Guarantee Bonds

To Municipalities

A form of Government guarantee

f municipal bonds will it is stated

be the plan the Drury government

will adopt to assist the carrying on

of municipal housing after the money

now on hand for that purpose has

been exhausted. No official announce

ment of the policy will be made,

probably until the housing bill is laid

before the house, but the plan to be

followed has after a good deal of

careful consideration on the part of

the Provincial Secretary, Hon. H. C.

The backing of municipal bonds

if resorted to, would provide a fairly

satisfactory method of financing for

the municipalities without committ-

ing province to tremendous direct

borrowing. Municipal bonds cannot

of course be placed at a price that

will give as low an interest rate as

the 5 per cent now being paid for

loans secured from the Federal ap-

propriation, but most of the larger

around 6 per cent, if given provin-

cial backing, and the provinnce is now

paying very close to that for money.
