

Fine Sapphire Jewellery

In 14-kt. Gold Settings

THE Sapphire—birthstone for September—is one of the most popular of all coloured stones and, therefore, makes a most acceptable gift, especially when mounted with pearls—with which it combines so effectively.

This page shows some of our newest designs in sapphire-set jewellery and the prices will be considered exceedingly moderate by all who appreciate quality.

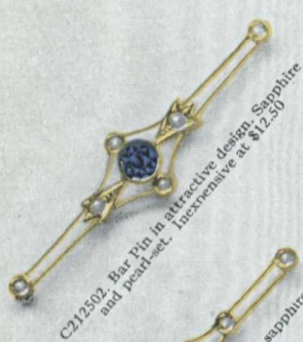

C212513 Necklace is a particularly handsome piece. Another good selection—and somewhat lower priced—is No. C212522.
