## TRYING TO STIR THEM UP

Mayor Teetzel Writes to Street Railway People.

THE DISPOSAL WORKS BOILER.

THE DISPOSAL WORKS BOILER.

Mayor Teetzel to-day took a step which should lead to an understanding which should lead to an understanding with the Street Railway Company about the payment of mileage and percentage to the city. He wrote to the President of the company, pointing out that payment for the quarter ending March 31st and for the second quarter, ending June 30th, had not been made, and asking that the cheque be sent without delay, together with interest at 5 per cent. on the first quarter, from April 15th. He thus allows the company 15 days in which to get its returns made up. Unless the letter has the desired effect on more payments on account of street lighting will be made to the company.

Ald. Nelligan yesterday got from Engineer Leckie, of the sewage disposal works, Inspector Robb's report on the boller at the Ferguson avenue works. It had been sent, in the usual way, by the Assistant City Treasurer, to the engineer in charge of the works at the same time as similar reports were sent to the engineers in charge of the House of Refuge and the City Hall bollers. The report contains the following:

We beg to inform you that the steam boller, No. 1, at Ferguson avenue, was inspected with steam off on the 15th inst., and as far as could be ascertained, found in the following condition:

tion:
There is quite a bulge on the bottom
of this boiler, caused by overheating
of the plate from some deposit, probably of a greasy nature, having been
in contact with it. The bulge should
be heated and put back into true shape be heated and put back into true snape again. This can be done by a boiler-maker, but should be very carefully done. The feed pipe inside of boiler should be changed so as to discharge water into a pan placed on top of the tubes.

Boiler was tested to a water preserve of 150 regulds per source into

Boller was tested to a water pres-ure of 150 pounds per square inch and several tubes were found to leak These should be expanded and made

These should be expanded and made tight.

When repairs have been made would suggest that 100 pounds of soda be put into the boiler and raise steam to about 60 pounds pressure and keep it so for a few days, using both surface and bottom blow off freely each day. Then allow boiler to cool and wash out through manhole and hand-holes, and have a man go inside and scrape the inside as much as can be got at. Some means should be taken to keep all greasy matter out of the boiler, else serious injury will follow.

And now it transpires that And now it transpires that Engineer Leckie had written to the Manager of the works, pointing out that this buige existed before Mr. Robb made his report, and suggesting that an oil arrester be put in. Mr. Barrow, on receipt of the letter, had a talk with Mr. Leckle, and the matter of the defect referred to and the letter way to expend it were not matter of the defect referred to and the best way to remedy it were un-der consideration by the department when Mr. Robb made his inspection. The boiler was, and still is, consid-ered to be in no danger.

The Government dredge has about completed its work at the smelting works dock, and will move over to the Beach channel to-night. It is expected that it will have two-shalllow spots deepened in time to some laden vessels to come in to smelting works early next week.

Mayor Teetzel has received another Mayor Teetzel has received another touching appeal from the wife of Charles Russell, the pick-pocket, who got a year for operating here on May 24th, seeking his assistance in an effort to get him out of Central Prison. The Mayor, however, has found that Russell did time is Philadelphia, and his record is such that no effort to get him out is likely to succeed, and he has so advised Mrs. Russell.

Old Daniel Cummings, who was put out of the House of Refuge because of bad behavior, has written a very humble letter to Mayor Teetzel, say-ing that he is in dire distress and forced to beg. He asks the Mayor to get him back again, and promises to be good for ever more.

Miss H. Cliff, 84 Melbourne street, Miss H. Cilf, 84 Melbourne street, has written to the Mayor stating that last evening, while walking with a friend on that street, she tripped over a loose plank, was thrown, and received injuries which will prevent her following her usual occupation. She asks the city to compensate her for the loss sustained,

The Board of Education Building Committee started at 2.30 this afternoon to complete its tour of inspection of the city schools.

