Diocesan Synod Proceedings.

SATURDAY, Sept. 25.

The Session was called to order at 7.30, the Lord Bishop presiding. Prayers were read, the rolls were called and the House proceeded to business. The minutes of yesterday's session were read and passed.

Canon Bolt moved the suspension of the Rules of Order for the remainder of the Session. Agreed.

Canon Smart moved for the insertion of an omission in the Report of the Select Committee on Finance, adopted by Synod at last night's Session. Leave was granted and ordered that such insertion be made.

Rev. A. E. Tulk moved the third reading of the Bill to amend Chapter III of the Constitution and Rules. Agreed. Bill was read third time and passed.

Canon Smart read the resolution attached to the Report of the Board of Missions.

1. That the Synod relinquish its annual grant from the Society for the Propagation of the Gospel in foreign parts. On motion duly seconded this was agreed.

By this resolution the Church in Newfoundland has determined that she would henceforth endeavor to carry on her work in this Diocese without outside aid, and she has been moved to do this principally because she feels that the calls of the Mission Field are so great on the venerable Society which has for so long contributed to the Church in Newfoundland.

It will be a great source of gratification and thankfulness to our Church people to learn that our Church has at length been able to become an independent Church, in matters of Finance.

Canon Smart moved the second resolution attached to the Report of the Board of Missions.

That a Field Secretary for Missions be appointed for this Diocese. Agreed.

Canon Smart moved the Report of the Special Committee on the Relations of the Board of Missions to the Executive Committee, and to define the duties of the Board. On being seconded, the Report was adopted.

Rev. G. Elliott read the Report of the Special Committee appointed by the Synod on Statistical Returns.

Mr. Elliott moved that this Report be received and referred to the Executive Committee for further consideration. This was agreed.

Produce and Provisions.

(From Saturday's Trade Review.)

CODFISH.—The report from the schooners on the Northern part of the Labrador coast is not at all promising, and it may be that when the catch is all collected that it will be found to be a much smaller one than anticipated. It must be further borne in mind that the number of schooners prosecuting the fishery is less by at least 100 this year than last. There are two steamers and a number of sailers on the coast of Labrador and the Straits leading for foreign markets, and we believe that they are rapidly securing the cargoes they require, on the basis of \$5.00 for ordinary Prime Labrador.

CODLIVER OIL.—There is nothing whatever doing in Codliver oil, and hardly anyone is taking any interest in the commodity this year so far. We hear of sales at \$1.20 per gallon and would not be surprised to see the price down to \$1.00 per gallon shortly.

COMMON COD OIL.—The fishermen are all holding back what little oil they have made, and the buyers in the foreign markets are holding off from buying until prices go down lower than they are to-day. If there was any large quantity of oil manufactured, we would certainly see prices down to \$150.00 per ton, but we think the fishermen will get \$200, or perhaps a little more for all there is this year. If there is any advance on these prices it will not be likely to last long.

LOBSTERS.—There is nothing doing in the Lobster trade and no demand from the United States. The nominal price here is down to \$20.00 and very low sales at this figure. Independent packers are holding up their pack in the hope that there will be a more favorable turn in their favor later in the season, which is very doubtful, as both American and French Governments are discouraging the importation of luxuries, and just now U. S. Banking Institutions will not advance money to fish jobbers, while money is lent out so largely to farmers in the harvesting.

BEEF.—The Beef situation is practically unchanged from last week's strong position beyond slight fluctuations caused from day to day.

It is expected by the Trade that to-day's prices will rule throughout

begins to play pranks with your nerves or digestion, quit coffee ten days, drinking

the fall. There is very little beef running in the local trade, owing to the extraneous dullness prevailing. This condition may result in a serious shortage later on in the season as there is very little being bought to arrive as compared with other years at this season. Prices in this market range from \$29.50 to \$36.00. Imports for the week 390 barrels.

PORK.—Ham Butt shows an advance of \$3.00 per barrel over last week's quotation in the U. S. Markets. This is said to be due to the scarcity of this particular brand. Other grades such as Fat Back and Mess do not show much change. United States advices indicate a reawakening interest of the export question to Europe of the pork accumulations there, and the market is only waiting for a resumption of this demand. As soon as it takes place there will likely be a sharp stiffening in prices. Local quotations to-day are \$54.00 for Ham Butt and Short Mess, and \$44.00 for short cut Fat Back to arrive. Imports this week were 155 barrels.

SUGAR.—During the early part of the week no one was buying sugar in quantity lots, pending a decision of the Sugar Appeal Case. But now that the Government has issued a new Proclamation under "The Imports and Exports" (Restriction Act), it is felt that they intend at all costs to keep up the prices as set by the Food Control Board, and that these rules will continue in force at least till the end of this year. There are large stocks held in the city at present. The latest quotation in New York is 14½ cents landed here, as against the F. C. B. prices of 27 3-4 cents wholesale, 32 cents retail.

MOLASSES.—The imports of molasses to St. John's to date amount to 7131 puncheons as against 10,522 last year. The "Mollie Fearn" is now at Barbados, and presumably will bring a load of molasses to this port, and two other cargoes expected should put the total up to about 3,000 puncheons, which will be a shortage of about 3,000 from the average. The prices are \$1.75 for Family and \$1.65 for Choice in the St. John's Market.

FLOUR.—The question that is troubling the wheat men of Canada and the United States to-day is whether the statistical conditions or the financial situation is going to govern prices in the near future. Statistically the position is regarded as extremely strong, while the financial situation is the reverse. So far the demand for wheat from Europe has kept up at a most surprising rate, notwithstanding the remarkable low rate of foreign exchange that is depressing trade, coupled with the strained conditions prevailing in European countries. There is no ease off in prices by Millers of the choice grades of Manitoba Patents, and they cannot be imported less than \$17.00 to \$17.50 per barrel duty paid here. There has been an advance of forty per cent. in railway freight rates throughout Canada, and this has counterbalanced any reduction in the price of wheat.

POTATOES.—Local potatoes are now plentiful in the market and selling freely at \$5.00 per barrel, and 20 cents per gallon. The crop is remarkably good and the potatoes are for the most part dry, sweet and large. Prices are expected to decline still lower next month, when the crop is harvested, probably to \$4.00 a barrel, if not lower, as foreign grown can now be imported and sold at this price.

HAY.—The prevailing price of hay in St. John's is \$54.00. Consignments to arrive in a few days will, however, sell at \$52.00 per ton. It is believed by the trade that after the early part of October, the price will cease fluctuating and keep a strong upward movement, owing to the higher freight rates and difficulty of getting cargo space for this commodity.

COAL.—The imports of soft coal for the past week to St. John's amounted to 5,833 tons; five schooners and two steamer loads from Sydney. This gives a total for St. John's of 81,552 as compared with 65,000 at this date last season. The S.S. "Bo-russia," with a capacity of about 3,600 it is said, will continue bringing coal here all the fall. There will also be several schooner loads. The price continues at \$19.50 per ton.
