

**FROST & WOOD  
No. 8 MOWER**

**A Strong, Stay-Tight Connection Where  
Other Mowers are Weak**

Seventy years' experience, plus a disposition to use the very best materials when it might seem more profitable to cheapen things, is why Frost & Wood Implements excel from the "Quality" standpoint.

Take, for instance, the connection between the Cutter Bar and Main Frame of a Mower. Others use Small Pins, that wear quickly, thereby allowing connection to work loose, and eventually "bang" the machine into a blacksmith shop. We use "large" Bearings for our "stay-tight" connection (see illustration). They

fit accurately and there is no opportunity for wear, because Cutter Bar has no chance to work loose from Main Frame. No time lost on the field—no bills to foot.

Another example of Frost & Wood "Quality" is the Fitman Connection of Forged Steel and "the Ball and Socket Joint"—strongest, firmest connection on the market.

Roller Bearings, with heavy boxes to maintain them in perfect position, make the No. 8 run easier than others. Every connection is neat and accurate. The "Internal Gear" cuts out the necessity of a "flying start"—knives commence cutting with first forward step of horses.

The No. 8 Mower is built in both Standard and Vertical Lift Styles.

**As handsome as the best iron fence  
at less than the cost of cheap wood**

Here's a neat, strong, durable fence that will add to the appearance of the handsomest city lawn and is cheap enough, close enough and strong enough for the farm. The

**Peerless Lawn Fence**

is made of heavy No. 9 steel spring wire, so it can never sag. It is carefully galvanized and coated with white enamel paint. No investment you can make will add so much to the appearance of your property.

Also a full line of poultry and farm fences and gates. Write for particulars.

**FREE SAMPLE CULVERT To FARMERS**

Say you are interested, and we will gladly send you Free and postpaid a sample of the only Practical culvert and a handsomely illustrated book telling all about it. For drainage, road-repair, and a score of farm-uses there is no culvert so economical as this. Made of heavy Billet Iron; curved cold into half-sections. Then deeply corrugated—makes it five times stronger than smooth-surfaced pipe. Heavily galvanized to make it proof against rust, dampness, decay, corrosion, Will outlast any other material.

LEARN ALL ABOUT  
THE MOST PRACTICAL  
and DURABLE CULVERT

**PEDLAR NESTABLE GALVANIZED CULVERT**

These pictures show how easily and quickly you can lay Pedlar Culvert. Comes nested, half-section within half-section—saving freight and cartage. Triple-thick Flat flange locking ribs on each side are clamped together by a simple tool—no bolts nor rivets needed. Joints are broken—only culvert you can do that with. Ends interlap. Will stand tremendous strains. Won't leak, nor buckle, nor crack from frost. Cheaper than wooden culverts.

**An Investment—Not An Expense**

Investigate first. Send for the free sample and book. Then recommend this culvert to your township officials—push the Good Roads Movement—this culvert keeps roads in better shape. Use it, too, for any drainage about your farm—there's a size for every purpose. Railways use and approve it—and you know what careful buyers railways are! Investigate.

Rust-Proof  
Won't Decay  
Easily Laid
