

## UNB's Favourite Band, *The Fleas*, Singer Undergoing Sex Change

A shock in the entertainment world has occurred! The lead singer of *the Fleas*, Flake Robots is said to be having a sex change!

"Not true" states guitarist Spruce Nelson. "Flake was just fooling around, and some idiot thinks he's gone crazy, and wants to become a woman."

Bufflo Bill Coady, the drummer of *the Fleas*, when asked about the said operation had no comment. Which may lead us to think that there is something happening with Flake.

The road crew for the band (who asked to be left unnamed) were in conflict of what was really happening. John\* stated "I've known Flake for years and I don't think he'd ruin his career over something this stupid." But Boy\* said "there's been some really strange things happening with all the guys lately."

The answer to the real question of the sex change may never be known.

\*Not his real name

The Fleas  
Spruce Nelson, Bufflo Bill Coady and Flake Robots

## WOMAN REUNITED WITH TWINS RESEMBLING FROGS WITH BEAKS JUST AS HER THIRTEENTH EAR FELL OFF

'Crikey!' That's the word from Doris Knobbit in St. John today as she was reunited with her twins, both resembling frogs with a complete set of gills and along beak for eating doughnuts. 'Yes, it's a pity they're both joined at the head and scrotum', said sex-change Doris just as one of her remaining thirteen ears fell off as a result of a bizarre and incurable disease.

Doris is not a stranger to the unusual. Adopted by subterranean mole-creatures at the age of thirty-nine, Mrs. Knobbit was soon to develop a talent for eating sharp metallic objects without any apparent discomfort. After a disappointing relationship with a bowl of petunias, Doris

was soon to discover the joys of artificial discombobriation which she learned to appreciate at the hands of Bob 'the Limpet-sniffer' Pertussis, a gypsy pedlar and sometime astrologist to prominent US Senators.

'All I can say is that they'll be loved', said Doris of the bizarre tangle of snouts and appendages which she has brought into the world. 'We've already given them names - Victor is the one with the forehead that always reminds me of blue cheese', Doris continued with a chuckle, 'and Micheal, as you can see, has rather too many arm-pits than might be expected on something that looks like a piece of fungus.'

## Rebel Without a Clue

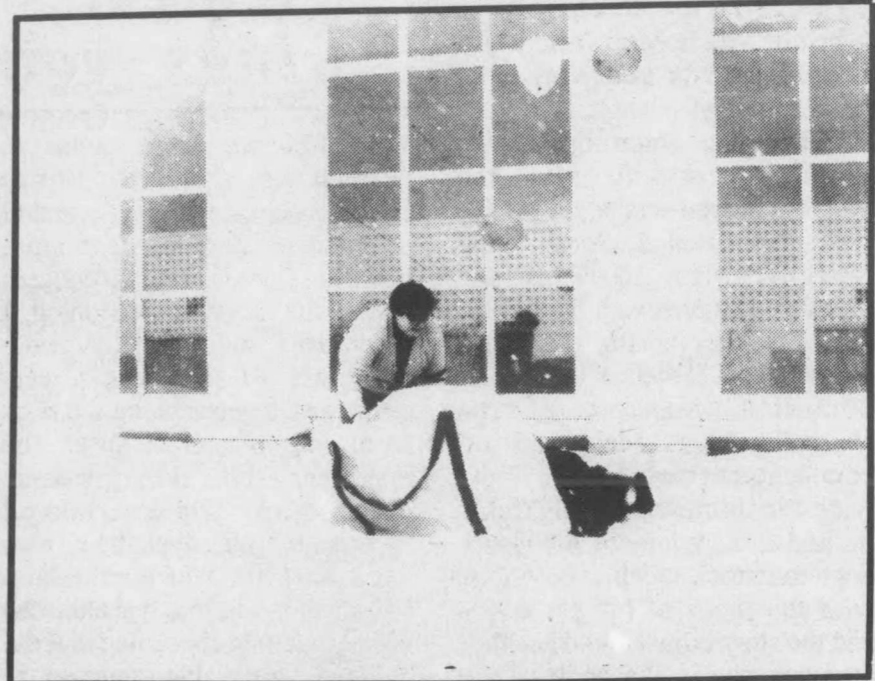

Confessions of a Woman With a Thing for Rubber

By Jamaica Joe

UNB's balloon thief has finally been caught in the act. Arts student Jackie "Mad Jack" Hoffman, was caught outside the Student Union Building releasing 99 balloons that had been missing from UNB's Charity ball.

When asked why she did it Hoffman replied "I was making a statement ... the world's rubber tree population is quickly being depleted by balloon and condom makers alike. By setting the balloons free, I was symbolizing the release of their souls."

