

## Pertis of Neglect

Digestive ailments are frequently neglected. People say "It's only a touch of indigestion—it will go away." What begins as simple discomfort is allowed to become a serious chronic ailment. Never neglect the treatment of digestive derangement. To relieve disorders of stomach, liver, kidneys and bowels, Beecham's Pills act promptly and usually overcome the difficulty. Take

# BEECHAM'S PILLS

### Mica in Canada.

In Canada mica occurs generally in the most productive areas are situated along the lower St. Lawrence below Quebec, north of the Ottawa near Mattawa, and in the township of Burgess in Leek county, Lanark, Lanark county, and Loughborough, Ontario, also in a few areas in British Columbia. The production of mica is valued at \$273,300.

10,000 Miles of Phone Lines in Sask. There are 53,483 miles of rural telephone lines now in operation or under construction in Saskatchewan. According to a statement made in the Assembly by the Minister of Telephones, the approximate cost of the lines is \$1,413,000. The total amount of lines issued by the local companies is \$12,121,650.

### Death of Olive Schreiner.

Olive Schreiner (Mrs. S. C. Cronwright-Schreiner), the novelist, is dead. Born in Bloemfontein, daughter of the late Rev. C. Schreiner, a missionary from London, she gained early fame by one of her first publications, "The Story of an African Farm."

## World Happenings Briefly Told

U. S. War Department will call for bids on 300 new airplanes, to cost \$6,000,000.

Motion picture films that glorify crime or make criminal careers fascinating will be banned in Pennsylvania.

Holland has recalled her minister from Belgrade, and has dismissed the Serbian Charge d'Affaires at The Hague.

Wireless telephone messages from England were plainly heard in Geneva, when William Marconi gave a demonstration.

J. K. Gordon, son of Rev. Dr. J. W. Gordon, of Halifax, has been named Rhodes scholar for 1921 from Manitoba.

Gold ingots, gifts to Westminster Abbey from King George and the late King Edward on the occasions of their coronation, will be sold for the benefit of the Abbey reconstruction fund.

Work has already begun on an air harbor at Peace River, Alta., in line with the announcement from Edmonton of the proposed inauguration of an air route to the Mackenzie oil fields.

Abraham Kittle, said to be the oldest member of the Masonic craft in the United States, died at his home in Detroit last week. He was 114 years old. He joined the craft in 1827 at York, Pa.

December 27 has been set as the date when arms, ammunition and explosives held by civilians in the areas under martial law in Ireland must be given up.

The despatch of mechanics to the Canadian Air Force to Camp Borden will be resumed at the end of this month, after having been suspended for a time by the strike of the Canadian Air Board.

It has been estimated that Norway, Finland and Sweden will import newspaper products worth about 75,000 tons less newspaper than will Canada in 1920.

With an aggregate capital of \$12,079,307, the Saskatchewan companies and during the fiscal year according to a return made in the Legislature. This is 122 more companies than the preceding year.

Attorney-General Raney has sent instructions to all high constables and provincial police in Ontario to take steps to put an end to the illegal carrying of deadly weapons. The attorney-general advises search of all suspected persons and prosecutions.

Canada's potato fodder crop for the year is estimated to be valued at \$1,134,000, which is a large increase over that of 1919. The potato crop amounted to 138,527,000 bushels or 1,000,000 in excess of the last year's yield.

The British Columbia Government early in the spring will put on the market part of its 22,000-acre irrigation district at Osoyoos in the Okanagan. Hon. J. B. Pattullo, minister of lands, has announced.

It is probable that more Alberta wheat than usual will be moved through Vancouver this winter. Ships are now on the way to Vancouver to load ten thousand tons of grain. The first train load of thirty cars was received in Vancouver last week and was being transferred to the government elevator.

The value of Canada's exports of automobiles and their parts for the year ending August, 1920, amounted to \$19,420,000 as compared with \$3,054,453 in 1915. The automobiles imported into Canada during the year ending August were valued at \$30,054,000.

## Continuous Wheat Growing

Growing Wheat in Britain on Same Land for 73 Years.

It has long been a tradition of farming that two white-straw crops should not be grown in succession, and the tradition still lives although it is generally known that there are numerous cases in which the practice has been a success. The classical proof that white-straw crops can follow one another without deterioration of the land is afforded by experiments at Rothamsted Experimental Station, where wheat has been grown continuously on the same land for 73 years, with only two seasons' break for fallow, and barley has been grown for 63 years with only one season's fallow. In similar experiments at Woburn, on a much lighter soil, forty-four crops of wheat have been taken off the same land without any break, and forty-four crops of barley off the barley plots. As a commercial proposition, wheat was grown almost continuously for 50 years on Mr. Prout's land at Sawbridgeworth. Other instances are also known, particularly on chalky boulder clay, where wheat has been grown for a succession of years on the same land, and it may be taken as proved that this practice is quite feasible.

## Too Many Books

Publisher Declares Authors Must Cut Down Output.

The yearly crop of books is much too large, and authors must cut down their output if they expect the literary market to continue in good health, Lowell Brentano, publisher and bookseller, said in New York at a luncheon to the Authors' League of America.

