athletic association for St. John, in affiliation with this association and in connection with the development of the park playground.

The members were very favorable to such a course if the plan could be successfully carried out.

As there is a deficit on this year's work, the question of raising funds was discussed and it was announced that the net receipts at the exhibition has room in the women's department today, would be given to the association.

ORPHANS GIVEN THE TIME OF THEIR LIVES YESTERDAY

Members of Automobile Association Give Children a Ride—Thirty Cars Turned Out—Thirk in Fair.

Through the thoughtfulness of the members of the New Brunswick Automobile Association, the kindness of the local automobile owners, the orphans from the different institutions the Protestant and Wiggins, the St. Vincent's, and Silver Falls, orphan ages were given a most delightful time yesterday afternoon. Shortly after 1 o'clock 30 automobiles called at the orphanages and the young boys and girls were taken to the fair. The automobiles with their very happy passengers aboard then proceeded to King street east, where they were grouped by T. P. Rehan, the president of the association, and a program taken of the large party by Erb. After the camera man finished his work, the procession headed by President Rehan, started down Sydney street, out Waterloo street, and after a joyful ride about the city, the youngsters were taken to the exhibition where they spent the afternoon sightseeing.

It is needless to say that all enjoyed themselves, and they were shown everything worth seeing, being piloted about by the members of the association who had them in charge. It was after 6 o'clock when the King street east, where they were called together again and having balloons and all sorts of souvenirs, they were returned.

again, tired out but very happy, after the excellent day's outing. There was a large assemblage of people on King street east to witness the procession.

WILL SOME PERSON PLEASE ENLIGHTEN FREDERICTON MAN?

Has a Hunch He Comes from Best Town on Map and Reporter Fails to Disillusion Him—Quotes Baseball.

A gentleman came to one of the city hotels yesterday and registered himself as being from "The Best Town in Canada."

A reporter wondering what was the meaning of this gentleman's boast, hunted him up and asked an explanation.

"It's no joke; I mean just what I say," said the man from the Best Town in Canada. "I was born in Ats Town, including all but four of the states in the American union, and I want to say that the town I am now living in is the best in Canada. Furthermore, I'll say it is the best in the map. It has everything in town as best as by a mile."

"What's best about it?" asked the reporter.

"Well, we have the best baseball team in eastern Canada; we have the best horse racing; we have the best round sports on the map. And we have the best looking town you ever saw—well kept, well lighted houses, beautiful public buildings, stately shade trees, and splendid surroundings."

"Anything else?"

"Sure, we have the finest women in the world. Every man in St. John that knows anything, goes to my town for a wife. Show me a man in St. John that is somebody, and I'll tell you his mother came from my town."

"And what is the name of this wonderful town?"

"Great Scott! Don't you know? It's Fredericton, of course."

After the reporter had taken a brace against the shock of this information, he attempted to uphold the claims of St. John, but it was no use.

"St. John is a rip roaring, good little old town, I'll admit," said the man from the best town on the map. "But it hasn't got anything on Fredericton. St. John is too English—it keeps all of business, but it does not tell about it. If we only had a few water towers like Fredericton, we would leave St. John so far behind it would never know where it was."

"Well, Mr.," began the reporter.

"Say, don't mention my name in the paper," interrupted the man from the best town.

"What are you afraid to stand by your opinions of Fredericton?" "I'll back up all I say; I'll take you up there and show you. But I don't want to be quoted in the press. Why? Well I have my reasons, George McPade, the publicity man, might think I was trying to do him out of his job."

Tailored Suits. Have you seen the handsome tailored suits for ladies that F. A. Dykeman & Co. are selling for Fifteen Dollars and Seventy-five cents? They are made from fine Bradford serges. The coat is lined with twilled satin, the fit is perfect and the style is simply superb. It is just such a suit as you will find in many stores at twenty dollars. Smoke and Dust Stained Curtains. The only effective treatment is Dry Cleaning. Go to Try Ugars, 28 Waterloo street.

