THE GRAIN GROWERS' GUIDE

(1361) 29

The Farmers' Market

WINNIPEG MARKET LETTER

(Office of The Grain Growers' Grain Company Limited, August 20, 1917)

About the only change in the wheat situation locally during last week was the gradual advance of most of the grades below 2 Northern. All the contract grades are now trading at the maximum price of \$2.40, and on Saturday the Board of Supervisors announced that for the balance of the month \$2.40 basis 1-Nor., will be the fixed price-for-old or new-crop wheat. There will be no trading in wheat futures in Canada or the United States after the end of this month. The premiums for cash wheat in American markets broke very sharply during the week, and prices there are now pretty nearly on a level with our prices.

Oats prices have declined steadily here and in American markets. Enormous crops of corn and oats are in sight in the United States, so that any shortage in Western Canada will not be felt in the export trade. Eastern Canada also has good crops of feed of all kinds.

There is very little doing in the barley markets at present. Offerings of old barley are very light and new crop has not begun to move.

The flax market has been quite active, but there is only a small volume of trade. Prices fluctuate considerably on account of the narrow nature of the market.

WINNIPEG FUTURES			No. 2 Northern wheat, 1, \$2.35; 1, \$2.40;
	Oct.	Dec.	No. 3 Northern spring, part car, \$2.30; part car, \$2.20; 1, \$2.25; 1, \$2.40; 1, \$2.40; part car, \$2.25;
