

Paying for a Reputation.

"Why pay for the reputation that any article has?" say some purchasers.

Because the reputation that his trade-mark has is the most valuable asset of many a manufacturer. He can't afford to risk that reputation by selling you inferior goods. That's why we handle the Kodak line in our photographic department. The Kodak company cannot afford to put out an inferior article.

We sell Kodak Film exclusively because it is properly ortho-chromatic—because it is the dependable film. Greatest speed, greatest certainty of good results.

We have the size to fit your camera.

Forty steers, average weight 1372 lbs. fed by John Biggar of Dorchester, and shipped by B. E. Hicks of Centralia, were sold by Corbett, Hall, & Coughlin for \$12.60 per cwt., which is a new high record for straight loads of cattle.

Warning to Automobilists

The Travelers' Insurance Co. has issued broadcast a printed "Warning to Automobilists," which says in brief: "Don't run your engine in the garage with the door and windows closed. It is death to do this."

Exhaust gases from gasoline engines contain carbon-monoxide in dangerous quantity.

One-fifth of one per cent, carbon-monoxide in the air will produce fatal results.

Not one person in a hundred knows the danger.

Spread this warning for the saving of human life.

The Potato Situation

To the man who wishes to buy potatoes the present outlook is not encouraging. In fact potatoes are scarcely to be had at all just now. This is not because there are none in the country, but because those who want and those who have, have reached a sort of deadlock. The price had been going up until one scarcely knows what it is. On Monday Toronto wholesale quotations were: New Brunswick potatoes, \$4.25 per bag; Ontario and Western, \$4.00 per bag. At many county points potatoes cannot be bought at the produce stores.

The Department of Agriculture recently reported that there were in the country something like two million bushels of potatoes more than what is ordinarily used for food and seed. If the report was correct there must have developed something of a deadlock between those who have the potatoes and the dealers—one set holding on for higher prices and the other afraid to buy for fear of a slump in prices. There seems, however to be an almost unlimited market in the U. S., which may be absorbing the Canadian surplus.