The number of new books at present appearing is so great that it is impossible to give them proper advertising, Mr. Brentano thinks.

The American Publishers' Association is to make an effort to remedy the situation, he explained, through a fund devoted to advertising which is to be raised by subscriptions from publishers, wholesalers and many of the retailers.

An advertising campaign which will cover three years has been planned. Mr. Brentano said that a census of the reading public had been taken by the publishers, and that it revealed that the average American family bought 600 newspapers in a year and but two books.

## Walnuts Good Substitute for Meat.

Scientists are agreed that walnuts are not only a substantial article of food, but that they are an excellent substitute for meat. They contain far less water than do potatoes, beefsteak or wheat flour, while the percentage of protein and fat is far in excess.

## Value of U.S. Crop

With Most Abundant Crop in History Value Has Greatly Decreased.

Shrinkage of values of the farm crops of the United States has placed their total worth this year at almost \$5,000,000,000 less than last year, although the 1920 harvest was one of the most abundant in history, with a dozen crops breaking records.

The important farm crops, which comprise about 90 per cent. of the value of all farm crops, were valued this year at \$9,148,519,000 by the U.S. Department of Agriculture in its fiscal estimates.

Last year these crops were valued at \$14,087,995,000.

## Farmers Elevator Co. Pays.

At the annual meeting of the Saskatchewan Co-operative Elevator Company held recently in Regina, it was stated the earnings for the year ending July 31st, 1920, were \$224,988. A cash dividend of eight per cent. for the year was declared and a balance of \$184,387 carried over into the reserve fund. The stockholders are principally farmers.

## New Use For Warships.

Obsolete warships are to be fitted up as floating laboratories for experiments which are about to be conducted by the British Ministry of Agriculture with a view to the extermination of foot-and-mouth disease. The experiments might be dangerous to life if conducted upon the land.

Probably the most valuable gift of all is the ability to dismiss things from one's mind.

## Minard's Liniment For Diphtheria.

The wise man never boasts of his knowledge, but the man who thinks he is wise does nothing else.

Things we don't do we regret most.

## The Land of Wheat

Dr. Butler Says Nine-Tenths of Crop Is Grown in Northwest.

Dr. R. Butler, professor of botany at the University of Manitoba, in an address at the Royal Canadian Institute, Toronto, on Canadian wheat, said that nine-tenths of the Canadian wheat crop was grown in the northwest, Saskatchewan, taking first in production, and Manitoba and Alberta following in this order. Stating that at present not one-tenth of the good wheat land in Canada was under cultivation Dr. Butler predicted that the time would come when Canada would produce more wheat than the United States and the United States would be looking to this country as the source of her supply of bread.

Tribute was paid by Dr. Butler to the discoverer of Marquis wheat, Dr. Saunders. Since 1909 the success of this wheat had been phenomenal, he said.

## ASTHMA CURED TO STAY CURED

Thousands testify to the lasting benefit secured from CATARRHOZONE

CURES WITHOUT DRUGS.

One of the finest discoveries in medicine was given to the public when "Catarrhozone" was placed on the market about fifteen years ago. Since then thousands have been cured of asthma and catarrh. An interesting case is reported from Creighton E. Thompson, who says:

"Nothing too strong can be said for Catarrhozone. I suffered four years from asthma in a way that would beggar description. I went through everything that man could suffer. I was told of Catarrhozone by a clerk in Findlay's drug store and purchased a dollar package. It was worth hundreds to me in a week, and I place a priceless value on the benefit I have since derived. I strongly urge every sufferer to use Catarrhozone for Asthma, Bronchitis and Catarrh."

The one-dollar package lasts two months; small size, 50c; sample size, 25c; all storekeepers and druggists, or the Catarrhozone Co., Kingston, Canada.

It doesn't matter very much to the average man what church he attends, just so there are cushions on the seats.

## Minard's Liniment For Garget In Cows.

Queer.

Jim—"Uncle, when a thing is bought it goes to the buyer, doesn't it?"

Uncle—"Yes."

Jim—"Then, how is it, when you buy coal, it goes to the cellar?"

## CHILDHOOD AILMENTS

The ailments of childhood—constipation, indigestion, colic, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are a mild but thorough laxative which instantly regulate the bowels and sweeten the stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest baby with perfect safety. Consulting Mrs. Adelle Lepage, St. Beatrice, Que., writes: "Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her plump and well." The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Probably the worst mistake a man can make is to correct the mistakes of his friends.

A Pill That Lightens Life.—To the man who is a victim of indigestion, the transaction of business becomes an added misery. He cannot concentrate his mind upon his tasks and loss and vexation attend him. To such a man Parmelee's Vegetable Pills offer relief. A course of treatment, according to directions, will convince him of their great excellence. They are confidently recommended because they will do all that is claimed for them.

German submarines take on an average 10 weeks to reduce the "scrap" whose value is said to be about \$12,500.

## German Spies in U.S. Army

Former Captain in U.S. Infantry Reveals Story.

