for Canadian Inscribed Stock

Ever Placed on British Market

Loan is for £6,500,000 Wedding Takes Place in Gerat 98 1-2-- Excites Comment

LONDON, Eng., June 29.—The government loan, out tomorrow, differs from the market expectations. It will not be for ten million pounds, but for £6,500,000 3% per cent. inscribed stock at 98%, not 97 as the market conjectured. It will fall due from 1930 to 1950. It is the largest loan any colony ever placed on this market. The price of existing stock is 99, and the underwriting of such a large loan within half a point of the existing quotation is accepted evidence of Canada's high credit here, especially seeing all the business is done through a Canadian bank, namely the Bank of Montreal. Leading brokers comment on the fact that the market considers the price high and shows that Canada gets her money cheaply enough. She might have done even better had not premature and inaccurate press statements millions of the loan goes for redemp

tion of an old debt. LONDON, June 29.—Yesterday saw the last functions in connection with the Imperial press delegates here Hamar Greenwood, M. A very distinguished company, including dukes and lords as well as commoners, were present to greet the oversea delegates.

Magistrate's Decision in the Crocket Assault Case

Upset FREDERICTON, N. B., June 29-Judge Wilson, at the County Court this morning, delivered judgment in the appeal case of Hanson and Crocket. His Honor read a written judgment. After citing generally the evidence produced before Police Magistrate Marsh and commenting on the finding there rendered, he said that the magistrate was in error in the assumption

that an assault upon a member of parliament differed from an assault upon a private individual, that the laws drew no distinction. He upheld the decision that Crocket should be allowed his mileage from Ottawa and expenses, which amounted to \$55, but considered the sentence for assault, one month gaol, more severe than the case demanded. His judgment was that the finding of the police magistrate should be reversed and that Hanson be fined \$20 instead of one month gaol, at 244 Germain street. and \$55 costs. Each party is to pay its

After a trip of a few hours upon the harbor and bay, they were landed to the northeast of the town, where a large crowd had assembled to witness the turning of the first sod in connection with the drydock and shipbuilding industry, to the assistance of which the city is contributing a magnificent site, consisting of 100 acres on the water front and a large cash bonus. In a vory happy speech Mayor Matthews requested the minister to perform the ceremony. Before doing to the minister spoke of the rapid development of Port Arthur in the last few years, its beautiful location and of the fact that it and Fort William, being at the head of one of the greatest inland water systems in the world and the point of connection with the railways traversing the illimitable and fertile praires of the west, must still grow more rapidly in the future. He referred to the encourageme which the policy, recently adopted by the government of charging duty upon repairs made outside Canada to vessels engaged in Canadian coasting trade, would have upon the shipbuilding and ship-repairing industry of the great lakes, and spoke of the great pleasure t gave him to be present on this important occasion. AT PORTARTHUR A Ten-Weeks' Tour as a Feature of College Education

> Asquith and Strathcona Head Notable New **Educational Plan**

LONDON, June 29.-A scheme for the terchange of university students be the United Kingdom, rivalling in importance, but very different from that established under the will of the late Cecil Rhodes, is in process of formation with every prospect of success. The idea, which is supported by an influ-ential committee headed by the Right Hon. H. Asquith, prime minister of Great Britain, and Lord Strathcona, high commissioner of Canada, includes the United Kingdom, with the endorsement also of the presidents of the Am erican and Canadian universities, aims to provide opportunity to studen three countries to obtain some real to sight into the life, progress and customs of other nations with a minir work and at the least possible expense. In the first place the promoters sug-gest the provision of certain travelling scholarships, the selections for which should be along the lines or the Rhodes scholarships, the selected candidate in addition to his academic qualifications, to be what is popularly known as an "all around" man.

Twenty-eight of these scholarships are proposed, fourteen to be available dom, ten for America, and four for Canada, the Canadian and American students securing them to be given a ten weeks' tour in Great Britain under the guidance of a university man, the be given a similar tour of America and Canada, always during their respective
