**VERY HARD TO KILL**—That people survived the depleting lancet, the drastic purge, and the terrible salivants of 50 years ago, is proof that they are hard to kill. The motto of modern medical science is "PRESERVE AND REGULATE, NOT DESTROY," and no remedy of our day is so entirely in harmony with this philanthropology as Dr. DEPEW'S MEDICAL VICTORY. In this powerful yet harmless VEGETABLE RESTORATIVE, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, are counter an irresistible antidote.

Halifax, Feb. 10th, 1872.—Mr James I. Fellows—Dear Sir: In order that some other sufferer may be benefited, you are at liberty to give this letter publicity. In the winter of 1869 I was taken ill with disease of the heart, accompanied by violent palpitations from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosphites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and I am as well, fat and hearty as I could wish to be. Yours very truly, W. FRANK COCHRAN.

The Heart being a great muscular organ, requires vigorous nervous force to sustain it. As Fellows' Hypophosphites restores the nervous element, it will all ways strengthen the Heart weakened through loss of this element.

THE INVENTOR.

**NO** intelligent mind can fail to observe how the various and ever varying wants of the community are attended to by the enterprising merchants of Guelph. **A Chemical Food and Nutritive Tonic.**  
Without Phosphorus no thought, say the Germans, and they might add, no action, since Phosphorus and the Compounds are known to be the motive power of the nervous and muscular system. They constitute more than half the material of the human body, being found in every tissue, and their presence is absolutely essential to nutrition, as they promote the conversion of albumen in the food into fibrin, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrophulous, Consumptive and other diseases, and are caused by impoverished or poisoned blood; and in diseases of women suffering from irregularities, obstructions and exhausting discharges, in pale, puny children, and that condition of nervous and physical prostration generally, called the Mocking Bird. The following subjects are also practically and thoroughly benefited by its use:—Reportings, Shortness of Breath, Pemmance, Book-keeping, Music, French, German, Classics. Students prepared for College or University. Classes for Ladies in English, French, German, Music, etc. Our Teacher in Music has had seven years experience in London, England. Terms moderate.
