

Don't Wear A Truss

After Thirty Years' Experience I Have Produced an Appliance for Men, Women or Children That Cures Rupture.

I Send It On Trial

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Send attached coupon to-day and I will send you free my illustrated book on Rupture and its cure, showing my Appliance and giving you prices and names of many people who have tried it and were cured. It is instant relief when all others fail. Remember, I use no salves, no harness, no lies. I send on trial to prove what I say is true. You are the judge, and once having seen my illustrated book and read it you will be as enthusiastic as my hundreds of patients, whose letters you can also read. Fill out free coupon below and mail to-day. It's well worth your time, whether you try my Appliance or not.

QUESTIONS AND ANSWERS. Veterinary.

SWOLLEN LEG.

Driving mare has a swelling on inside of hind leg, just above the fetlock. It is sore to pressure, but she is not lame. M.M.

Ans.—Bathe well frequently with hot water. After bathing, rub well with the following liniment: 2 ounces laudanum, 2 ounces chloroform, 2 ounces tincture of arnica, and 4 ounces water. After applying the liniment, put a woolen bandage on. Keep this treatment up until the soreness disappears. Then, if an enlargement remains, apply a blister. V.

Miscellaneous.

SPLINTS.

I have a valuable mare, four years old, which has a splint on each fore leg, on the outside, the size of a marble, halfway between the knee and fetlock. Kindly state cause and prescribe remedy. CONSTANT SUBSCRIBER.

Ans.—The splint bones on the cannon often terminate at their lower ends in little knobs, which are apt to be mistaken for splints. Bony deposits thrown out between the cannon bone and a splint bone constitute splints. The knobs are normal, the splint is abnormal. Splints are usually caused by concussion or over-straining. In many cases they disappear by absorption, which may be hastened by blistering, or the application of one of the advertised specifics for absorption of such growths. If there is no lameness, it is well to leave it alone; if lame, give rest, reduce the inflammation with cold-water bathing, and thoroughly rub the parts, firmly, but gently, with an oiled, leather-covered piece of wood, once daily, 15 minutes each time.

GOSSIP.

Wm. Barnett & Sons, of Living Springs, Ont., Fergus Station, write: We are having a very successful season, best yet, which shows the value customers place on our Oxford Down sheep. Customers write, saying that the sheep have arrived, and most say "they are very satisfactory, and well crated." We still have a number of choice two-shear and shearing rams, which will make splendid flock-headers, also a number of ewes of different ages. See ad. on another page.

TRADE TOPIC.

Beatty Brothers, of Fergus, Canada, (B. T. for short) manufacturers of hay tools and stable fittings, issue a hanger on which is pictured in detail almost everything they make in the way of hay forks, slings and tracks, litter and feed carriers, cattle stanchions, etc. It can be had for the asking.

IT PAYS

To make your stock comfortable. Any progressive dairyman will tell you that

U-BAR STANCHIONS and ACORN COW BOWLS

will earn their cost many times over by increasing the profits from your herd. **U-BAR STANCHIONS** are strong, safe and easy to operate. There is no better stanchion made. **ACORN COW BOWLS** are the only perfect automatic watering device. They require no float tank, and the piping may be either above or below the stall. The bowls may be placed wherever convenient. Cows immediately learn to press the disc and drink whenever they wish. Write at once for our Free Illustrated Booklet.