Inspector Robb's report on the House of Refuge boiler says the boiler was found well cleaned, in very good order and well cared for, Malcolm McKenzie is engineer,

### Reunion of Old Folks.

Reunion of Old Folks.

Mr. and Mrs. Stewart, widow of the Mate Wm. B. Stewart, widow of the Mate Wm. B. Stewart, of the same place, on July 4th paid a visit to the widow of the late Richard Quance at the restince of her son, William H. Cline. The youngest of the four persons mentioned is Mrs. Cline, who is in her 83rd years; the oldest is Mrs. Stewart, in her 85th year. These two are sisters. The aggregate of the ages of the four is 333 years.

### Well Worth Remembering.

A firm to be progressive must keep in touch with the requirements of the people. Messrs. Green Bros., the undertakers, have recognized this and have introduced a system to their increasing business by manufacturing their own burial cases, thus doing away with the middleman's profit. Their office is open day and night. Telephone, No. 955.

Dalley's Perfect Coffee is put up whole or ground with no chicory. The reason we do not put in chicory is that it is only half the price of coffee and if people like it they can buy it separately and put it in to suit their taste. We sell you the very best coffee blended, under the name of Dalley's Perfect Coffee and you can regulate the flavor of it and use it to suit. It is guaranteed to give perfect satisfaction.

Your best friend can give you no better advice than this: "For impure blood, bad stomach and weak nerves take Hood's Sarsaparilla."

#### CATHARINE STREET BURGLARS.

Mr. G. Elder's and Mr. J. Walton

During the night burglars entered the residence of Mr. J. Walton, No. 148 Catharine street morth, and stole three umbrellas, a purse containing 50 cents, and some other articles.

The residence of Mr. G. Elder, next door, No. 146, was also entered, and a quantity of silver plate, souvenity spoons, and some knives and forks were stolen.

# were stolen. Entrance was effected at a cellar window in each house. The cases have been reported to the police. FINED FIVE CENTS EACH

Bathers Up for Not Wearing

the Regulation Costume.

THOS. TAAFE SENT TO PRISON. Ward McAllister's book on how to dress for the street and ball room doesn't deal with swimming costumes, but so far as bathing in the bay is concerned the etiquette of dress for the water is covered in a city by-law. The ordinance calls for a suit to cover the body from the neck to the knees. Nothing is said about material, cap or ornaments, but this may be only an oversight. The by-law was put in at the Police Court this morning, when three young men were charged with bathing at the foot of MacNab street without the regulation costumes. P. Cl Campbell was the complainant. He) said the defendants had ordinary ewimming trunks. The trunks were of good, trunks. The trunks were of good, heavy cloth, and it is doubtful if they heavy cloth, and it is doubtful if they could be seen through with the aid of a telescope. They were not much bigger than tights worn by some ballet girls. The defendants said they didn't know they were violating a by-law, and were fined only 5 cents each. The Magistrate, in a jocular way, suggested they put on petticoats if they cannot get the regulation costume. The fines were paid. The defendants were Stanley Slaght, Norman Van Wyck and Fred. McArthur.

T. Plovard, Vincent Forbes and Wm. Clarkson, small boys, residing near the

McArthur.

T. Plovard, Vincent Forbes and Wm. Clarkson, small boys, residing near the corner of West avenue and King William street, pleaded guilty to a charge of helping themselves to onions in Wm. Wessler's garden. Mr. Wessler asked that they be simply warned, and they were allowed to go free.

Thos. Taafe, Florence street, who pleaded guilty yesterday to a charge of stealing \$5 from Wm. McDaid, was sentenced to Central Prison for six months.

sentenced to Central Frison of months.

Chas. Mooney, a boy, charged with trespassing in E. James' garden on Emerald street on Dominion Day, proved an alibi and was acquitted. Witnesses swore he was at the House of Providence picnic at the time he was said to be in James' cherry tree. Henry Marshall, Mary street, were fined \$25 for fighting at the corner of James and King streets one Saturday night in June. P. C. Canaryi was the complainant.

