The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.

Auld Acquaintance Not Forgotten

Prior to her return to Saskatchewan, after spending a few weeks here—the home of her childhood—Miss Ethel Mansell was honored by a party at the home of Mrs. George Derbyshire on Friday evening last. The guests wore something suggestive of pieces of music, and were contestants in guessing the titles. Other contests, and games, light refreshments, and music were features of the occasion, which terminated in a singsong that evidenced esteem and friendship for Miss Mansell, who despite western associations, is still an Athens girl at heart. Miss Mansell left on Tuesday for the West where she teaches school. The term opens this month, vacation there coming in the winter months.

Delos Spence Writes Home

Mrs. David Spence, Charleston, has received a letter from her son, Delos, who is now at the front. The letter is as follows:

Dear Mother—We have made another move and joined our battalion. We have not been in the trenches yet as the battalion was having a few days rest, but we will be there soon, I expect. It can't be very dangerous, as the battalion has only lost nine men since July. The weather here is fine since our arrival. I know nearly all the boys here, as they are mostly from the old 53rd reinforcement. We watched guns shelling airships this morning; that is we could see the shells explode in the air, but none came down—no airships, I mean. We are on Belgian soil now, I think, but am not sure. I have not got any mail since I left England, but expect it will soon arrive.

Love to all
