

# NO ALUM Styles that Please the Home Dressmaker

## THIS WASHER MUST PAY FOR ITSELF.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse, so, I didn't know anything about horses much. And he didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right," but I gave him my money if the horse isn't all right. Well, I didn't like that. I was afraid the horse was "all right" and that I might have to write him my money if I once parted with it. So I didn't buy the horse, although I wanted it badly. Now, this set me thinking.

You see I make Washing Machines—the "100 Gravity" Washer. And I said to myself, lots of people may think about my Washing Machine as I thought about the horse, and about the man who owned it. But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way. So, thought I, it is only fair enough to let people try my Washing Machine for a month, before they pay for them just as I wanted to try the horse.

Now I know what our "100 Gravity" Washer will do! I know it will wash the clothes, without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine. I know it will wash a tub full of very dirty clothes in five minutes. I know no other machine ever invented can do that, without wearing the clothes. Our "100 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it doesn't wear the clothes, fry the color, nor break buttons, the way all other machines do.

If just drives soap water clear through the pores of the clothes like a force pump might. So, said I to myself, I will do with my "100 Gravity" Washer what I will do with my "100 Gravity" Washer. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freightage. Surely that is fair enough, isn't it?

Don't it prove that the "100 Gravity" Washer must be all that I say it is? And you can pay for it out of what it saves for you! It will save you whole cents in a few months in water and coal or gas on the clothes alone. And then I will save you 75 cents a week over that in washwoman's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 60 cents a week, send me 50 cents and I'll send you the machine. If it doesn't, send me 50 cents and I'll take that cheerfully, and I'll wait for my money until the machine has served me the best.

Drop me a line today, and let me send you a book about the "100 Gravity" Washer. That machine clothes is as good as new.

When sending Farm and Dairy your order please be careful to state just what measure you wish, age for children and the number of pattern desired. Price of all patterns is Our Folks, for each Address all orders to Pattern Dept., Farm and Dairy, Peterboro, Ont.

1107-Lady's House Dress—This house dress is novel and practical. Notice the way it is fastened, one front closing over the other and a strap at the back where it fastens as well as forming the belt. This style of dress would be splendid for slipping on in the morning when one is in a hurry. Cut in six sizes: 22 to 44 inches bust measure.

1101-Girl's Dress—This little dress is quite smart with its long blouse effect, and finished with a belt which may be either fashioned from the same material as the dress or some contrasting goods, or perhaps a leather belt. Buttons and stitching form the trimming for this frock. Cut in four sizes: 4, 6, 8 and 10 years.

1100-Lady's Slip—Combination Corset Cover in Basque Style and Skirt with Ruffle! The old-time basque effects in gowns are coming into favor again this season, and when wearing such a gown it is well to have the under garment fashioned somewhat similar in order to have a perfect fitting costume. Herewith we show a style especially suited for such gowns. Cut in six sizes: 34 to 44 inches bust measure. It requires 4½ yards of 36-inch material for a 36-inch size.

1089-Boy's Blouse Suit with Straight Trousers—The Russian blouse style never seems to lose favor among our home dressmakers, and in this style we show one of the leading favorites. The pockets below the belt make a unique trimming,

and will also be found very handy, for what boy does not like pockets in his clothes? The trousers in this style are straight, but if one preferred the bloomers could be worn with the blouse to equally good advantage. Cut in four sizes: 2, 4, 6 and 8 years.

1091-1096-Lady's Costume—This dress has a style all its own, and there is always room for a new model such as this one. Note the yoke effect as seen in the small illustration of the back. The yoke and sleeves are cut in one and make a very neat and comfortable dress. The lace quince shown always gives a chic finish to the dress intended for fall and winter wear, although if one preferred the high rolling collar as shown in the small illustration it could be used without the quince. This style requires two patterns, one for each. The waist is cut in sizes from 34 to 44 inches bust measure, and the skirt from 22 to 32 inches waist measure.

1092-Lady's Kimono—As the cold weather approaches a warm kimono is an almost indispensable article in the wardrobe. It is especially convenient to slip on when one wishes to rest in their room, and is also very essential in the sick room. This style is very pleasing, and may be fashioned from any of the popular kimono materials such as crepe, flowered flannelette or eiderdown. Cut in three sizes: small, medium and large.

1083-Girl's Dress in Tunic Style—For the young girl this style of dress made from goods of contrasting material will be very attractive. If desired the skirt body and vest might be made from plain goods, say blue or green, and the tunic and blouse portion of a contrasting material. Four sizes: 8, 10, 12 and 14 years.