June. I. ... inanti or leaving their horses untied on or leaving their horses untied on the Central market Jephtha Herriman, Bay street, and Chas. Lawry, mountain top, were fined \$1 each.

The charge of assault preferred by Mrs. Cornelius Murphy, MacNab, street, against her husband, was dismissed. No evidence was taken. Mr. A. M. Lewis, sollcitor, announced that a deed of separation had been signed.

Ed. Hennesy got judgment for \$15.50 against the Hamilton Steel & Iron Company. Hennesy, it apnears.

Fig. 50 against the Hamson steel of Iron Company. Hennesy, it appears, received another workman's envelope, which contained only \$4. The com-pany's defence was that Hennesy should have straightened out the error before he left the paymaster's wicket.

#### DEATH OF DR. FINDLAY. only Son of W. F. Findlay Passed

Away This Morning. Away This Morning.

The many friends of the family of Mr. W. F. Findiay will extend sincere sympathy upon the death of Dr. Charles Findiay, Mr. Findiay's only son, which occurred this morning at the old homestead of the late Hon-Leaac Euchanan, where the family has resided for some time. Deceased was only 25 years of age, was an exceptionally clever young man, and, had he been blessed with health, would undoubtedly have won fame as a surgeon. He was a graduate of McGill undoubtedly have won fame as a surgeon. He was a graduate of McGill University, having won honors there and taken his degree before reaching the age of 21. He subsequently graduated at the Ontario College of Physicians and Surgeons, and in 1895 returned to Hamilton, and for eighten months during that year and 1896 was house surgeon at the Hamilton City Hospital, where his great ability was soon recognized. His health began to fall, however, and, he was compelled was soon recognized. His neath began to fail, however, and, he was compelled to give up the practice of his profession. He sought to regain health at Gravenhurst and other places, but without avail, and for some time his death had been looked for. He was as

death had been looked for. He was as kind, generous and true-hearted as he was clever, and his loss will be deeply felt by all who knew him. The funeral will take place on Sun-day at 3 p.m., from the family's city-residence, 33 Bold street.

residence, 33 Bold street.

1. P. B. S. Quarterly Meeting.
The quarterly meeting of the Irish Protestant Benevolent Society was held fast evening in the Y. M. C. A. rooms, with President Peebles in the chair. Several new members were enrolled, and a large amount of general business was transacted. The arrangements for an excursion to Buffalo over the T., H. & B. R. on Civic Holiday were completed, and a good supply of comfortable cars will be furnished. A committee was appointed to arrange for an outing of the members and their families to take place at an early date. Twenty-one members paid the usual annual fee.

Grant Here Again.

Grant Here Again. Grant Here Again.

C. G. Grant, the rough rider trick hicyclist, fine delighted so many people at the Hamilton View Hotel a short time ago, is back in the city and will perform at the Bartenders' Union's banquet at the same place to-morrow might. He will go to Ingersoil from this city and then fill a week's engagement at Toronto.

Cures Dandruff. Cures Dandruff.

Nothing is more annoying than dandruff. Bloxam's electric hair restorer keeps the scalp clean and free from dandruff; stops the hair from falling out, and produces a new growth, restores gray hair to original color, giving a beautiful gloss and softness to the hair. Price 50 cents. Sold by H. Spencer Case at 40 cents.

Nice Anywhere.

Nice Anywhere. Celery thin biscuits are all right at funch, dinner or breakfast, for eallers or at a picnic, or with a bit of cheese before retiring; nice with coffee or tea; nice with wine or lemonade, 20c a lb. at Carpenter's, 10 Market Square.

Electric Cars Were Affected by the Storm Yesterday.