How Germany sent 300 cadets to the United States and had them enlisted in the United States army, the majority of them reaching the firing line, doing spy work for the German Government, and many of them being killed, was revealed in New York following the arrest of John Willet, 30 years old, formerly a Captain in Company K, 48th United States Infantry, and himself a German. He is charged with embezzlement of \$6,000 of Company K's funds and desertion. Willet declared himself very disappointed at not having been able to do service for Germany. He did not reach the other side during the war, and deserted his company after the armistice was signed and his services to the Kaiser no longer could prove of any value.

## New Kind of Fuel

Coal Will Soon Be Obtainable in Liquid Form.

Coal may in future be bought by the bottle. A liquid form of the fuel has been invented by G. C. Calvert, of Twickenham, who calls it "Colloil." It is made from a mixture of about sixty per cent. coal dust and forty per cent. crude fuel oil residue.

"The experiments I have now completed," said Mr. Calvert, "were undertaken primarily with the object of finding commercial uses for the enormous quantities of dust fuels which are too small to use for briquettes or stoking."

"It is officially estimated that there are over a million tons of these surplus fuels lying idle in this country alone, and in normal times the production is as much as 30,000 or 40,000 tons a week."

"Colloil" is made by mixing oil and coal dust in a small machine, just as one might mix flour and water.

"I am satisfied that by using 'Colloil' in any plant at present burning residual oil economies to the extent of thirty per cent. can be achieved."

## As To Atrocities.

Canada is probably unique among the nations in never having been charged with atrocities. We did nothing more severe to the Indian than to put him on the "Indian list." At that he can no longer complain because we have placed ourselves upon the list with him. Members of the legislature, and even members of parliament, often murder the King's English, but these are bloodless atrocities. High court judges go from one shire town to another finding nobody to try at the assizes, and county sheriffs complain bitterly of the ever-increasing cost of white gloves—Toronto World.

## Germans File Claims

Seek to Collect Alleged Debts From Canadians.

The Canadian Clearing Office at Ottawa is adjusting 2,463 claims from Germans for debts alleged to be owing them by Canadians. Of these 134, amounting to \$5,954, have been admitted as accurate, 59 have been contested, 19 returned as defective. All claims are dealt with at the pre-war rate of exchange and with interest at 5 per cent. prevailing in most cases. Canadians have filed 450 claims against Germans, and 234 totalling \$1,705,348, have been forwarded to the Central Clearing Office at London to be set on to Germany for final adjustment.

One of the best known guides in Nova Scotia gives this testimonial of MINARD'S LINIMENT—

Have used MINARD'S LINIMENT in my home, hunting and lumber camps for years and consider it the best white liniment on the market. I find that it gives quick relief to minor accidents, such as sprains, bruises and all kinds of wounds. Also it is a great remedy for coughs, colds, etc., which one is liable to catch when log driving and cruising during winter and spring months. I would not be without MINARD'S LINIMENT and cannot recommend it too highly.

(Signed) Ellison Gray, East Kemptville, N. S., Feb. 24, 1920.

Chinese and the Famine.

Although the greater part of China's vast expanse is unusually prosperous this year, some 30,000,000 of the population are in actual distress and starvation due to famine. China's "advanced" political and advanced thought is not advanced enough to be saving one of the duties.

## Taking My Chance.

If you take my chance to get better or for worse, I began the person who is all the same to you, and the inexperienced bridegroom nervously, "I'll take it for better."

## Women School Trustees.

Women trustees have been elected to and are now officiating on the boards in 323 school districts in Saskatchewan, according to a return tabled in the Assembly by the Minister of Education. A sufficient number of the boards have more than one woman trustee to bring the total number of women trustees in the province up to 367.

## Catarrh Cannot be Cured

by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE will cure catarrh. It is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE is what produces such wonderful results in catarrhal conditions.

Druggists 75c. Testimonials free. E. J. Cheney & Co., Props., Toledo, O.

## War Brought Wealth to Negro.

A negro at Seaford, Delaware, suddenly became wealthy as a result of four of his sons being killed during the war. Each of the sons had a \$10,000 war risk insurance policy, so that Selby is now due to receive \$40,000, which will be paid to him at the rate of \$230 a month for twenty years.

## Big Immigration Movement.

It is estimated that the immigration movement to Canada will be responsible this year for nearly 200,000 newcomers, these being largely from Great Britain and the United States. Canada's high water mark in immigration was reached in 1913, when 403,436 persons entered the Dominion. The first six months of the present fiscal year saw the entry of 95,005 immigrants, which shows an increase of 3 per cent. over the same period in the previous year.

## "My Back Is So Bad"

PAINS in the small of the back, lumbago, rheumatism, pains in the limbs all tell of defective kidneys.

Poisons are being left in the blood which cause pains and aches.

The kidneys, liver and bowels must be aroused to action by such treatment as Dr. Chase's Kidney-Liver Pills.

There is no time for delay when the kidneys go wrong, for such developments as hardening of the arteries and Bright's disease are the natural result.

One pill a dose, 25 cents a box, all dealers. Dr. Chase's Kidney-Liver Pills.

W. N. U. 1347
