Apportionment to each Grammar School.

9. The sums of money apportioned out of the Grammar School Fund [and "sums provided from local sources," page 28] * * * shall be distributed amongst the several Grammar Schools * * * within the restrictions imposed by this Act, [and the Grammar School Improvement Act,] and under such rules and regulations as may from time to time be made by the Council of Public Instruction for Upper Canada, and approved by the Governor in Council.‡

* This seventh section of the Act reduces the system of apportioning the Grammar School Fund to a simple and equitable principle of aiding each school according to its work. The application of this principle to the Common Schools in the rural sections has given them a much greater impulse forward than the old mode of apportionment on the basis of school population, or length of time during which they might be kept open, whether the work was done or not. It has also induced the trustees to keep the school open one or two months longer in the year than formerly. By the law of 1807, and subsequently, the number of classical pupils was fixed at twenty, and afterwards at ten. In our regulations we take the latter number as the minimum. See Grammar School regulations on pages 32-48.
