P.E.I. FERRY STEAMER IS CHARTERED

The "Prince Edward Island" launched yesterday—Named by Mrs. Geo. H. Perley.

London, Oct. 5.—The ice-breaker ferry steamer, specially built by the Armstrong-Whitworth company, to the order of the Canadian government, for the purpose of more effectively linking up the Province of Prince Edward Island with the mainland, was launched today at Newcastle-on-Tyne, and was christened "Prince Edward Island," by Mrs. G. H. Perley, wife of the acting Canadian High Commissioner. The vessel, which will carry complete railway trains, both passenger and freight, is comparatively small, but is fitted with propelling machinery of considerable power, having three sets of triple expansion engines, two aft and one forward. The invited company included Earl Grey and Hon. George H. and Mrs. Perley. The latter, in the christening ceremony, expressed her pride in giving such material and moral support to Britain as Canada was doing in the present crisis.

Mrs. Perley, having been presented with a silver model of the vessel as a souvenir of the occasion, Hon. Mr. Perley spoke briefly, referring to his visit of inspection to the Tyneside works, and saying that while watching the launching, he had been struck by the thought that here they had incontrovertible evidence of the supremacy of the British navy.

Earl Grey said that he had always been interested in the question of ferries for the St. Lawrence, and he was glad to congratulate the Armstrong-Whitworth Company on obtaining the seemingly impossible for Northumberland Straits.

CHANCERY DIVISION.

The case of Francis P. Burpee et al. vs. the Ashburn Lake Fishing Club et al. came up for hearing in the Chancery Division Monday morning before Mr. Justice White. This is a suit brought for a declaration and decree that the defendants are not entitled to the use of the road over and across the plaintiff's lands to Ashburn Lake; for an injunction restraining the defendants from using the road and for damages for alleged trespass. The plaintiffs contend that the defendants have used the road in question by their permission for several years, and that about two years ago they forbade them the use of the road, and that the defendants broke down locks and gates which had been placed across the road.

The defendants deny that the plaintiffs have any title to the lands, and that the road was never used by them. The case was examined and considerable documentary evidence was adduced. M. G. Teed, K. C., and Francis Kerr, are appearing for the plaintiffs, and W. A. Ewing, K. C., and J. B. Baxter, K. C., for the defendants.

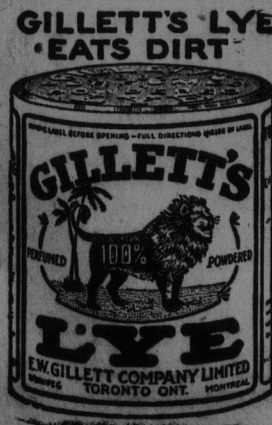

Police Court.

In the police court yesterday afternoon David Hendon, charged by Policeman Anderson with being drunk and resisting arrest, in giving evidence the officer stated that on Wednesday night last he found the defendant seated on a pair of steps on Pond street and when asked what he was doing there Hendon used some strong language. When defendant staggered about he was placed under arrest. He resisted violently, kicked the officer on the leg causing a wound and called for a knife, threatening to kill the policeman. Defendant also kicked while in the patrol wagon and when he reached central station he drew a bottle of liquor at witness, the bottle breaking on the floor. He also stated that he would "fix" witness when he got out of jail. The officer said that when he arrested the defendant about a year ago Hendon cut him on the nose and left a scar. The prisoner was remanded until a later date when other witnesses will be called.

Much Pain From Kidney Disease

Doctored in Vain Until Dr. Chase's Kidney-Liver Pills Were Used.

Kidney derangements are often associated with disorders of the liver and bowels, and under these conditions ordinary kidney medicines usually fail to effect cure. It is because of the unique, combined action on the liver, kidneys and bowels that Dr. Chase's Kidney-Liver Pills are so generally successful, even in the most complicated cases.

Mr. Emanuel Bernard, farmer, St. Paul's Kent county, N. B., writes:— "About eighteen years ago my wife and I were afflicted with kidney trouble, and suffered greatly from headaches, pains in bowels and stomach, and her heart was affected. For a year she was treated by her doctor, with no apparent benefit. She then used five boxes of Dr. Chase's Kidney-Liver Pills with most satisfactory results. This gave us such a good opinion of Dr. Chase's Kidney-Liver Pills that we always keep them in the house to be used for derangements of the kidneys, liver and bowels." WEDDINGS.

Reid-Arnold.

A quiet but pretty wedding took place at the home of Mr. and Mrs. Wm. Arnold, Rockville, on Wednesday September 30, at 3:30 p. m., when their second daughter, Blanche Viola, was united in marriage to Hilary Alexander Reid, of Salt Springs. The ceremony was performed by Rev. F. B. Gaskell, of Waterford, in the presence of only the immediate relatives of the contracting parties. The bride entered the room, which was tastefully decorated with ferns and autumn leaves, on the arm of her father, and was becomingly dressed in a gown of ivory duchesse satin with crystal trimmings and carried a white prayer book, the gift of the bridesmaid, Miss Mabel Arnold, sister of the bride, who was dressed in white silk tulle and carried a bouquet of sweet peas. The groom was supported by his brother, Garfield Reid.

The popularity of the young couple was testified by the numerous and valuable presents received, including cash, furniture, silverware, glassware, china, lace and linens. The groom's present to the bride was a handsome pearl pendant, and the bridesmaid a ring set with amethysts.

The bride's travelling suit was of navy blue serge with white hat. A daily luncheon was served after which the happy couple left by auto for their future home in Salt Springs amid showers of rice and best wishes of their friends.

A number of their young friends gathered to receive them and gave them a good old time charivari.

RECLAMATION SCHEMES AT COURTENAY BAY

The Norton Griffiths Company has three reclamation schemes under consideration at Courtenay Bay according to the report of the Harbor Committee of the Board of Trade, submitted to the board meeting last evening.

"On the occasion of their last visit to Courtenay Bay, the committee appointed to inspect that work found about 300 men, five locomotives and three dredges in active operation at the works. The breakwater was almost completed. One suction dredge was employed on the inside of the breakwater discharging sand and gravel through a twenty-four inch pipe to the sea front of the breakwater. One elevator dredge was digging near the end of the breakwater on the inside, and the third dredge was operating in the outside channel. As to the dredging itself, while a large space has been dug, an immense area still remains untouched and the engineers were of the opinion that it would be tight work for them to have it all completed at the expiration of the contract in 1917. The engineers stated that a dredge was coming from Havana and another was being negotiated for in England to hasten completion of the contract. The former of these has since arrived. About twelve acres of land has been reclaimed for the site of the proposed steel plant. The engineers stated that they have three reclamation schemes under consideration, which they hope soon to be able to present to the board. Probably one-third of the necessary excavation for the dry dock had been completed. The engineers in charge stated that owing to the presence of the ledge, it had been found necessary to change the quay sites to a point 300 feet to one side. Work on these quays would begin about May 1st, 1915.
