## PROOFS OF THE SUPERIOR QUALITY OF THE AMERICAN WATCH

MADE AT  
**WALTHAM, MASS.**  
Referring to their advertisement in a previous issue of this paper, the American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market.

They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts.

How they run under the hardest trial watches can have, is shown by the following letters: **PENN. RAILROAD COMPANY.**  
Office of the General Superintendent,  
Allentown, Pa., 15th Dec., 1866.

**GENTLEMEN.**—The watches manufactured by you have been in use on this railroad for several years by our engineers, to whom we furnish watches as part of our equipment. There are now some 300 of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn out much longer without repair than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done so good service as yours. In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,  
**EDWARD H. WILLIAMS,**  
General Superintendent,  
American Watch Co., Waltham.

**NEW YORK CENTRAL RAILROAD.**  
Locomotive Department, West Division,  
Rochester, Dec. 24, 1866.

**GENTLEMEN.**—I have no hesitation in saying that I believe the great majority of Locomotive Engineers have found by experience that Waltham Watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they must be durable. I hope to see the time when Railway Companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,  
**CHAS. WILSON,** Chief Engineer,  
American Watch Co., Waltham, Mass.

We now make five different grades of watches, named respectively as follows:  
**Appleton, Tracy & Co., Waltham, Mass.**  
**Waltham Watch Co., Waltham, Mass.**  
**P. S. Bartlett, Waltham, Mass.**  
**Wm. Ellery, Boston, Mass.**  
**Home Watch Company, Boston, Mass.**

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be the best material, on the most approved improved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany each watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeiters and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of watch dealers.  
Testimonials can be obtained on application from many persons in Canada who have worn the watches with the greatest satisfaction.

**THE RUSSELL WATCH!**

**A FEW REASONS THAT MAKE IT SUPERIOR TO ALL OTHERS.**

1st—It proves itself a reliable time-keeper beyond all question.  
2nd—The RUSSELL WATCH being made on correct and scientific principles, it must follow as a natural consequence that it will keep time.

3rd—Each part of which the RUSSELL WATCH is composed is a reflex of the perfect machine which possesses that merit to a demonstration.  
4th—Truth is the essential of each part.  
5th—Uniformity and conformity must therefore characterize the several parts in fulfilling the purpose for which they are made and brought together.

6th—Reproduction, as regards watch work, is simply an application of the principle that "things which are equal to the same things are equal to one another," and if there is any merit, the RUSSELL WATCH possesses that merit to a demonstration.  
7th—The greatest variety of price, quality and size, that confidence and perfection will admit, afforded by the RUSSELL WATCH.  
8th—The RUSSELL WATCH stands pre-eminently above all competitors for public favor and patronage.  
9th—Proofs of the foregoing—the universal testimony of all Watchmakers who have sold, and the positive statements of the thousands in Europe, the United States and Canada, who have worn the RUSSELL WATCH.

**TESTIMONIAL.**  
To Robert Cuthbert, Watchmaker, Wyndham Street, Guelph.

If Society was as perfect in its organization, and was as obedient to the dictates of truth as the RUSSELL WATCH I bought from you is in indicating time, evil would be swallowed up in good, and happiness would become monotonous.  
G. RENNIE, Guelph
