Matters Before
Common Council

**Leakage in Main to Spruce
Lake Discussed—Ferry Ap-
proach Matter.**

At a committee meeting of the Com-
mon Council yesterday morning a re-
port that some defective joints had
been placed in the new 36-inch rein-
forced concrete pipe line to Spruce
Lake was discussed.

Commissioner Jones reported on the
matter of alleged defective pipes. The
city engineer had reported to him that
at one place in the line a leak occur-
ed. Water appeared on the surface at
one place, covering a stretch of 200
feet, and a whole section was covered
with a reinforced concrete jacket, and
he was thoroughly satisfied with the
result. The final test, he said, had
not yet been made.

Commissioner Thornton said that
when the leak was discovered the de-
fective joints should have been re-
moved and replaced.

Mr. Jones said that he did not think
the city inspector, Mr. Blake, was on
the job when the leak occurred. He
said that Mr. Ballentyne had been
supervising over the whole job, but
no report of the matter had been
made to him. Mr. Jones said he re-
ceived a daily report from Mr. Blake,
but he did not get similar reports
from Mr. Ballentyne.

Mr. Bullock said that all inspectors
should have made daily reports. He
said that citizens had reported that
there were eighteen or nineteen de-
fective joints put in the line.

The city engineer said that cracks
might not have shown when the pipe
was completed, but when the water
was turned on the seepage occurred.
He certainly expected leaks in the
piped job. There was no departure
from the specification. A small amount
of clay placed in the concrete was
used to make the pipe denser, to make
up for clay which was absent from
the gravel, which was brought from
the Bay Shore.

Commissioner Jones was aware of
the condition that existed. The in-
spectors, he said, must maintain the
pipe for three years after it was han-
dled out of the city.

The engineer said that the people
need not worry that they were not
getting a first class job. He said that
the suspected pipe was all within a
200-foot stretch and every care was
taken to make sure that no trouble
would develop in that section.

The Elevator

Commissioner Thornton read a joint
report from the city engineer and city
inspector on the matter of a pro-
posed elevator for City Hall. The re-
port of the City Engineer Co., but the
report of the former's plan to a
higher price would reduce the
difference to \$1,500.

On motion of Commissioner Thor-
nton it was decided to call for bids
from both companies when it was stat-
ed that the work was required and
the final layout of the plan.

The Ferry Approach.

Commissioner Bullock reported that
he had taken up further the negotia-
tions with Senator Thorne in con-
nection with the use of the property
while driving operations were car-
ried on the east side of the river. He
said that J. Roy Campbell, acting city
engineer, had written Mr. Thorne, ask-
ing him (1) to name a price for the
purchase of the property required by the
city; (2) to state on what terms he
would rent it to the city; and (3) if
he would allow the city to occupy the
property while repairs were being
made and what charge, if any, he
would make for such use.

The commissioner said that the fe-
rries superintendent had been seen
Thorne, who told him that he did not
wish to stop the city work, but that
the city should pay for the prop-
erty occupied. He said that he was
in favor of expropriation, but was of
the opinion that this had been drop-
ped by council.

In reply to the acting solicitor's let-
ter, the senator said that he would
name a price for the purchase of the
property when the city could state what
it required; the same thing, he under-
stood that \$1,000 had been men-
tioned previously. Regarding the
use of his property for the purpose of
effecting repairs, he said that if the
city purchased or leased the strip re-
quired for the ferry wharf, he would
allow the use of his property without
remuneration, provided his tenants
were not put to any inconvenience.

Mr. Bullock moved that he be au-
thorized to negotiate further for the pur-
chase of the property, but, on the sug-
gestion of Commissioner Frink, he
agreed to amend the motion for the
use of the property, and the motion
carried.

Jans Again Ask China
To Consider Shantung

If She Refuses Correspond-
ence Will be Published.

Tokio, Oct. 20.—The Japanese For-
eign Office today communicated in-
structions to Yuki Okada, Japanese
Minister in Peking, to invite the Chi-
nese Government to reconsider its re-
jection of Japan's recent proposals
relative to the return of Shantung to
Chinese control.

The note to Minister Okada, accord-
ing to a reliable source, points to
China's reply as "open to criticism
on the basis of international etiquette
and of ignoring treaty rights."

Okada China thereafter, persist in
its present course it is believed in
authoritative quarters that Japan will
publish all of the correspondence re-
lative to the controversy for the pur-
pose of appealing to the judgment of
the Powers.

Comforts For The
Hospital Patients

**Business Transacted at Wom-
en's Hospital Aid Meeting**
Yesterday.

COMFORTS FOR
Comforts for patients at the Gen-
eral Public Hospital were voted at the
regular meeting of the Women's Hos-
pital Aid held yesterday afternoon in
the Board of Trade rooms. Mrs. J.
Boyle Travers presided.

Financial Report.

Mrs. R. Duncan Smith, treasurer,
reported the funds as follows:
Receipts \$3,669.62
Expenditures 488.62
Balance 3,261.00

There is \$1,000 put aside for an em-
ergency fund. In the flower fund
there is \$718.

House Committee

The House Committee was asked
to look into the matter of hot plates
for the Hospital. Mrs. Skelton having
shown the need for these.

For the Visiting Committee, Mrs. E.
A. Young convener for the month,
gave a very interesting report telling
of a happy and profitable time at the
annual meeting of the committee.