Bell boys wanted at Royal Hotel.

TWELVE THOUSAND PAID FOR THE GREEN HEAD PROPERTY

Commissioners Decline to Divulge Information, but Likelihood is Larger Price was Paid the City.

While the city commissioners decline to discuss the understanding entered into with the Partington interests in regard to the transfer of the Green Head property, beyond admitting that it is proposed to grant them the fee simple in the land, it is understood that the consideration is an annual payment of about \$12,000. As \$26,200 has already been paid on the property, the commissioners are inclined to think that they have made a good bargain.

When the city council granted an option to purchase for \$26,200 it did so on the understanding that the city would impose conditions assuring the establishment of a cement plant and the employment of a considerable number of hands, while the Partington interests declined to be bound to specified conditions they assured the commissioners that the property would be developed in a short time and an industry established which would employ a considerable number of men.

ENTHUSIASTIC OVER PROSPECTS OF WEST

Former Resident of Yarmouth Says Prince Rupert is Growing Rapidly—Great Influx of People.

After nine years in the Canadian northwest and Alaska, M. V. Churchill, formerly of Yarmouth, is on his way to visit his old home, accompanied by his wife. When seen at the Royal last evening, Mr. Churchill, who is a civil engineer, spoke enthusiastically and declared that with the construction of railways, there would be important developments in the way of exploitation of the mineral wealth of those regions, and a large influx of people.

"Prince Rupert is growing fairly rapidly, and when the mountain section of the Grand Trunk Pacific is completed, its development will proceed at a much faster rate," he said. "The work of providing harbor facilities for the city is going on, and the town is being extended. When I was there last, they were blasting through solid rock to lay out streets, and put in sewer and water facilities. Trains are now being run from Prince Rupert to Hazelton where the land dispute is now going on, and where in the course of time, a harbor will be built."

"Around Prince Rupert and other ports nearby, they are beginning to realize the great value of the sea fishing industry, and sea fishing is bound to become an important industry, employing a good deal of capital and a large number of men."

Mr. Churchill spent some time in Alaska, and said fortunes were being made in coal lands there, and that the development of the coal and other mineral areas was attracting many immigrants.

"DONT'S"

From the "Fremont Standard": Don't put gas or other light where a blown curtain can reach it. Don't go to bed and leave a kerosene lamp burning. Don't use a light when looking for escaping gas in the cellar. Don't leave matches about except in metal or earthen boxes. Don't use snap matches. Don't neglect to clean where rats or mice can get at them. Don't place ashes in wooden receptacles.

Don't neglect to watch gas and oil stoves when in use. Don't leave a room where fat is boiling. Don't use an open grate without a screen. Don't use kerosene to kindle fires. Don't allow flues to become defective.

Don't leave oily rags—animal, or vegetable—about. Don't use a receptacle filled with sawdust for a cuspidor. Don't neglect to ascertain immediately the cause of unusual smoke or smell of smoke. Don't forget the location of the nearest fire alarm box. Don't delay in sending in an alarm when you discover fire. Don't hesitate to send in an alarm or telephone to a fire station if you cannot find the cause of unusual smoke.

Don't invite fires by neglecting to guard against and to be prepared for them. Don't be without means for extinguishing small fires at any time.

Three More "Dont's." Don't forget that a profitable fire extinguisher is the only fire appliance a woman can use as well as a man. Don't forget that with THE "VULCAN FIRE EXTINGUISHER" one has at hand for instant use the same chemical as is used by the fire department with bring, and in most cases the fire can be extinguished before their arrival.

It is the policy of insurance with Frank R. Fairweather, 12 Canterbury street, St. John, N. B. Insurance, Fire Prevention Apparatus, Typewriters. Phones: Main 653, House 1210.

At F. W. Daniel's. Some of the smartest tailored hats at the opening yesterday were at F. W. Daniel & Co's. The trend in millinery in New York is altogether towards the simplicity and individuality of the tailored idea in hats and this firm seems to have caught this tendency most successfully this season. The opening will continue today.
