On Friday, Sept. 1st, John B. McKellar of lot 21 in the second range north, Ekfrid, had the misfortune to fall off a haystack onto a fork, one of the tines of which penetrated his knee, and his ankle was severely sprained as well. As a result of the accident Mr. McKellar has been confined to his bed ever since, but is recovering, though slowly.

Lana, the little daughter of Mr. and Mrs. T. C. Rycraft, Glencoe, who was taken ill with infantile paralysis the first of August, is making good progress towards recovery and but little after-effects are anticipated. At St. Peter's Cathedral, London, on August 30, Miss Angelina Cortese was married to Joseph Bullette, of Glencoe, Rev. Father McKeon officiating. The bride was attended by her niece, Miss Catharine Briglia. The groom was assisted by Angelo Russo. The wedding march was played by brothers of the bride, under the direction of Cortese. Mr. and Mrs. Bullette have taken up their residence in the Clachan building on Main street.

Glencoe council are figuring on purchasing the lot immediately west of the skating rink and excavating a large pond thereon as a reservoir to connect with and feed the fire tanks in the business section on Main street. The pond would be kept supplied with water pumped by the Fletcher Manufacturing Company from their deep well. Glencoe has always been handicapped more or less in fighting a big fire by a scarcity of water, and the scheme has much to recommend it. Better protection would be assured for at least two of the leading industries and the unisolated business premises in which a fire is most likely to spread.

Glencoe council has appointed A. S. Code township engineer.

HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble Since Taking "FRUIT-A-TIVES"

HATTIE WARREN

Port Robinson, Ont., July 8th, 1915.

"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine."

Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

As an evidence of the poor turnout of crops in the locality of Crinan this season, one thresher cleaned out the crops of five farms in one day, and placed his machine in another barn the same day. The total grain threshed for the day was 453 bushels, which was less than one half of the quantity threshed on one of the farms last season.

In a recent interview Mme. A. de Thebes, French clairvoyant and astrologer, said:—"I have predicted that the war will end this year, and I desire to say now, despite all circumstances and arguments to the contrary, that peace will be declared before the new year. And peace will come suddenly and unexpectedly. The roar of the guns will cease over night, and the soldiers on both fronts will be called home to peaceful pursuits. Fate has so decreed it."

FIGHTING NEAR GINCHY

British Troops Have Been in Hand-to-Hand Conflict.

Enemy Attempts a Bombardment, but His Guns Are Quickly Silenced—British Have Consolidated Positions Captured on Saturday and Sunday—Allied Forces Are Shelling Combes From Three Sides.

LONDON, Sept. 12.—The British engaged in fierce hand-to-hand fighting about Ginchy on the northern bank of the Somme, when the German counter-attacks them, according to the despatches from Sir Douglas Haig last night. Four officers and 191 men were taken prisoner by the British in repulsing these attacks. The total number of prisoners taken since the last report was made exceeds 200.

North the bluff the British trenches were threatened with a bombardment by German trench mortars, but the British artillery and trench mortars were trained on the enemy and speedily silenced his guns.

Excepting for the continuous bombardment of heavy guns, yesterday passed without incident south of the Ancre, the Germans dropping their counter-attacks, and the British troops completed the consolidation of the positions which they captured Saturday and Sunday.

Combes is now under fire from three sides, by the British from the north-west and west, and by the French from the south-west. Its fall is now believed to be a matter of a few days.

Winding up a week of incessant hammering of the German lines in the initial phases of which, last Sunday, part of Ginchy and the whole of Guillemont were taken by storm, the British Saturday attacked on a front of 6,000 yards, between High Wood and Leuze Wood. As a result, they completed the capture of Ginchy and took all of the ground between the village and Leuze Wood. Furthermore, they pushed their lines forward 300 yards on a front of 500 yards east of High Wood.

Simultaneously successfully crushing in the northern tip of the salient formed by the Somme drive, the British gained an additional 600 yards to the north-east of Pozieres. The headquarters statement issued Sunday night tells of heavy casualties suffered by the Germans, particularly while musing for a counter-attack during the British action near Pozieres, the Germans being caught by the British artillery fire.

The French forces on the Somme contented themselves with minor actions Sunday. They captured some German trenches east of Belleu-Santerre, south-west of Barleux, taking 50 prisoners, and earlier in the day took a small wood east of this village, and made further progress east of Denicourt. Including Sunday's captures, the French have taken more than 8,000 prisoners since last Sunday.

At every vital point of the Somme battle line the Germans Sunday launched counter-attacks of frantic bitterness. Everywhere their attempts to regain the ground lost since the resumption of the Allies' big push a week ago Sunday broke down with severe losses, according to the French and British official reports. They were unable to wrest from the Entente troops an inch of the lost terrain.

Only at one point between Belleu-Santerre and Barleux, did the Germans make as much as a temporary gain. They were immediately driven out of the trench in which they had won a foothold, by a vigorous French counter-attack. The short-lived success was scored, according to the French communiqué, with the aid of jets of liquid fire.

The British have taken 250 prisoners during the last 24 hours. They repulsed a violent counter-attack north-east of Pozieres and another north of Ginchy. In reviewing the week's advance, the afternoon statement issued at headquarters said the British since last Sunday have pushed their front forward 6,000 yards to a depth varying between 300 and 2,000 yards. The important points netted by the seven days' advance are the Falfemont farm, Leuze Wood, and the villages of Guillemont and Ginchy.

Mr. P. Gibbs, telegraphing to The London Daily Telegraph, states that of the German garrison of 2,000 at Guillemont hardly one escaped. All were dead, wounded, or prisoners. Two battalions were wiped out.

One British sergeant, hit in the hip by a shell, captured four without help, and ordered them to carry him on a stretcher to the dressing station. He arrived smoking a cigarette, with his prisoners as stretcher-bearers.

GREEK MAKING BARGAIN?

Important Conference Under Way With Entente Allies.

LONDON, Sept. 12.—Great importance attached in despatches of Saturday to Reuter and the Exchange Telegraph Company to the conference at Athens between the Entente Ministers and Premier Zaimis.

The Greek Premier seemingly made no definite statement regarding the Greek Government's intentions, but sounded the diplomatic representatives regarding the feelings of their Governments in the event of Greece's departure from neutrality. The Ministers replied that they welcomed proposals from the Greek Government, which they would submit to their own Governments.

Premier Zaimis had a lengthy interview with King Constantine on Saturday, and it is supposed that the sittings have been adjourned pending telegraphic advices from the Entente capitals.

A large detachment of Greek marines, the despatches say, has been brought to Athens to help the police maintain order.