BARN ON MOUNTAIN STRUCK. BARN ON MOUNTAIN STRUCK.
Yesterday afternoon's storm was
the severest of the season. Considerable damage was done by the lightning, but the good done by the rain
made up a hundred times for the loss
sustained. The lightning played have
for a time with telephone wires in
various parts of the city, and it disarranged the fire alarm system for
a while. It struck the corner of the
new addition to the Sawyer-Massey,
works, but did not damage it badly. A team of horses, belonging to
Hendrie & Co., became frightened and
ran away. A large oak tree in Woodland's Park was struck. A deep groove
was torn in the tree from the top
to the ground, and large pieces of
bark and wood were thrown a
distance of over a hundred feet.

tance of over a hundred feet.

Passengers on the H., G. & B. electric car, which reaches here from the east about 6 p.m., had two scares yesterday afternoon. The car was well filled, and had just left Fruitland on its westward run when a ball of fire ran zig-zag, fashion through the car, extinguishing the lights. The lightning also threw the controller out of gear, and the can came to a standstill. Several women among the passengers were afraid to remain in the car. As soon as the controller was got in shape again the car resumed its journey, and at Wentworth street, there was another bilinding flash that illuminated the car stopped, and there were more desertions by passengers. After a short wait the car was brought on to the H., G. & B. station. The motorman was uninjured. President Myles was on the car, and remained beside the motorman throughout the trip.

Armatures and fuses in many of the street cars were burned out, and traffic was delayed for some time. The rain swelled the company's receipts at 6 o'clock, however. On the Electric Cars.

o'clock, however.

A Barn Burned. A Barn Burned.

About 5.30 a barn owned by Mrs. Kerr, and stuated on the mountain, south of the reservoir, was struck by lightning and burned to the ground. One of Mrs. Kerr's daughters was mikking a cow in an adjoining stable when the barn caught fire. The cow, jumped about four feet in the air and bolted. Miss Kerr ran out after the cow and saw the fire She gave the alarm and the family managed to save some horses, but a quantity of bay and nearly all the farm implements were destroyed.

Good for Crops.

Good for Crops.

The farmers and fruitgrowers are jubilant over the heavy rainfall. As one farmer put it this morning, 'That rain was just what the country around here needed, it will do an immense amount of good to the spring grains, has helped roots and freshened up pasture. About all the damage it did was the knocking down of some wheat, and that won't amount to much, because the wheat was nearly all rips, anyhow. It will justi make it a little more troublesoms to harvest. Good for Crops.

Fruitgrowers say that before the Fruitgrowers say that before the rain plums and peaches were in danger of drying on the trees. Yesterday's flood, however, will satisfy the fruit trees' prolonged thirst, and also help raspberries and currants to a very great extent.

Meat Cutters' Case Not Settled Yet.

Meat Cutters' Case Not Settled Yet. To the Editor of the Times:

Sir,—Mr. Lawry and his superintendent have made up their minds to get rid of all their union men, with the exception of those who were mean enough to sign his document, and of late have been discharging one at a time what few of his old hands are left. Judge of his surprise yesterday morning, when a number of his hept men wasked out in a body on account of the superintendent hiring new men to take the places of his union men, after pledging his word to sthad by the men to the last. The undermining principles of these two men have caused public sympathy to be stronger than ever with the men. Mr. Lawry not only broke his word with the men. Mr. Edwry not only broke his word with the men. Mr. Edwry not only broke his word with the men. Mr. Edwry not only broke his word with the men. Mr. Edwry not only broke his word with the men. The men are thankful to those outside friends, who have offered them financial support to flight this affair to a finish. (Signed) Jas. Robbins.

The Radial Service. To the Editor of the Times:

The Radial Service.

To the Editor of the Times:

Sir,—Complaints are being made daily of the lack of seating accommodation on the cars of the Beach Radial road, but without avail. Last year each car was provided with at least half a dozen camp stools, but this year only one or two can be found in each car. Surely the company could spare aftew dollars from their big earnings on Dominion day and provide some more chairs. The regular patrons of the road, and there are dozens of them, have kicked about long enough for better accommodation, and the company, by their utter indifference, can only blame themselves if a general petition is sent in to the G. T. Rallway to restore their suburban service next year. Let me say, in conclusion, that monopoles do not always last forever, and it will pay the Radial Rallway Company to be a little more generous than they are at present. Yours, very truly.