Magazines were supplied by St.
George's and St. Jude's and the
Church of the Good Shepherd, the
Jewish ladies and friends under the
convener'ship of Mrs. Ralph Smith.
Follow-up cases were looked after by
the Anglicans, Roman Catholics and
Presbyterians.

The bath-rooms made by "a bunch
of women" as a patient stated, are
greatly appreciated. Patients speak
highly of treatment received. Signs
of improvement and enlargement due
to the use of the new Nurses' Home,
are seen at the institution.

Donations.

Mrs. Young recommended the fol-
lowing donations: 88 feeding bottles for
the children's ward. Donations sent
weekly to the epidemic. Hollow E'en
decorations and a treat for treat-day.
Stationary for free patients. More
bath-rooms for the hospital.

Mrs. Young was heartily thanked for her splendid
report and for the faithful way in
which she had visited the Hospital.

It was decided, on motion, to pur-
chase three dozen bottles for the chil-
dren's ward.

Hollow E'en decorations will be
sent for the wards and grapes and ap-
ples supplied for Thanksgiving. Mrs.
Mowry, will look after Hollow E'en.
Mrs. Mowry, offered to donate apples
for Thanksgiving. Mrs. Mowry and
Mrs. Morris are a committee for
Thanksgiving Day.

Reports Received.

Mrs. Doody for the Roman Catholics
reported four annual members.
The matter of appointing a Relief
Committee was left until the next
meeting. A small amount of station-
ery and stamps will be left with Mr.
Gale who has offered to take care of it.

Mrs. Morris read a report of the
House Committee telling of the care
taken at the Hospital to save lives.
The three dozen slippers were most
graciously received. A number of bath
robes are needed. The linen is plen-
tiful.

It was stated that thirty bath robes
are being supplied. Reports were
given on robes by Mrs. Mowry, Mrs.
Ralph Robinson for the Maga-
zine Committee, Church of the Good
Shepherd, the Jewish ladies, Mrs.
Doody and Mrs. F. E. Williams, are
due after this week. Thanks are
due C. C. for their magazines.

Motions of sympathy were moved
for Mrs. Green, Miss Tilton and Miss
Ratallack for recent bereavements.

It was pointed out that as the pi-
ety of a Hospital is obsolete and that
after had been received for it, there
is now no music or amusement for
nurses after a long day's work. On
motion it was decided to purchase a
gramophone at a stated price, Mrs. A.
Skelton, having offered to donate it.
Mrs. J. H. Doody being
appointed a committee to take
charge of arrangements.

Skeleton Found
As Prophesied
By Clairvoyant

London, Oct. 20.—The finding of a
skeleton of a woman beside that of
what is believed to be an 11-year old
child at Craig's Lodge, near the village
of St. Lawrence in the Isle of Wight,
resulted from the aid of a person de-
scribed as an amateur clairvoyant,
and on further instructions the body
was found being dug up in hopes of
finding a clue to the murder.

A few days ago the gardener dis-
covered the bones of a child very near
the surface, and the incident was re-
ported to Mrs. Hugh Pollock, a
friend of Mrs. Capell, the lessee of
Craig's Lodge.

Both Mrs. Capell and Mrs. Pollock
says the latter said she believed an
other skeleton was near and indicated
the spot. True to her prophecy, the
bones of a woman, with stones piled on
top, were found.

Doctors say the bones are about 20
years old, and the police are searching
for evidence of persons reported mis-
sing on the Isle of Wight about that
time. There is absolutely nothing with
the bones that gives any clue as to
whom the victims have been.

New York School
For Detectives

New York, Oct. 19.—Department of
Justice agents are going to school to
read books and learn how to be de-
tectives.

The curriculum of the school, just
started by the Bureau of Investigation,
includes study of such technicalities
as the laws of search and arrest, rud-
iments of evidence, rights of citizens
and preparation of cases for prosecu-
tion.

Wm. J. Burns, chief of the bureau,
explained that establishment of the
school was the first step to do away
with hit-or-miss methods.

"We are going to teach our men to
get results," he said. "Shipboard in-
vestigation, making discoveries only by
chance, is going to stop. And men who
cannot be taught to be effective will
be dropped."

"Federal investigators are going to
learn right away that they are not
flash their shields for their own
emusement; and they are going to
learn that the real object of this bu-
reau is to protect citizens and to
prevent crime, not just to arrest
crooks. We are not going to set the
world afire, but we are going to give
this country a detective service of
which its citizens can be as proud as
the English are of Scotland Yard."

Edward J. Brennan, division superin-
tendent of the bureau, asserted that,
to permit department officials to get a
line on their men, a recruit would put
in a month of study before being
placed on active duty.

Otherwise he would be helpless
when he started out," he continued.
"If without training he were sent out
to investigate a bank robbery, he
would not even know how to begin.
He would not know how to proceed
with a search without getting into
legal difficulties. He would not know
where the state and federal jurisdic-
tions overlapped."

"That last is one of the most com-
plicated points of all. For example, a
robbery on Park Row is a matter for
the state authorities, but a robbery 20
feet away in the post office is up to
national bank is a state offence, but if
there is collusion between the actual
thief and one of the bank employees
the Department of Justice takes up
the case."

"Our men have to be ready for any
kind of investigation. One day they
work in overalls on the docks, the next
in a white collar in a bank. And the
work is so complicated that mere ex-
perience is not enough, though it will
always be the biggest factor. The man
on the street cannot make a bigger
mistake than to say that there is no-
thing in a detective's trade that can
be learned out of books."
