

The Path to Health

For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructor which acts directly and favorably upon the feminine organization and is a specific for that purpose.

You will like Lantic fine!

For BAKING. For pound, tea and sponge cakes, coffee cakes, angel cake, layer cakes, fruit cakes, coconut cakes, pork cakes, nut cakes, short cakes, macaroons and biscuits, crullers, rolls, buns—ALL cakes—Lantic creams quicker with the butter—because it's FINE.

For BEVERAGES. For tea, coffee, cocoa, lemonade, root beer, orangeade, lemon pop and fruit punch—in fact for all home-made beverages—use LANTIC. There will then be no wasted spoonful left at the bottom of the cup or glass—because it's FINE.

FINE in granulation—finer than all other sweeteners in actual use—finest in results obtained. "Fine" has many meanings to the Lantic user! In snowy glistening crystals of pure cane sugar—all sugar and nothing else—Lantic brings you concentrated sweetening. And because each crystal is fine and even, Lantic dissolves at once—it instantly delivers its great sweetening power without hesitation. Of course it goes farther. Of course it costs less. Of course you will like it fine.

In **PRESERVING** late fruits such as pears, plums and peaches, it eliminates the danger of over-cooking, which robs fruit of its natural color and shape, and some of its flavor.

In **BAKING**, Lantic creams quickly with the butter—which makes the cake light and dainty. Creaming need not be tedious.

In **CANDY-MAKING** fine granulation gives candy a soft velvety quality. Most of the highest grade chocolates and finer candies are made with Lantic. The exquisite "velvet" of the best chocolate creams comes from Lantic fineness.

In **TEA or COFFEE**, in fact in all beverages (hot or cold), every Lantic crystal dissolves at once, yielding readily the full sweetening of the purest cane.