Beach Watering and Lighting.

Beach Watering and Lighting. To the Editor of the Times:

Beach Watering and Lighting. To the Editor of the Times:

Sir,—Will you kindly give me space for some explanation respecting the watering of the roadway at the Beach. Explanation appears to be the more needed as some of those who are discussing Beach affairs evidently are not in possession of all the facts. When the Radial Railway Company obtained its charter the intention was that its tracks should be laid on the travelled road, and one of the conditions in the by-law was that, at certain times, it should water the road for a distance of three feet on each side of its track. Subsequently at the instance of the Township of Saltifiest the company was required to place its track to one side of the wagon road, and it is in some places forty or fifty feet distant from it. The company literally complies with the provisions of the by-law, for it sprinkles its track and a space of three feet on each side. This, however, is a waste of money, for the travelled road is not sprinkled, and at times the dust is very annoying.

The position of the company is that it is doing all that the by-law requires it to do; that it is impossible to water the roadway by means of an electric sprinkler, and that it would gladly comply with the spirit of the original understanding, if it were possible. But the officers of the company say, that, as that is made im-

possible, not by their own desire, but that of the township of Saltileet, and, as the sprinkling now done, is of little or no value, they are willing to abandon it, and in lieu of the sprinkling to light the Beach. My impression is that the lighting would be of as much value to the residents and to visitors as an efficient watering service would be, and infinitely more valuable to the present inefficient service.

service would be and infinitely more valuable to the present inefficient service.

But the sprinkling of the readway is highly desirable, and I should think it should be done by ordinary watering carts, and the cost paid by the city, the township of Saltfleet and the Beach residents. The Beach residents pay about \$600 to the city annually as rental for their lots. The watering is needed in their interest and also in that of visitors from the city who make of the Beach a pleasure resort. It is not unreasonable to ask that a part of the charge for sprinkling should be paid by those who visit the Beach, as well as by those who have cottages there.

The Beach residents pay taxes to the township, and I am informed that the township, and I am informed that the township, and I am informed that the township officials are quite willing to expend the money for the benefit of the Beach residents and visitors as they themselves may indicate. The expense would not be great. I think, perhaps, that, under all the circumstances, the Radial Company should be asked to supply power to pump water into the cartes.

If this plan be carried out the Beach will be made more attractive to visitors, and it would also be an inducer.

If this plan be carried out the Beach will be made more attractive to visitors, and it would also be an inducement for people to build more cottages there, as there is plenty of room for them. Besides making the Beach a popular rendezvous, it would be an advertisement for the city of Hamilton. It is also to the interest of the Radial road to make it as attractive as possible, for the more the people travel to and fro the better it is for them. Thanking you for your space, I remain, yours truly, Beach Resident.

Hamilton, July 5, 1900.

#### LOST HIS RIGHT HAND.

erious Accident to a Press Feeder in Times Office.

in Times Office.

Willie Holman, a 16-year-old lad employed in the Times ticket printing department, met with an accident yesterday afternoon which resulted in the loss of his right hand. He was feeding a press when he allowed his hand to remain in long enough to be caught and terribly crushed. He was at once placed under the care of Dr. Rodgers and taken to the City Hospital, where it was found necessary to amputate the hand. The lad is a son of Mr. T. W. Holman, showmaker, No. 195 John street south. He had been repeatedly warned about maker, No. 195 John street south. He had been repeatedly warned about leaving his hand in the press, and only the day before had been told that the habit would, if not guarded against, result in injury to the member. The press is a slow working one and one on which, with care, there need never be an accident. This is the first accident of this sort that ever occurred in the Times office.