"Mad Jack," as Hoffman is known in the "entertainment business," was apprehended by Campus Police Chief Blonda Chicky while she was off duty. Says Chicky, "I was in the process of disposing confiscated alcohol while riding my bicycle when I ran into her! Once I stood up I realized that I had broken the

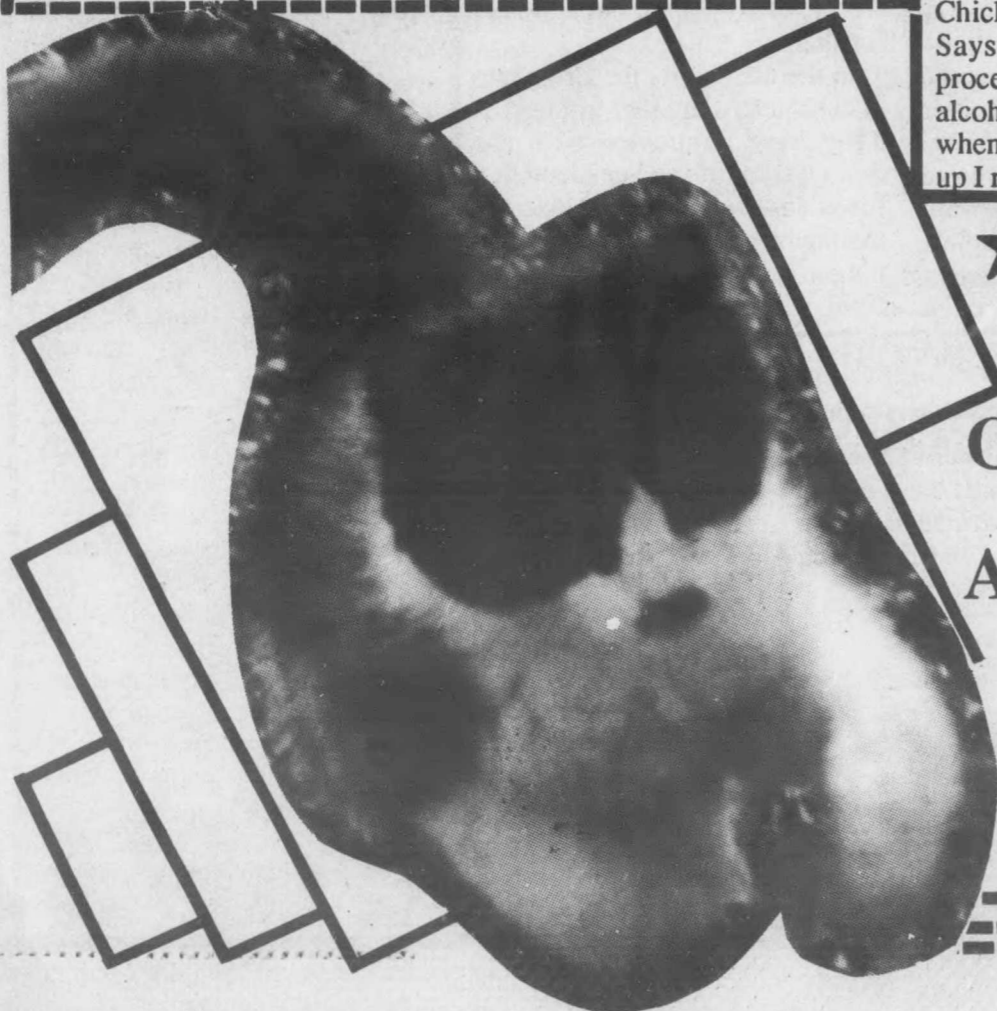

The Prepetrator in Action

fourty of Wild Turkey.... I was so pissed off I arrested her on the spot."

While thinking of charges to fabricate, Chicky stumbled upon a recently invoked University by-law that prohibited offspring of

60's legends from releasing balloons on University property. Said Chicky, "What luck!"

Mad Jack is currently serving two to five years as Bar Services secretary. (Ed - No offence Ellen)

## War Criminal Arrested

-Fredericton N. B. On April 1st, 1989 several RCMP, in connection with campus police, have apprehended the Notorious pet of War Criminal, Joey Mengelly.

This horrendous felon, aptly named Hitler Kitty, was believed responsible for the deaths of over millions of dogs in unspeakable experiments and side-dishes. Hitler Kitty had disappeared at the last end of the war when allied troops were occupying berlin. Several Nazi-hunters have searched the world over, but could

not find any trace of Hitler Kitty until now, and believed him to have perished during the last days of the war in Europe. Not until last year, did his presence become known, when he foolishly tried to run for UNB student Council President and won. Since then a special crack-team has had Hitler Kitty under surveillance until sufficient proof had been collected and the arrest was made. Arrangements are being made to transfer Hitler Kitty into Interpol custody next week. Arrangements for a trial are still not known.
