February 28, 1931.

W. H. Williams, Esq.,
363 Hargrave Street,
Winnipeg, Man.

Dear Mr. Williams:

It is always a happy reminder to me to get a letter from you, no matter what the subject. It lets me know at least that you are in the land of the living. This one especially assures me that you are as good as ever.

I happened to be in Ottawa last Tuesday, and this matter was under discussion the same day. It was more or less accidental that I had a talk with Mr. Bennett. Certainly I have no special influence there, or I think any influence at all,-- at least I never tried to exert any. I do feel though, and have good reason for what I say, that the Government is well disposed toward the suggestion in the second last paragraph of your letter, namely, to consider the claims of dealers in respect of cars they had on order at the time the change took effect.

I think you should take your case up with either Mr. Rogers or Mr. Kennedy. Whichever one you prefer would be all right, though it is possible Mr. Kennedy might be in a better position to push the matter. If you would see him and arrange that other dealers act concertedly with you, I feel confident you would get results along the lines indicated above.

Yours very truly,

AM/E.

Arthur Meighen.
